Report Title:	Highways and Transport Investment Programme 2019-20
Contains Confidential or Exempt Information?	NO - Part I
Member reporting:	Councillor Johnson – Lead Member for Infrastructure, Transport Policy and Housing
Meeting and Date:	Cabinet - 25 <sup>th</sup> July 2019
Responsible Officer(s):	Hilary Hall – Interim Director of Adult Services and Deputy Director, Strategy & Commissioning
Wards affected:	All

### REPORT SUMMARY

- 1. The budget for 2019/20 approved by Council on 26th February 2019 included significant investment of £11.8m to further maintain and improve highway infrastructure including roads, bridges, street lighting road safety and carparks. Within the £11.8m, an allocation of over £3m was approved for annual works programmes, such as road resurfacing.
- 2. This is part of the Administrations key manifesto commitments of investing more than £50m in our highways and pavements over the next four years and a further annual investment of up to £450,000 to fix each reported actionable pothole within 24 hours on the public highway.
- 3. This report seeks approval to the detailed schemes which make up the generic works programmes, see Appendix A
- 4. This report recommends implementation of the capital works programme; with authority delegated to the Interim Director of Adult Services and Deputy Director, Strategy and commissioning, in consultation with the Lead Member for Infrastructure, Transport Policy and Housing, to agree amendments to the approved schemes (within approved budgets) and to implement reserve or substitute schemes should this become necessary.
- 5. The resurfacing programme for 2019/20 and reserve list is included as Appendix B for information following its approval at Cabinet on 31<sup>st</sup> January 2019. This makes up £1.9m of the £3m annual works programme.

### 1. DETAILS OF RECOMMENDATIONS

# **RECOMMENDATION: That Cabinet notes the report and**

- i. Endorses the implementation of the programme of work set out in Appendix A.
- ii. Delegates authority to the Interim Director of Adult Services and Deputy Director Strategy & Commissioning, in consultation with the Lead Member for Infrastructure, Transport Policy and Housing, to agree minor amendments to the approved schemes (within approved budgets) and implement reserve or substitute schemes should this become necessary

# 2. REASON FOR RECOMMENDATION(S) AND OPTIONS CONSIDERED

2.1 The Local Transport Plan (LTP) offers the high-level transport policy for the Royal Borough setting out how we will improve transport between 2012 and 2026.

The plan aims to:

- improve access to local services and facilities.
- improve road safety and personal security.
- support economic growth.
- improve quality of life and minimise the negative impacts of transport.
- tackle climate change.
- Improve air quality.
- improve bus journeys and times.
- improve the quality of our road networks.
- 2.2 The recommended works programmes have been developed to support these policy aims whilst seeking to positively respond to reports and requests from residents, businesses and Parish Councils and ensure that performance targets are achieved.
- 2.3 On 26<sup>th</sup> February 2019, Council approved the overall budget for 2019/20, which includes investment of approximately £11.8m in highways and transport infrastructure. This report seeks approval of work programmes (2019-20) for the following activities:
  - Road markings safety programme
  - Bridge maintenance
  - Footway resurfacing
  - · Local safety schemes
  - Reducing congestion and improving air quality
  - Drainage schemes
- 2.4 Individual one-off schemes (for example: Elizabeth Bridge strengthening) and operational pieces of work (for example: highway tree surgery works) that comprise the remainder of the overall programme and form part of the core approved budget are not included in this report.
- 2.5 Delivery of the recommended works programme (Appendix A) will directly benefit residents, business and visitors by maintaining and improving highway and transport infrastructure, which in turn improves facilities for pedestrians, cyclists and motorists.

**Table 1: Options** 

Option	Comments
1. Approve the	This will enable timely delivery and directly benefit
programmes	residents, business and visitors by maintaining and
recommended in	improving highway and transport infrastructure, which in
Appendix A	turn improves facilities for pedestrians, cyclists and
	motorists.

recommended	The recommended programmes respond to resident and
option	Member requests.
2. Develop and	This is not recommended as the programme is considered
approve an	to offer benefits to residents, business and visitors in a
alternative	cost effective and timely manner. The current programme
programme	has been well thought out and delivers our promises.
3. Do not approve	This is not recommended as benefits to residents,
any programme for	business and visitors would be delayed or undelivered.
implementation	The costs to repair the roads at a later date may cost
	increase costs.

### 3 KEY IMPLICATIONS

3.1 The key implications are set out in table 2.

Table 2: Key implications

i dolo 2. Roy imprioduorio					
Defined Outcomes	Unmet	Met	Exceeded	Significantly Exceeded	Date they should be delivered by
Delivery of highways and transport schemes	Below 85%	85-90%	91-95%	Greater than 96%	31 March 2020

# 4. FINANCIAL DETAILS / VALUE MONEY

# Financial impact on the budget

4.1 The Highways & Transport Works Programme forms a major part of the Council's capital programme. Department of Transport (DfT) LTP grant funding of £2.7m has been received and included in the approved budget £11.8m. The balance is funded corporately and through Local Enterprise Partnership (LEP) funding and Section 106.

The below table sets out the funding split.

LTP grant	LEP funding	Borough	Section 106	Total (£)
funding (£)	(£)	funded (£)	(£)	
(2,698,000)	(5,058,000)	(3,856,000)	(146,000)	11,758,000

- 4.2 In December 2014, the Department for Transport introduced an incentive fund to reward councils who demonstrate they are delivering value for money in carrying out cost effective improvements. Each local highway authority in England (excluding London) was invited to complete a self-assessment questionnaire based on asset management; resilience; customers and operational delivery to establish eligibility for incentive funding. In April 2019, the Royal Borough was awarded Band 3 status (highest level possible), which enabled the maximum level of incentive funding to be secured.
- 4.3 A summary of the approved budget for programmes included in this report is set out in table 3.

Table 3: Approved budget

Table 3: Approved budget			
Cost	Work	2019-20	Description
Centre	Programme	Budget	-
CD07	Road Markings Safety Programme	50,000	This programme supplements the basic road safety maintenance budget for road markings and lining across the Borough. It includes the replacement and upgrading of coloured safety surfaces; anti-skid surfaces and pedestrian crossings.
CD13	Bridge Assessments	£275,000	This programme focuses on major detailed assessment of bridges and key structures, works are identified, prioritised and carried out. Joint assessments of Network Rail bridges are also carried out as part of this programme.
CD23	Local Safety Schemes	£150,000	These proposals are focused on reducing the likelihood of road accidents where sites have a preexisting poor accident record which could be improved by engineering measures including speed related initiatives.
CD35	Reducing Congestion & Improving Air Quality	£50,000	This programme seeks to deliver schemes which deliver a reduction in congestion (for example: local road widening schemes) or target areas of poor air quality.
CC33	Footway reconstruction and maintenance	£300,000	This programme focuses on footways that are beyond basic maintenance repairs and requires more substantial repairs.
CD01	LTP feasibilities studies	£85,000	This programme looks into the feasibility of Traffic management or local safety scheme requests.
CD18	Highway Drainage Schemes	£60,000	This programme focuses on minor highway drainage improvements and ditch clearance within the Borough.
CD43	Flood Prevention	£175,000	This programme seeks to deliver schemes which deliver a reduction

Cost	Work	2019-20	Description
Centre	Programme	Budget	
			in flood risk from sources of
			flooding.
	TOTAL	£1,145,000	
Note: detailed appendices are split by geographic area not budget			

4.4 There are no direct revenue implications as an outcome of this report. However, planned capital investment over a longer-term period will impact positively on revenue expenditure.

### 5. LEGAL IMPLICATIONS

- 5.1 The council has a duty under the Highways Act 1980 to maintain the roads in good order. This duty covers all roads which the council is obliged to maintain, including public rights of way.
- 5.2 The council is also under a duty to promote road safety under the Road Traffic Act 1988, and a duty to monitor air quality under the Environment Act 1995.
- 5.4 Additionally, the recommended programme effectively manages risk which seeks to reduce the likelihood of insurance claims.

### 6. RISK MANAGEMENT

Table 4: Risk management

Risks	Uncontrolled Risk	Controls	Controlled Risk
Funds are allocated to work that cannot be completed.	Medium	The proposed programme has been subject to rigorous inspection and prioritisation and indicative programmes for future years included	Low
Funding is insufficient to deliver the approved programme	Medium	Budget estimates prepared; contractor rates confirmed' fixed prices secured where possible and robust financial governance in place	Low
Delays in delivering works programme	Medium	Achievable programme recommended with indicative programme for future years should individual schemes be undeliverable. Recommended that existing contractors be reappointed to ensure	Low

		timely delivery with minimised disruption	
Inclement weather delays programme delivery	Medium	Recommended that existing contractors be reappointed to undertake weather sensitive elements during the summer / autumn 2019	Low

# 7. POTENTIAL IMPACTS

There are positive sustainability impacts through reducing congestion and improving air quality. Encouraging walking and cycling and sustainable travel as a key element of the local transport plan and these programme support that objective.

### 8. CONSULTATION

8.1 The recommended programme is based on feedback from Ward Councillors, residents, Parish Councils and the travelling public, as well as technical assessments.

#### 9. TIMETABLE FOR IMPLEMENTATION

Date	Details
June 2019 –	Consultation and implementation of schemes detailed in
March 2020	Appendix A.
