REPORT SUMMARY

1. This report sets out the recommendations of the cross-party polling district and polling places working group and the Returning Officer for reviewing the boundaries of the Borough's parliamentary polling districts and designation of polling places for all types of elections.
2. A review of polling districts and polling places was undertaken in the summer/autumn of 2018 following the outcome of the Local Government Boundary Commission for England's review of the Borough's electoral arrangements. The alterations to the ward boundaries will bring about significant change, which in turn, has led to significant changes to the council's polling district and polling places scheme to facilitate the administration of next year's local elections under the new ward arrangements.
3. The Council has a duty to review polling districts and polling places every four years to ensure that they are located in positions that are convenient and accessible to the majority of electors. The Council must also seek to ensure that, so far as is reasonable and practicable, the polling places it designates are accessible to all electors, including taking into account the accessibility needs of people with disabilities. The last polling district and polling places review took place in 2014/2015.
4. The report sets out a schedule for 62 polling districts each with a designated polling place. The boundaries and polling places of 31 of the polling districts remain unchanged from the current scheme. There are changes recommended to either the polling district boundary and/or the polling place for 31 of the polling districts.
5. A new polling district coding system has been applied to the scheme to provide simplicity to the administration of future elections.

1. DETAILS OF RECOMMENDATION(S)

RECOMMENDATION: That Full Council notes the report and:

- i) **That the revised polling district boundaries and designation of the polling places affecting the following wards be approved, (as detailed in Appendix 1):**
 - **Belmont, Boyn Hill, Furze Platt, Oldfield, Riverside, St Mary's, Ascot & Sunninghill, Clewer & Dedworth East, Clewer & Dedworth West, Clewer East, Datchet, Horton & Wraysbury, Eton & Castle, Old Windsor and Sunningdale & Cheapside.**
- ii) **That the Returning Officer reviews the polling districts and polling places following the May 2019 elections and recommend further revisions to the scheme where necessary, with the support of the polling district and polling places working group. If a further review is required, proposals will be referred to Council by no later than 31 January 2020.**

2. REASON(S) FOR RECOMMENDATION(S) AND OPTIONS CONSIDERED

- 2.1 The review of polling districts and polling places in 2018 was a mandatory exercise following the outcome of the final recommendations of the electoral review. Officers reviewed the suitability of the current polling places between March and May 2018. Members of the polling district and polling places working group met three times between July and September 2018 to devise a provisional polling district scheme, assisted by officers, for new polling district boundaries and corresponding polling places under the new warding framework.
- 2.2 The general principle underpinning this review has been to introduce minimal change to electors' current voting arrangements. The re-drawing of polling district boundaries is only recommended where compulsory change is required as a direct consequence of the re-drawing of ward boundaries or as a result of suggestions received from consultees responding to the review. Changes to polling places have only been recommended by officers where current polling places are no longer deemed to meet the suitability criteria, as set out by the Electoral Commission.
- 2.3 A public consultation on the provisional scheme commenced on 1 October 2018 and ran for a six-week period until 11 November 2018. The council consulted directly with a number of stakeholders including parish clerks, political parties, community groups and elected members (ward councillors). There was a very encouraging response to the initial consultation, with 50 responses received from a wide range of sources including members of the public, parish councils and political groups.
- 2.4 Comments and suggestions for change were reported to the working group at a meeting in mid-November 2018. The working group agreed to amend the provisional scheme to reflect the feedback and alternative proposals suggested by consultees who engaged in the first consultation. Four amendments were made to the provisional scheme relating to Pinkneys Green, Oldfield, Clewer East and Datchet.
- 2.5 A second public consultation on the revised scheme launched on 23 November 2018 and ran for a shorter period of 3 weeks; six responses were received during this period. The working group met for a final time in mid-

December 2018 to consider the comments received to the second consultation and to agree a final scheme to put forward to Full Council in January 2019. Three further and relatively minor amendments were made to the scheme in relation to Riverside, Oldfield, Clewer East and Ascot & Sunninghill wards at the final working group meeting in mid-December 2018.

2.6 There are no changes proposed to polling district boundaries or polling places for the wards of Bisham & Cookham, Bray, Cox Green, and Hurley & Walthams.

2.7 **Belmont**

There is only one minor change proposed for Belmont ward relating to the re-alignment of the polling district boundary of MBE2 to make the boundary coterminous with the new ward boundary separating Belmont from St Mary's ward. The established polling places for the two polling districts remain unchanged.

2.8 **Boyn Hill**

There are two minor changes proposed for Boyn Hill ward relating to the re-alignment of the two polling district boundaries to make them coterminous with the new ward boundary separating Boyn Hill from St Mary's ward and Pinkneys Green ward. The established polling places for the two polling districts remain unchanged.

2.9 **Furze Platt**

The polling district boundary between MFP2 and MFP3 has been redrawn to allow roads north of St Mary's School (West Mead, Aldebury Road, Partridge Mead, Spring Close and Barn Close) to vote at this polling station, instead of voting at St Peter's Jubilee Room which is located on the opposite side of the ward. Likewise, roads north of Gardner Road and to the west of Switchback Road North (Kinghorn Park, Kinghorn Lane, Fawley Close, Cannon Court Road, and The Chase) will move from MFP3 to MFP2 to allow electors in this area to vote at St Peter's Jubilee Room, their nearest polling station.

Oldfield

2.10 Significant change to both the polling district boundaries and designated polling places for Oldfield are proposed as a direct consequence of the changes made at ward level and the creation of the new town centre ward, St Mary's.

2.11 The polling district boundary for MOF1 remains unchanged but it is recommended to change the polling place from Larchfield Children's Centre to Larchfield Community Centre, as the Community Centre can provide a better space suitable to accommodate a double polling station.

2.12 Polling district MOF2 has been redrawn to transfer roads in the eastern part of the polling district (Cannock Close, Newbury Drive, Chiltern Road, Cotswold Close, Astor Close, Chantry Road, Chalgrove Close and Forlease Drive) to form their own polling district, MOF4, and to designate the polling place as the current Forest Bridge School. It was originally proposed by the working group to keep the polling district boundary for MOF2 unchanged, however, residents in the affected roads responded to the first consultation and requested that they be allowed to vote at Forest Bridge School, their nearest polling station,

and considered that SportsAble, the proposed polling place for MOF2 during the first consultation, was not easily accessible. As the polling district boundary for MOF3 is coterminous with the new parish ward the Fisheries in Bray Parish, the affected properties must form their own polling district, MOF4, to enable voting at the current Forest Bridge School site.

2.13 During the second consultation, a further submission was received requesting that an alternative polling place for the properties remaining in MOF2 be found. The respondent expressed concerns that SportsAble remained inaccessible to electors located to the west of Braywick Road and that the lack of a crossing on the road made it difficult for electors travelling to the polling station by foot. Due to the speed of the road, the working group proposed to revert the polling place for these electors back to the Town Hall, which is their current polling station. As the Council Chamber is now proposed as a double station for polling district MSM2 in St Mary's ward, it is recommended to designate the polling place to the Ascot/Bray rooms on the ground floor of the Town Hall.

2.14 It is proposed to no longer use the current Oldfield Primary School as a designated polling place as the school has expressed strong concerns about the ongoing arrangement to serve as a polling station and the disruption caused to the school.

2.15 **Pinkneys Green**

As part of the provisional polling district scheme, the working group proposed to change the polling place for MPG2 to Pinkneys Green Cricket Club from the Youth & Community Centre as members had expressed concerns about the suitability of the location of the Youth & Community Centre on the far eastern edge of the polling district and the distance of the polling station from electors located in the far northern part of the polling district. During the first consultation, twenty-four representations were received in response to the suitability of the Cricket Club alone. Four of the representations which were made by members of the public advocated the change to the Cricket Club due to its central location, however, twenty representations from ward councillors, members of the public and the Access Advisory Forum, expressed significant reservations about the Cricket Club's suitability. A lack of a footpath, inadequate parking facilities, and the inadequate access arrangements for disabled voters in particular, influenced the working group's decision to reinstate the Youth & Community Centre as the polling place.

2.16 **Riverside**

There are minor amendments proposed for polling district MRS1, as properties south of Ray Mill Road West and north of Kennet Road will be transferring to the new St Mary's ward. The polling district boundaries separating Riverside and St Mary's ward have been redrawn to reflect the amendments made at ward level.

2.17 In the provisional polling district scheme, it was proposed to make no changes to the boundary line separating MRS2 and MRS3 and to retain both of the current polling places; Mill House Family Centre and Thames Hotel. A submission was received from a local resident suggesting that Kingfisher Drive and its immediate environs be transferred from MRS3 to MRS2, to facilitate voting at the Mill House Family Centre for electors living in this area. The

working group endorsed this suggestion as another consequence of redrawing the polling district boundary would mean that the polling place for MRS2 would now be located in the polling district it serves.

2.18 St Mary's

Two new polling districts are proposed for St Mary's ward. Polling district MSM1 consists of parts of the former Riverside ward (Evenlode, Florence Avenue, Hazel Close, Coln Close and Fullbrook Close), and parts of the former Belmont ward (Craufurd Rise, Russell Close, The Crescent, Sun Lane). The polling place is proposed as Marlow Road Community Centre.

2.19 Polling district MSM2 consists of predominately parts of the former Oldfield ward and streets in the town centre (Fotherby Court, Cedars Road, Langdale Close, Kingsquarter, The Farthingales, Old Acres, Horseguards Drive and Guards Club Road) and also High Town Road, North Road, South Road, Albert Street, East Road, West Road and Grenfell Road, which belong to Boyn Hill ward under the current electoral arrangements. The polling place is proposed as the Council Chamber in the Town Hall, which is an established polling district and already serves as the designated polling place for properties situated in the current Oldfield ward.

2.20 Ascot & Sunninghill

It is proposed to amalgamate two polling districts (labelled AA and AB under the previous polling district schedule) to form the new WAS1 polling district. This will make WAS1 coterminous with the new parish ward of Ascot, part of Sunninghill and Ascot Parish. The polling place is to be retained as All Saints' Church Hall, an established polling station.

2.21 The polling district boundaries for WAS2 and WAS3 remain unchanged and their current polling places, South Ascot Church Hall and Ascot District Day Centre, also remain unchanged.

2.22 Clewer & Dedworth East

There is a minor amendment proposed to the redrawing of polling district WCDE1 to make the western edge of the polling district separating it from the new Clewer & Dedworth West ward (properties on Smiths Lane) coterminous with the new boundary line separating the two wards.

2.23 The polling district boundary for WCDE2 amalgamates polling district JC (Clewer East ward) and VC (Park ward). It is recommended to designate the Spencer Denney Centre as the polling place for the new polling district, as it is in a central location and is an established polling station.

2.24 Polling district WCDE3 is coterminous with the former polling district VB. The properties in this polling district were previously part of Park ward. It is recommended to place a mobile unit on the corner of Gratton Drive and St Leonard's Hill to serve as a polling station, as there is no suitable building to use within the polling district boundary and a mobile unit has been placed in this location previously.

2.25 Clewer & Dedworth West

There is a minor amendment proposed to the redrawing of polling district WCDW1 to make the eastern edge of the polling district separating it from Clewer & Dedworth East ward (properties on Smith Lane) coterminous with the new boundary line separating the two wards. It is proposed to move the polling place from Homer First School to Dedworth Middle School, as Dedworth Middle School has indicated that it will not need to close on polling day and disruption will be kept at a minimum.

2.26 It is proposed to amalgamate polling districts HA (Clewer North ward) and JA (Clewer South ward) to form the new WCDW2 polling district and to designate the polling place as Windsor Gospel Hall. The polling district boundary will be coterminous with the new parish ward of Dedworth in Bray Parish.

2.27 It is proposed to amalgamate polling districts JB (Clewer South ward) and VA (Park ward) to form the new WCDW3 polling district and to designate the polling place as Tinkers Lane Depot.

2.28 Clewer East

The polling district boundary for WCE3 remains unchanged and the current polling place, Clewer Youth & Community Centre, retained. It is proposed to extend the polling district boundary for WCE1 to include properties south of Winkfield Road and to the west of Hermitage Lane, which are now part of Clewer East following the ward boundary changes. It was originally proposed to include these properties in polling district WCE2, but a representation was made by a local resident to allocate these properties to Clewer Green School, which is nearer to these properties than Kipling Court, the polling place for WCE2.

2.29 Polling district WCE2 has been extended to include properties south of St Leonards Road which are transferring from Park to Clewer East as a result of the boundary changes at ward level.

2.30 Datchet, Horton and Wraysbury

The polling district changes for this ward relate to Datchet only and the polling district boundaries and polling places for Horton and Wraysbury remain unaltered. It is recommended to create two polling districts for Datchet, WDHW1 and WDHW2 and allocate Datchet Village Hall as the polling place for both. The Women's Institute Hall currently serves as the polling place for Datchet. The provisional polling district scheme had proposed that both the Women's Institute Hall and Datchet Village Hall be appointed as polling places, each serving one of the two new polling districts. However, Datchet Parish Council and residents responded to the first consultation, expressing a preference for retaining one polling place for the whole of Datchet and recommending the Village Hall as the preferred option due to its overall facilities.

2.31 Eton & Castle

It is proposed to amalgamate polling district FB (Castle Without ward) and the half of polling district MB (Eton & Castle) retained under the new warding configuration, to form polling district WEC2. The polling place is proposed as St Stephen's School Rooms, which is the current polling place for FB. It is recommended to discontinue using the Guildhall as a polling place, as

accessibility restrictions make it unsuitable. This view was supported by a submission made by the contact for the venue during the first consultation.

2.32 Polling district WEC1 will consist of polling districts FA and FC, both currently in Castle Without ward. It is proposed to use All Saints Church Hall as the polling place for the new polling district, which is an established polling station and has been successfully used for past elections.

2.33 **Old Windsor**

There are no changes proposed to the boundaries or designated polling places for WOW1 or WOW2. Polling district WOW4 consists of polling districts VB and VD in Park ward and the polling place has been designated as Gardeners' Hall. It is recommended to discontinue use of the Army Reserve Centre which currently serves electors in VD, due to access restrictions which render it unsuitable. Whilst Gardeners' Hall is just outside the polling district boundary and also sits in an adjacent ward (Clewer East), the distance of the building from the former polling station is not too far and it is not considered unreasonable to require the residents of the Boltons to travel to Gardeners' Hall, as no other suitable venue is available within the polling district boundary.

2.34 It is proposed to create a new polling district, WOW3, consisting of the Home Park area that was formerly part of Eton & Castle ward. The working group had considered assigning this area to Gardeners' Hall, but it was considered preferable to allocate them to Old Windsor Memorial Hall as this polling station is geographically closer and access is better. To facilitate this, the Home Park must be created as its own polling district and the polling district boundary for neighbouring WOW2 extended, because this area forms part of Old Windsor Parish and a polling district cannot contain both parished and unparished areas.

2.35 **Sunningdale & Cheapside**

There are no amendments proposed to polling district WSC3 and it is recommended to retain the mobile unit in Waitrose carpark as the designated polling place. WSC1 is proposed as a new polling district for the ward and to extend the current polling district boundary include Heathfield Avenue and Larch Avenue, to ensure the boundary separating WSC1 and WSC2 is coterminous with the boundary line separating Sunningdale and Sunninghill & Ascot parishes.

Options

Table 1: Options arising from this report

Option	Comments
<p>Council supports and approves the polling district and/or polling places changes proposed affecting ALL wards as detailed in the report and summarised in Appendix 1 of the polling district schedule.</p> <p>Recommended option</p>	<p>There are no changes proposed for the wards of Bisham & Cookham, Bray, Cox Green, and Hurley & Walthams.</p>
<p>To make no changes to the boundaries of the current polling districts and designation of polling places.</p> <p>Not the recommended option</p>	<p>Changes to polling district boundaries and polling places are required to ensure the local elections can be delivered under the new warding arrangements.</p>
<p>To agree a different allocation of polling places and alternative ward boundaries where changes are required.</p> <p>Not the recommended option</p>	<p>The polling district review is required to conclude by the end of January 2019 so that the electoral register can be republished under the new ward boundaries on 1 February 2019, as planned. A further review will be required and further changes could be considered as part of that next review in 2019/2020, after the May 2019 elections.</p>

3. KEY IMPLICATIONS

Table 2: Key Implications

Outcome	Unmet	Met	Exceeded	Significantly Exceeded	Date of delivery
Electors are able to cast their vote in a place that is convenient and accessible	All electors are unable to cast their vote.	All electors are able to cast their vote and historic turnout levels are maintained.	All electors are able to cast their vote and there is a notable (3%) increase in the turnout at future elections.	All eligible electors are able to cast their vote and there is a significant (more than 3%) increase in the turnout at future elections	May 2019.

4. FINANCIAL DETAILS / VALUE FOR MONEY

- 4.1 There are no direct financial implications arising from the recommendations, although it is anticipated that the overall costs associated with booking venues for use as polling stations will be higher than in previous years due to the fact

that one additional mobile unit is proposed (for use at Gratton Drive). The costs of administering next year's local elections will need to be met in full by the Borough, whereas for previous elections, a portion of the costs have been shared with central government where local elections have been combined with a national election or referendum.

5. LEGAL IMPLICATIONS

- 5.1 The Electoral Administration Act 2006 places a duty on Councils to conduct a review of polling places and polling districts every four years. Although the last full review was undertaken in 2007, the polling places are reviewed prior to each election and the last review was considered by Council in 2015.
- 5.2 In making arrangements for the operation of the Borough Election and the establishment of Polling Places, the officers have acted in accordance with all appropriate legislation, principally the Representation of the Peoples Act, Electoral Administration Act and the Disability Discrimination Act. The 2013 Electoral Registration and Administration Act introduced a change to the timing of compulsory reviews of UK Parliamentary polling districts and places, and this review reflects this change.

6. RISK MANAGEMENT

Table 3: Impact of risk and mitigation

Risks	Uncontrolled risk	Controls	Controlled risk
Failure to carry out a review of polling districts and polling places	Failure to carry out a review could result in a legal challenge.	Ensure that the review is undertaken	Carry out a review of polling districts and polling places prior to each election in accordance with the published guidance.

7. POTENTIAL IMPACTS

- 7.1 The Council must seek to ensure that, so far as is reasonable and practicable, the polling places it designates are accessible to all electors, including taking into account the accessibility needs of people with disabilities.

8. CONSULTATION

- 8.1 Notices advising the Review were placed in public buildings and on the Council's website for each stage of the review commencing on 1 October 2018 and 23 November 2018. All Members of the Council, local political parties; Parish Councils, political groups, local community groups and booking contacts for current polling station venues, were consulted directly and invited to engage with the review. The cross party polling district and polling places

working group have considered all responses and comments received during both stages of the review. Public engagement in the first stage of the review was particularly encouraging with fifty responses received in total, six representations were made as a result of the second consultation.

9. TIMETABLE FOR IMPLEMENTATION

9.1 The full implementation stages are set out in table 4.

Table 4: Implementation timetable

Date	Details
28.01.2019	Full Council endorse the Polling District & Polling Places schedule 2019 as recommended unanimously by the cross party working group.
01.02.2019	Electoral register is republished under new ward and polling district boundaries.
