REPORT SUMMARY

The RBWM budget for 2018-19 will support the council's work to create a borough where everyone can enjoy living, working and nurturing their futures and their family.

The financial climate in local government remains tough and the demands on the council have increased, but RBWM is ready over the next 10 years to deliver more investment in schools, highways, leisure and community facilities to support draft Borough Local Plan.

Many councils are having to cut or close services but through sound management and careful investment this council will be able to protect and enhance its services for local people.

This is because:

- Our new partnerships this year have sustained our Adult, Children's and Highway services;
- The Adult Social Care Levies in the last two years have so far fully supported the rising cost of caring for a growing number of our elderly residents;
- Investment this year and next in more capacity across our schools, parking and leisure facilities will continue to support the draft Borough Local Plan and accelerate regeneration, particularly in Maidenhead.

Responsible decisions are necessary to ensure prudent management of public money and to balance the needs of our residents, council taxpayers and staff:

- Next year's costs are under pressure with a significant rise in inflation.
- Low interest rates along with other factors have reduced the Pension Fund's returns and require additional payments next year to meet our obligations to current and past staff;
- Increasing resident needs next year will be offset by our continuing efforts to deliver better for less with targeted reductions in operating costs;
- Fees and charges for a wide range of services will be increased by no more than inflation.

Overall, the net positive cash projections over the next 10 years reflect the Council's prudent and innovative approach to development in Maidenhead.

1 DETAILS OF RECOMMENDATION(S)

RECOMMENDATION: That cabinet

- i) Notes the report and progress made towards building the 2018/19 budget.**
- ii) Approves the 2018/19 schools capital programme detailed in paragraph 4.6 and appendix D.**

2 REASON(S) FOR RECOMMENDATION(S) AND OPTIONS CONSIDERED

- 2.1 A decision is required on the schools capital programme to enable the procurement process to be completed in a timely manner.

3 KEY IMPLICATIONS

- 3.1 The budget is expected on 22 November 2017 with the provisional local government financial settlement announced in December 2017 and finalised by the end of February 2018.
- 3.2 A full set of documents (report and all appendices) has been prepared and will be distributed, in advance of Cabinet, to the Corporate Services Overview and Scrutiny Panel for their meeting on 22 November 2017. The Chairman of the panel has offered an open invitation to members to join this meeting.

4 LEGAL IMPLICATIONS

- 4.1 The Local Government Act 2003 requires the Chief Financial Officer (Deputy Director and Head of Finance) to report to Members as part of the budget setting process, on setting the level of council tax, the robustness of the budget presented and the adequacy of reserves.

5 RISK MANAGEMENT

- 5.1 The financial elements of items put forward in the budget preparation report are subject to change and changes will be reported to both Cabinet and Council as part of the budget setting process in February 2018.

6 POTENTIAL IMPACTS

- 6.1 None at this stage.

7 CONSULTATION

- 7.1 To include:
 - Comments from the relevant Overview and Scrutiny Panels. Comments will be reported to Cabinet'

8 TIMETABLE FOR IMPLEMENTATION

1	CB002540	LTP Feasibility Studies, Investigation and scheme development	Communities	All Wards	<p>The Local Transport Plan is a key RBWM strategic plan that sets out our objectives for the medium -term. We report our performance against the targets to government each year. Annual capital work programmes of approximately £4million need to be delivered to support these targets and objectives. Currently no funding is available to carry out feasibility studies, investigations, consultations and develop programme for future years. This funding would enable RBWM to prepare schemes and better target programmes for the next year in parallel to delivery of the current year's programmes. In addition, suitable schemes would be developed that may attract grant funding. Benefits of this bid are efficiency and delivery of targeted projects that maintain our assets, improve safety, address congestion, improve access. In addition, capacity improvements developed as part of the Borough Local Plan will need to be developed from an outline concept stage through to costed outline designs.</p> <p>Within this capital bid it has been requested by Cllr L Jones that we look at an offset roundabout at Church Road/Straight Road junction in Old Windsor.</p>	60.0	30.0	15.0	0.0	15.0	0.0	0.0	Cllr Bicknell	Ben Smith	Highways, Transport & Environment
2	CB002501	Bridge assessments and Strengthening works	Communities	All Wards	<p>The Royal Borough has a statutory duty to undertake specific cyclic inspections of bridges and highway structures to ensure basic safety responsibilities are being delivered. These inspections may highlight essential minor capital works (e.g. safety repairs to the structure, parapet walls, weight and height limit signing, pedestrian facilities). Following these inspections it has identified certain structures are currently structurally weak and if work is not carried out to them they will require a weight restriction enforced on them or they have deteriorated to any extent that major refurbishment is required. All the structure concerned are on the boroughs main network and would have a detrimental impact in terms of road safety, if repairs are not carried out. The objective of the project is to introduce measures to mitigate and minimise any potential current safety risk and reduce insurance risks.</p>	280.0	0.0	100.0	0.0	180.0	0.0	0.0	Cllr Bicknell	Ben Smith	Highways, Transport & Environment
3	CB002496	Major Footway Maintenance	Communities	All Wards	<p>Footways form a vital link for pedestrian access around the borough and it is essential that they are maintained in a safe condition. in 2017/18 no funding was allocated which has lead to further deterioration and an increase in Member and resident requests. This funding will be used Borough wide to tackle footways that are beyond minor repair, protect residents from potential trips, which will reduce insurance claims. The works will also make provision for providing disabled crossing points where appropriate and will help to enhance the visual appearance of the environment benefiting local residents, pedestrians, and people with disabilities. This can also be used to finance any new requests for footways which are beneficial to improve road safety in vulnerable areas.</p>	230.0	0.0	100.0	0.0	130.0	0.0	0.0	Cllr Bicknell	Ben Smith	Highways, Transport & Environment
4	CB002668	Maintenance and repairs of Stafferton Way waste transfer station	Communities	All Wards	<p>The Waste Transfer Station and Household Waste Recycling Centres (HWRC) are Council owned assets. The bid requests monies to support the upkeep and maintenance of these assets so they remain safe and fit for purpose.</p>	60.0	0.0	0.0	0.0	60.0	0.0	0.0	Cllr Cox	Naomi Markham	Highways, Transport & Environment
5	CB002669	Replacement waste and recycling bins	Communities	All Wards	<p>The Royal Borough first provided wheeled bins for the collection of rubbish to residents in the late 1980s. Many of these original bins are still in use in the Borough and are at the end of their usable life. This has resulted in an increase in the number of replacement bin requests being received, and requires additional funding to meet the increased demand. New bins will be expected to last at least 10 years, with normal use.</p>	20.0	0.0	0.0	0.0	20.0	0.0	0.0	Cllr Cox	Naomi Markham	Highways, Transport & Environment
6	CB002543	Traffic Management	Communities	All Wards	<p>This is an on-going programme that considers the development of measures to improve traffic conditions. It supports schemes identified as local concerns, through petitions, priorities identified through ward members and from local residents. Therefore, this programme is closely aligned with Resident First and Big Society initiatives, along with supporting Neighbourhood Action Groups and other community groups. Schemes to be considered include the review of the new speed limits, speed management measures, new pedestrian crossings, junction capacity and operational improvements.</p> <p>Identified schemes include:</p> <ul style="list-style-type: none"> • Moneyrow Green traffic scheme • A308 Long Walk crossing enhancements • Courthouse Road traffic island/bollards/relling 	150.0	40.0	0.0	0.0	110.0	0.0	0.0	Cllr Bicknell	Ben Smith	Highways, Transport & Environment

7	CB002553	Local Safety Schemes	Communities	All Wards	<p>On-going programme to improve road safety and reduce the number of personal injuries as a result of road crashes. Road crash data is analysed in order to identify a prioritised schedule of sites. Schemes can include a variety of different measures, including junction improvements, anti skid surfacing, safety barriers, improved signage and lining, as well as reduced speed limits. Casualty numbers have fallen to a historic all-time low but this reduction has flattened following many years of reducing numbers. New innovation required to contribute to on-going casualty rate reduction.</p> <p>Identified high risk sites (5 or more crashes with 25m in five years) include:</p> <ul style="list-style-type: none"> A308 Braywick Roundabout A4 Bath Road/Burchetts Green Road Roundabout A322 Royal Windsor Way (4 seperate sites) A30/Station Parade Sunningdale A4 Castle Hill Roundabout (2 seperate sites) A308 Grenfell Road/King Street A308 Maidenhead Road/Mill Lane roundabout B470 Datchet Road Cookham Road/Ray Mill Road West 	120.0	15.0	0.0	0.0	105.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment
8	CB002502	Road marking safety programme	Communities	All Wards	<p>This programme supplements the basic road safety service provided in the highways contract for road markings and lining across the Borough. Includes the replacement and upgrading of coloured safety surfaces and high-friction surfaces. There are also potential insurance risks if not maintained effectively.</p>	50.0	0.0	0.0	0.0	50.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment
9	CB002534	Safer Routes to School	Communities	Sunningdale	<p>The Local Transport Plan (LTP) contains policies to develop high quality walking and cycling networks and in particular improving access to key destinations such as schools. There may be potential to achieve savings on some home to school transport contracts that are provided on safety of route grounds. These schemes also support the Council's school expansion programme.</p> <p>The proposed programme is outlined below:</p> <ul style="list-style-type: none"> Charters School: Dry Arch Road Bridge pedestrian signals 	65.0	0.0	0.0	0.0	65.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment
10	CB002558	Resources to consult with Highways England during M4 Smart motorway programme	Communities	All Wards	<p>The construction of the M4 Smart motorway project is due to commence in Autumn 2017 with anticipated completion in Spring 2022. As well as reconstruction of the existing hard shoulder as a traffic lane, the scheme involves replacement bridges at a number of locations across the Borough. The scheme is likely to have a significant impact upon traffic within RBWM as a result of the construction activity. In order to minimise the risk of traffic disruption, additional resources will be required in order to maintain dialogue with Highways England and their contractors throughout the construction period.</p>	50.0	0.0	0.0	0.0	50.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment
11	CB002621	New Windsor Variable Message Signs	Communities	Castle Without/ Clewer East/ Clewer North/ Clewer South/ Eton & Castle/ Old Windsor	<p>This capital bid supports a shortfall in funding for 5 new VMS in Windsor locations. Last financial year a capital bid was approved for 5 new VMS in Windsor on the back of the successful installation of VMS in Maidenhead. However this capital bid was not not sufficient as it was reallocated.</p> <p>The VMS will provide comprehensive traffic management messaging for the whole of Windsor and neighbouring boroughs. This are advanced multi colour LED signs which can display basic pictures along with text.</p> <p>This will be a huge asset for managing events in and around Windsor, and helping to manage Legoland traffic. This will also help to keep residents and visitors well informed of situations on the highway.</p>	50.0	0.0	0.0	0.0	50.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment
12	CB002746	Decriminalised parking enforcement (post implementation parking review)	Communities	All Wards	<p>The decriminalised parking enforcement project involved the RBWM taking responsibility for enforcement of parking restrictions in the Borough, and has improved compliance leading to road safety improvements, reduced congestion and providing a parking service that is responsive to customer demands. Following implementation, existing parking patterns have altered and parking has been displaced into new areas. As with any new scheme that has been implemented, a post implementation review is needed to assess, investigate and deliver parking improvements created as a result of the new enforcement regime. There are over 100 schemes listed for review currently.</p>	50.0	0.0	0.0	0.0	50.0	0.0	0.0	Clr Cox	Ben Smith	Highways, Transport & Environment
13	CB002505	Verge Parking and protection measures	Communities	All Wards	<p>Vehicle protection measures to protect verges from damage caused by inconsiderate and regular parking. These improvements include the construction of parking bay areas in grass verges (for example Beaumont Close, Cox Green, and Somerville Rd, Eton Wick) or existing hardstanding areas to be used by local residents. The funding also includes verge protection schemes (for example the installation of bollards to stop parking of verges). No funding was made available for these works in 2017-18, to help address member and resident concerns</p> <p>A long list of schemes generated from Ward Member requests is currently being prioritised</p>	100.0	0.0	0.0	0.0	100.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment
14	CB002564	Bus Stop Real Time Information Systems	Communities	All Wards	<p>To provide updated and improved real-time passenger information at bus stops. This will support the manifesto commitment to "continue to improve bus stops". It also aims to improve passenger experience, and satisfaction with public transport as measured by the annual resident's survey.</p>	100.0	10.0	0.0	0.0	90.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment

15	CB002683	Victoria Street Car Park, Windsor - Upper Floor Barriers	Communities	Castle Without	Implementation of new electronic barriers at main entrance and first floor up and down ramps. Barriers will enable closure of upper floors of car parks to mitigate anti social behaviour and misuse of the car park by persons participating in the Windsor Night Time Economy. Problems with noise, anti-social behaviour, consumption of alcohol and inappropriate use of vehicles within the car park have been experienced by residents. Solution has been identified through problem solving work with TVP and engagement with local residents (Russell St).	15.0	0.0	0.0	0.0	15.0	0.0	0.0	Clr Cox	Ben Smith	Highways, Transport & Environment
16	CB002679	Street Cleansing Maidenhead Town Centre	Communities	Oldfield	<p>Funding is requested to increase the frequency of cleansing of the High Street in Maidenhead. The existing newly awarded highway contract, only allows for two cleans per year which is inadequate for a busy town centre High Street that has seen a recent increase in footfall of 10% and an increasing amount of street activity from events and market trading. Ideally the High Street would be cleaned once a week after the weekend on a Monday.</p> <p>Complaints have been received from residents and businesses in the town centre regarding the poor cleanliness of the High Street. The issue has been discussed by businesses and members at the Maidenhead Town Partnership meetings.</p> <p>If the public realm is not maintained to a high standard there is a risk that the town looks neglected and unkempt which may lead to negative perceptions of the town and lack of investment from new businesses.</p> <p>Each clean under the new contract is £120 per clean. Therefore a clean each week for the year would be £6240</p>	10.0	0.0	0.0	0.0	10.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment
17	CB002579	Windsor High Street/Thames Street streetscene improvement	Communities	Castle Without/ Eton & Castle	<p>This capital bid is to carry out a feasibility study following the review of the traffic flows through the area in front of Windsor Castle. The feasibility will be phase 1 of works which will include Streetscene, pedestrian and environmental improvements on High Street and Thames Street.</p> <p>Phase 2 works will follow in future years which would include the possible relocation of the taxi ranks outside of Windsor Castle, making the area more pedestrian friendly.</p>	50.0	0.0	0.0	0.0	50.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment
18	CB002654	Digitalisation of hard copy legal documentation in Environmental Health service	Communities	All Wards	<p>Environmental Health have a number of documents stored in hard copy format at Tinkers Lane. Whilst there is a legal requirement as required by the Food Standard Agency (FSA) to keep food hygiene inspections and complaints for 7 years and paperwork associated with Disabled Facility Grants (DFGs) for 10 years, there is no requirement for these to be in hard copy.</p> <p>Historically due to a lack of an appropriate corporate document management systems (DMS), it was not possible to electronically capture these documents. With the recent introduction of the new IDOX DMS that integrates with the uniform premises database this can now be achieved.</p> <p>The volume of documents required to be electronically captured, is such that this task cannot be absorbed within the Units existing resource. Therefore the requested £18K would be to sort, scan and index the historic documents to the IDOX DMS system. Ongoing there will be a new process where any paperwork would be electronically stored at the point of creation.</p> <p>Contaminated land records can be made available to internal departments and customers via the councils GIS mapping system. Ongoing there will be a new process where any paperwork would be electronically stored at the point of creation.</p>	18.0	0.0	0.0	0.0	18.0	0.0	0.0	Clr Cox	Lisa Pigeon	Highways, Transport & Environment

20	CB002647	Goswell Hill Refurbishment Programme	Communities	Castle Without	To deliver a programme of works which will greatly improve Goswell Hill as one of the main gateways between Goswell Road and Peascod Street into the town centre and provide a safe and cleaner environment. This bid is being submitted following requests from local businesses based in Goswell Hill, Windsor and Eton Town Partnership, King Edward Court Shopping Centre and Windsor Royal Shopping Centre, to provide a safe and attractive walkway from Goswell Road up into Peascod Street and Windsor Royal Shopping via Goswell Hill. Goswell hill was recently resurfaced, and a new booking office unit was purchased and installed, as well as a new fingerpost installed directing people to the alternative lift. In addition a new public accessible defibrillator unit is being installed and a number of businesses have made improvements to their frontages to create a more attractive and appealing area. The proposed work will include the following: <ul style="list-style-type: none">Pigeon proofing of area currently not protected. This would be jointly funded with the support of King Edward Court Shopping Centre. £10k (total cost of proofing is £30k)Improved lighting in and around the lift and the service road entry and exit pointsRenovating and painting of key structures within the service road to create a brighter and light space for people to useImproved signage for residents wanting to use the lift, taxis, private hire vehicles. 30	CB002642	Eton High Street Improvements	Communities	Eton & Castle	<p>Eton Town High Street has wonderful York Stone pavements, differentiated from the road in a tradition format. Over a number of years, dropped kerbs have gradually been out in place to ease the passage for buggies and wheel chair access. The original design included traditional cupped gulleys, passing from the drainpipes along the street to the road edge and the drainage system.</p> <p>This project requests £35k for the replacement of the current cupped gulleys with alternative structures, such as French drains, Marshall drains or something similar , in order to:</p> <ul style="list-style-type: none"> • Further smooth the pavements for easier movement of buggies, prams • enhance safety for disabled users • enhance safety for less able walkers e.g. the elderly <p>In Eton, segregation of vehicles and people is required by RBWM due to the traffic volumes. In addition, retailer and hostlerly access, for deliveries and collections, as well as the preference of locals, re-established through the Neighbourhood Plan process determines this as the desired format. This is also a key feature of the heritage High Street especially at the South end, in this conservation area. The Eton & Eton Wick Neighbourhood Plan process has reached approval up to the Regulation 16 stage, which will be initiated shortly. More than 300 people have commented/been involved through a highly consultative process, led by a Steering Group, chaired by the Eton Town Council Mayor. The York Stone pavement format is aligned purposefully with Windsor.</p> <p>There are many different formats of drain available which result in a flat surface. Many of these works effectively with York Stone pavements and are tried and tested elsewhere, often in heritage settings. One potential solution is a drain format with an extremely narrow gap, essentially a line with a less than one-centimetre channel running from drain pipe entrance point to the road, with a drainage structure underneath. Another option has a surface with multiple small slots running parallel to the pavement, some 15 centimetres long and again less than one centimetre across and again with a drainage system underneath.</p> <p>Initial work would be needed to determine the optimum solution, prior to procurement and execution of the solution.</p>	40.0	0.0	0.0	0.0	40.0	0.0	0.0	Cllr Bicknell	Ben Smith	Highways, Transport & Environment

5	CB002675	Courthouse Rd/St Marks Rd junction and pedestrian improvements	Communities	Belmont/Pinkneys Green	The junction of Courthouse Road/St Marks Road is a busy local junction, currently operating as a cross roads with the two Courthouse arms giving way to traffic on St Marks road and Crescent. Facilities for pedestrians are limited, with a zebra crossing on the eastern arm, and no controlled crossings on the other three arms. There is a strong local support for changes at the junction, over the past few years, with a resident requesting improvements to the pedestrian facilities as well as alternative arrangements at the junction to provide greater clarity of right of way. The junction is immediately adjacent to the hospital and local shops as well as being a key route for pedestrians to and from local schools and other facilities. Alterations at the junction are supported by ward councillors, with the requested funding being directed towards either installing traffic signals with comprehensive pedestrian facilities or a mini-roundabout with addition pedestrian crossings. This budget is required to implement a scheme for which outline design work is funded from a minor provision with the 2017-2018 Traffic Management Schemes budget.	150.0	0.0	0.0	0.0	150.0	0.0	0.0	Clr Bicknell	Ben Smith	Highways, Transport & Environment

20	CB002500	Bridge Parapet Improvements	Communities	All Wards	The Royal Borough has a statutory duty to undertake specific cyclic inspections of bridges and highway structures to ensure basic safety responsibilities are being delivered. This is essential to make sure the borough parapets are fit for purpose and there are no underlying safety risks. These assessments may highlight urgent minor capital works (e.g. safety repairs to the structure, parapet walls, weight and height limit signing, pedestrian facilities). Following these inspections it has identified certain structures currently have substandard parapets which are potentially dangerous to drivers if they strike the bridge and increase insurance risks .	150.0	0.0	150.0	0.0	0.0			Cllr Bicknell	Ben Smith	Highways, Transport & Environment

24	CB002498	Resurfacing of roads to maintain transport asset and improve safety	Communities	All Wards	The highway network is assessed annually through condition surveys to establish a priority list of roads that require resurfacing treatment. These surveys are a key Government requirement that link directly to Performance Indicators and contribute to the delivery of Local Transport Plan targets/objectives. In addition to this the Borough receives numerous member and resident concerns regarding the condition of their roads which is beyond minor repairs. The resurfacing of roads is essential to improve road safety, through surface skid resistance treatment and prevent further deterioration therefore preserving the structural and serviceability of the highway asset and reducing revenue costs. Investment reduces deterioration and reduces insurance risks.	1,700.0	0.0	1,700.0	0.0	0.0			Cllr Bicknell	Ben Smith	Highways, Transport & Environment

29	CB002499	Streetlight and structural assessments and replacements	Communities	All Wards	<p>This capital bid is part of a contractual commitment to replace a proportion of the street lighting stock yearly to ensure they meet the safety standards required. Street lighting is essential for the reduction of accidents on our roads and to help combat actual crime and the perceived fear of crime. This project is aimed at replacing columns in the Borough which are identified as hazardous, along with life expired columns and light units. It therefore contributes to both the Getting About and Safe and Secure themes. Our Highway Lighting stock, particularly in Urban areas is getting old and in many cases is well beyond its design life and below current lighting standards.
