

Initial Comments on Crime Trends

01/04/2014 – 01/04/2015

Sgt 6614 Adrian Walker

Windsor Central

Initial Consultation Response,

Thames Valley Police

- I have reviewed incidents in the very near vicinity of the Eton Thames side over a rolling 12 month period (starting April 1st 2014 -date).
- In the last 12 months there have been **31** calls to police reporting anti-social behaviour and disorder.
- The large majority (about 75%) have been between 0000-0500hrs in the morning.
- In the same space of time there have been **5** actual reported crimes (mainly assaults).
- To put it into context since January 2015 there have been **6** calls to police reporting Anti-social behaviour, again in the early hours of the morning, evidently the problem increases with the warmer weather.

I will bring these figures with me to the meeting where we can go more in depth with them.
