#### **REPORT SUMMARY**

The RBWM budget for 2018-19 will support the council's work to create a borough where everyone can enjoy living, working and nurturing their futures and their family.

The financial climate in local government remains tough and the demands on the council have increased, but RBWM is ready over the next 10 years to deliver more investment in schools, highways, leisure and community facilities to support draft Borough Local Plan.

Many councils are having to cut or close services but through sound management and careful investment this council will be able to protect and enhance its services for local people.

This is because:

- Our new partnerships this year have sustained our Adult, Children's and Highway services;
- The Adult Social Care Levies in the last two years have so far fully supported the rising cost of caring for a growing number of our elderly residents;
- Investment this year and next in more capacity across our schools, parking and leisure facilities will continue to support the draft Borough Local Plan and accelerate regeneration, particularly in Maidenhead.

Responsible decisions are necessary to ensure prudent management of public money and to balance the needs of our residents, council taxpayers and staff:

- Next year's costs are under pressure with a significant rise in inflation.
- Low interest rates along with other factors have reduced the Pension Fund's returns and require additional payments next year to meet our obligations to current and past staff;
- Increasing resident needs next year will be offset by our continuing efforts to deliver better for less with targeted reductions in operating costs;
- Fees and charges for a wide range of services will be increased by no more than inflation.

Overall, the net positive cash projections over the next 10 years reflect the Council's prudent and innovative approach to development in Maidenhead.

#### 1 DETAILS OF RECOMMENDATION(S)

#### **RECOMMENDATION: That cabinet**

- i) Notes the report and progress made towards building the 2018/19 budget.
- ii) Approves the 2018/19 schools capital programme detailed in paragraph 4.6 and appendix D.

#### 2 REASON(S) FOR RECOMMENDATION(S) AND OPTIONS CONSIDERED

2.1 A decision is required on the schools capital programme, reasons for the decision are contained in paragraph 4.6.

#### **3 KEY IMPLICATIONS**

- 3.1 The autumn budget is expected on 22 November 2017 with the provisional local government financial settlement announced in December 2017 and finalised by the end of February 2018.
- 3.2 Work continues on building a budget for the financial year 2018/19. This report summarises the emerging draft proposals for the medium term financial plan (MTFP), savings, fees and charges, schools capital programme and a longer term capital investment position over the medium term.
- 3.3 The plans in the MTFP set out all of the significant changes from the current year including inflation, additional service spending pressures, any known changes to funding and the consequential efficiencies necessary to balance the impact of these. The combined proposals currently reflect a balanced budget for 2018/19.
- 3.4 Assumptions have, necessarily, been made in the build of the budget and reflect a number of estimates and the known positions and forecasts from central government, which are based on the agreement of a four year settlement and include:
  - Central government funding;
    - Distribution of new home bonus following the implementation of reforms announced as part of the 2017/18 settlement;
    - Referendum principles remain as applied in the 2017/18 budget;
    - Transition grant received 2016/18 not available in 2018/19;
    - The Adult Social Care precept of 3% applied in line with regulation of precept to not exceed 6% between 2017/18 and 2019/20;
  - Estimations include;
    - The Council's tax base number of dwelling on which to apply council tax;
    - New Homes Bonus number of new homes built or brought back into use;
    - Business rates actual collection for the year.

## 4 FINANCIAL DETAILS / VALUE FOR MONEY

#### Medium Term Financial Plan (MTFP)

- 4.1 The draft MTFP, see Appendix A, has been put together to include all known and estimated information to date. It reflects a balanced position, for 2018/19, assuming a level of base council tax increase and assuming the application of the adult social care levy at 3%.
- 4.2 A summary reconciliation of the main changes between the budget MTFP for 2017/18 and the draft proposed budget for 2018/19 is shown as appendix G.

#### **Reducing operating costs**

4.3 Proposals to reduce operating costs for the financial year 2018/19 total £4,111,000, full details are contained in Appendix B. These efficiencies will be brought to Council for approval in February 2018 in order to allow Directors to commence work and therefore achieve the full year effect of the saving in 2018/19.

#### **Pensions deficit**

4.4 Work continues on the optimum approach to minimise the impact on council tax payers of funding the liabilities arising from the 2016 valuation. This will be completed during 2018/19 and recommendations presented to Council for approval. The MTFP includes £2,428,000 for the minimum deficit recovery lump sum contribution required in 2018/19 as determined by the Council's actuary.

#### Fees and charges

4.5 Proposals for increases in fees and charges are predominantly based on the September RPI inflation rate announced by the Bank of England which is 3.9% or less. However, proposals also consider how charges compare with other local authorities and other benchmarks. Therefore some fees and charges will be greater than the announced rate of inflation. The full detail of the draft proposed fees and charges are shown in Appendix C and will be brought to Council for approval in February 2018.

#### Schools capital programme

4.6 A schools capital programme, see Appendix D, has been collated based on need. The total value of new capital schemes put forward is £1,072,000. Early approval is recommended in this report to allow the procurement to take place to secure the best contractors at the most appropriate time.

#### Non-Schools capital programme

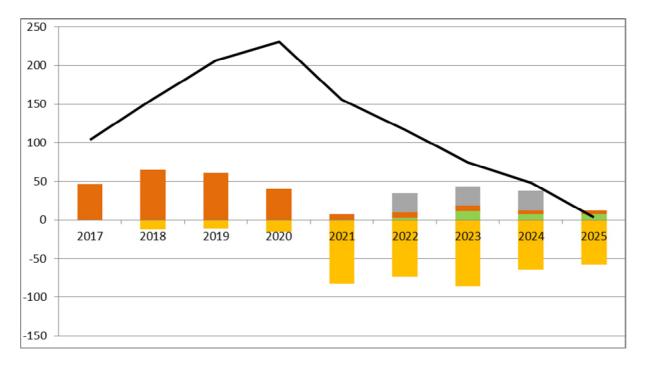

4.7 A draft capital programme for non-schools has been prepared, see Appendix D. This will be brought to Council for approval in February 2018. The value of the programme proposed is £16,448,000. Some schemes will be brought to Cabinet/Council for approval at the appropriate time.

#### Projected cash position

4.8 The projected capital position is shown in Appendix E. Significant value schemes and estimated costs that will come forward for approval in the coming financial year are also included along with the financial returns that those investments are projected to generate. It also reflects the Royal Borough's

requirement to borrow along with expected opportunities to repay that borrowing. This projected cash flow will be amended and updated as more detailed scheme information and costs materialise.

- 4.9 Whilst the Royal Borough is preparing for significant investment it is expected that capital receipts, for regeneration and joint ventures, are projected to significantly outweigh the initial outlay proposed.
- 4.10 There is opportunity to eliminate the remainder of the Royal Borough's pension deficit as identified at the 2016 valuation. This has been incorporated into the graph shown below and reflects a potential payment of £25,000,000 in each of the three years 2022 to 2024. This will have no impact on the council tax payer.
- 4.11 The graph shows (in £ million) how the capital cash flow of the Royal Borough is projected through to the financial year 2025-2026. It shows that by the end of that timeline the authority will be in a strong financial position with capital receipts in hand of approximately £53,000,000 and outstanding long term debt of £57,000,000, a net debt of £4,000,000.

Key: Orange – capital investment, yellow – capital receipts, grey – contribution to pensions deficit, green – other investment opportunities, black line – debt net of cash balances.

- 4.12 As the regeneration and capital works progress borrowing will be undertaken prudently to ensure debt can be repaid as and when capital receipts allow.
- 4.13 The opportunity to repay debt already incurred by the Royal Borough will be considered when capital receipts allow and also in consideration of any penalties that may apply for early repayment.
- 4.14 Flexibility as to whether to realise the Council's financial interests in the Maidenhead Golf Course and the town centre joint venture sites as capital

receipts or in revenue-generating housing assets is available. The proportion of capital/revenue will be approved by Council in due course.

## **General Fund Reserves**

4.15 Taking account of the forecast year-end position (last reported to Cabinet on 26 October 2017) the General Fund Reserves are estimated to be £7.99 million at the end of the current year and indicated as £7.45 million at the end of next year, each inclusive of the Development Fund.

#### 5 LEGAL IMPLICATIONS

- 5.1 The Local Government Act 2003 requires the Chief Financial Officer (Deputy Director and Head of Finance) to report to Members as part of the budget setting process, on setting the level of council tax, the robustness of the budget presented and the adequacy of reserves.
- 5.2 This draft budget has been prepared in accordance with statutory requirements which include assurance from Executive Directors that they have sufficient resource available to fulfil their various statutory obligations.

## 6 RISK MANAGEMENT

- 6.1 The financial elements of items put forward in this report are subject to change and changes will be reported to both Cabinet and Council as part of the budget setting process in February 2018.
- 6.2 It is inevitable that some proposed capital schemes may not start on 1 April 2018 and as a result the profiling of the schemes and the need for funding to support them becomes critical.

## 7 POTENTIAL IMPACTS

7.1 None.

## 8 CONSULTATION

- 8.1 To include:
  - Comments from the relevant Overview and Scrutiny Panel(s). Comments will be reported to Cabinet'

				The council operates an annual Grants to Voluntary Organisations scheme, administered by Democratic Services, and supported and operated by Grants Officers in the various service Directorates. Decisions relating to the amount of grant funding awarded are taken by the Grants Panel (Chairman Cllr Saunders) and recommendations are then made to Cabinet for consideration. In previous years successful bids have been made for capital grant funding of £40,000. Capital grants are made towards capital schemes, e.g. acquisition of land or construction/extension/improvement of buildings, or purchase of equipment to provide new or improved facilities. Voluntary organisations are invited to submit applications, with the caveat that this is subject to capital funding being available.											Communities

	LTP Feasibility Studies, Investigation and scheme development	Communities	All Wards	The Local Transport Plan is a key RBWM strategic plan that sets out our objectives for the medium -term. We report our performance against the targets to governemt each year. Annual capital work programmes of approximately £4million need to be delivered to support these targets and objectives. Currently no funding is available to carry out feasibility studies, investigations, consultations and develop programme for future years. This funding would enable RBWM to prepare schemes and better target programmes for the next year in parallel to delivery of the current year's programmes. In addition, suitable schemes would be developed that may attract grant funding. Benefits of this bid are efficiency and delivery of targeted projects that maintain our assets, improve safety, address congestion, improve access. In addition, capacity improvements developed as part of the Borough Local Plan will need to be developed from an outline concept stage through to costed outline designs.	60.0	30.0	15.0	0.0	15.0	0.0	0.0	95.0	2,280.0 Cllr Bicknel	I Ben Smith	Highways, Transport & Environment

B002501	Bridge assessments and Strengthening works		All Wards	The Royal Borough has a statutory duty to undertake specific cyclic inspections of bridges and highway structures to ensure basic safety responsibilities are being delivered. These inspections may highlight essential minor capital works (e.g., safety repairs to the structure, parapet walls, weight and height limit signing, pedestrian facilities). Following these inspections it has identified certain structures are currently structurally weak and if work is not carried out to them they will require a weight restriction enforced on them or they have deteriorated to any extent that major refurbishment is required. All the structure concerned are on the boroughs main network and would have a detrimental impact in terms of road safety, if repairs are not carried out. The objective of the project is to introduce measures to mitigate and minimise any potential current safety risk and reduce insurance risks.	280.0	0.0	100.0	0.0	180.0	0.0	0.0	195.0	2,860.0 Cllr Bicknell	Ben Smith	Highway: Transpor Environn
	Major Footway Maintenance	Communities	All Wards	Footways form a vital link for pedestrian access around the borough and it is essential that they are maintained in a safe condition. in 2017/18 no funding was allocated which has lead to further deterioration and an increase in Member and resident requests. This funding will be used Borough wide to tackle footways that are beyond minor repair, protect residents from potential trips, which will reduce insurance claims. The works will also make provision for providing disabled crossing points where appropriate and will help to enhance the visual appearance of the environment benefiting local residents, pedestrians, and people with disabilities. This can also be used to finance any new requests for footways which are beneficial to improve road safety in vulnerable areas.	230.0	0.0	100.0	0.0	130.0	0.0	0.0	295.0	2,990.0 Cllr Bicknell	Ben Smith	Highway Transpor Environn

				Cllr Alexandra and Windsor & Eton Town Partnership has requested more information on the protection and delivery of incident plans for the town centre. Windsor & Eton Town Partnership recently delivered Anti terrorism workshop where 102 businesses attended and are actively looking at their own plans and need support in completing them.											
				Following the recent completion of the Windsor evacuation plan it has become necessary to make sure that all resources needed to deal with an incident are not only ready for use but are up to date and consistent with currently incident planning policy for the town centre. Following the incidents in London this lead to the installation of temporary Hostile Vehicle Management (HVM) systems in the town centre. It has become urgent that we ensure that the town centre and officers responsible in the event of an incident are properly resourced and prepared.

This has resulted in an increase in the number of replacement bin requests being received, and requires additional funding to meet the increased demand. New bins will be expected to last at least 10 years, with normal use.	20.0	0.0	0.0	0.0	20.0	0.0	0.0	295.0	3,077.0 Cllr Cox	Naomi Markham	Highwa Transp Enviror

Following implementation, existing parking patterns have altered and parking has been displaced into new areas. As with any new scheme that has been implemented, a post implementation review is needed to assess, investigate and deliver parking improvements created as a result of the new enforcement regime. ŷ CB002580	Care Homes Reconfiguration Bid	MDs	All Wards	Capital is requested to fund essential improvements for Homeside Close and Winston Court, two Registered Care Homes in Maidenhead, Berkshire, for adults with learning disabilities. Each home has accommodation for eight residents with medium to high/complex needs, including autism. The care is provided by Optalis via block contract with the Royal Borough of Windsor and Maidenhead (RBWM) and the landlord is Housing Solutions. Limited (HSL), Currently the care homes do not meet COC standards, and have been rated 'requires improvement in the recent inspections. Whils there are 8 bedrooms in each home, residents share bathroom, kitchen and living areas. It is now recognised that residents achieve best when they have accommodate people with more complex needs, and deliver better outcomes for their independence. Funding has been identified through NHS England, and a business case to remodel both homes (via renovation) to have 5 ensute bedrooms upstairs, 5 filatet sdownstairs plus a sensory room is in place. The NHSE grant is £475k, and we expect HSL to seeking funding from HCA for some or all of the remaining funding. Once completed, the works could also lead to deregistration of the homes to a Supported Living model of accommodation. Given the size of the refurbishment, the project is being managed through a formal Steering Group comprising officers from the Royal Borough, Optalis and HSL.	1,100.0	0.0	1,100.0	0.0	0.0		440.0	0.0	Cllr Carroll	Fiona Betts	s Adult Servia & Health

CB002500	Bridge Parapet Improvements	Communities	All Wards	the annual resident's survey. The Royal Borough has a statutory duty to undertake specific cyclic inspections of bridges and highway structures to ensure basic safety responsibilities are being delivered. This is essential to make sure the borough parapets are fit for purpose and there are no underliving safety risks. These assessments may highlight urgent minor capital works (e.g., safety repairs to the structure, parapet walls, weight and height limit signing, pedestrian facilities). Following these inspections it has identified certain structures currently have substandard parapets which are potentially dangerous to drivers	150.0	0.0	150.0	0.0	. CB002498	Resurfacing of roads to maintain transport asset and improve safety	Communities	All Wards	The highway network is assessed annually through condition surveys to establish a priority list of roads that require resurfacing treatment. These surveys are a key Government requirement that link directly to Performance indicators and contribute to the delivery of Local Transport Plan targets/objectives. In addition to this the Borough receivers numerous member and resident concerns regarding the condition of their roads which is beyond minor repairs. The resurfacing of roads is essential to improve road safety, through surface skid resistance treatment and prevent further deterioration therefore preserving the structural and serviceability of the highway asset and reducing revenue costs. 28 CB002620	Traffic Managemen Control System	t Communities	All Wards	This capital bid is for hosting and maintenance of the background system which controls the boroughs car park VMS, traffic counting, traffic signals and links to other LA's equivalent equipment. This system counts car park spaces and controls the number of spaces shown on the car park signs. This system also controls the boroughs traffic counting systems and allows access to the on line data. This system will also be used for interlinking the various systems to allow them to control one another to provide automatic displays such as queue warnings delays and events nortifications. Without this, the systems will not function and the existing car park VMS will go blank or continue to show the incorrect numbers of free spaces as we currently have. We will not be able to gather the data from our traffic counting systems which are critical for monitoring, and any traffic modelling which is carried out as part of new developments. 	9 Streetlight and structural assessments and replacements	Communities	All Wards	This capital bid it part of a contractual commitment to replace a proportion of the street lighting stock yearly to ensure they meet the safety standards required. Street lighting is essential for the reduction of accidents on our roads and to help combat actual crime and the perceived fear of crime. This project is aimed at replacing columns in the Borough which are identified as hazardous, along with life expired columns and light units. It therefore contributes to both the Getting About and Safe and Secure themes. Our Highway Lighting stock, particularly in Urban areas is getting old and in many cases is well beyond its design life and below current lighting standards. As a consequence equipment is obsolete and columns are becoming structurally unsound.	350.0	0.0	350.0	0.0	0.1	0		5,010.0		Cllr Bicknell	Ben Smith	Highways, Transport a Environme
