I have reviewed this case with the OIC . The aggd was ejected from LIQUID and was with a friend [REDACTED]. He has got into a verbal altercation with [REDACTED] (suspect) and his friend [REDACTED]. This is clearly shown on CCTV that has been seized from LV.

there is another witness- taxi mrshall that intervenes that needs a statement taking. The bouncer from istabul is with aggd and suspect at the time the punch was thrown as he is seen on CCTV and tries to flag down police.

Log entry: AGG (sus in related public order 43150044105) has been interviewed and stated that he could not recall the incident. He remembered being in Liquid only. After being shown CCTV from LV and Liquid, as well as BWV, he admitted acting in a disorderly manner and being drunk. In response to being shown the CCTV he identified himself on all the footage and admitted presence at the scene and to throwing punches in self-defence. He again stated that he was not supporting police prosecution for the ABH on him, and said that he did not want to attend court for the matter but the police could "do what they want" with the evidence available.

#### ERO REVIEW-

I have reviewed this case and applied the full code test.

This is a case where [REDACTED] has been in the town centre after a night out which after his behaviour has resulted in him being assaulted by [REDACTED]

[REDACTED] is seen on CCTV to be acting in a disorderly manner. He has been seen to bump into a couple walking down the street before then bumping into [REDACTED]. This can be seen to instigate verbal altercation between both [REDACTED] and [REDACTED] before pushing and shoving between the two is seen.

This carries on with punches being thrown by both parties when [REDACTED] (a taxi marshal) has tried to split up both parties. [REDACTED] has continued to act in a disorderly and aggressive manner trying to get at [REDACTED] and is seen to push [REDACTED] also.

[REDACTED] and his friend walk off shortly followed by [REDACTED]. The CCTV shows further altercation between [REDACTED] and [REDACTED] a security guard at the kebab shop and comes over to intervene and flag down police. [REDACTED] can clearly be seen to punch [REDACTED] once to the head causing him to fall flat on his back in the middle of the zebra crossing.

[REDACTED] and [REDACTED] were both with a friend [REDACTED] however both have refused to provide a statement or account.

[REDACTED] and [REDACTED] both have provided statements and their accounts are corroborated by the CCTV. [REDACTED] clearly states that [REDACTED] was acting in an aggressive and disorderly manner towards [REDACTED] by intending to start a fight with the male, as well as antagonising other members of public walking past and this is all on CCTV.

[REDACTED] stated that both the males were pulling and pushing each other having an altercation although did not see who actually punched [REDACTED] to the floor as he was flagging down police.

The CCTV corroborates the two witness statements provided which evidence both males acting in a disorderly, aggressive manner towards each other, and [REDACTED] towards other unknown members of public.

[REDACTED] has been interviewed and answered no comment to all questions.

[REDACTED] has been interviewed and stated that he couldn't recall the incident but having been shown the CCTV was acting in a disorderly manner but was being aggressive due to being provoked and acting in self defence.

[REDACTED] will not support an allegation of assault and so I recommend that [REDACTED] is charged with Section 4 public order. The case is in the public interest and there is a RPOC due to clear CCTV of the incident.

I recommend that [REDACTED] is charged with section 5 public order due to his behaviour seen on CCTV and corroborated in a witness statement giving a RPOC. Due to not making full admissions an out of court disposal is not available and this case is on the public interest due to his behaviour in a public place and towards innocent members of the public.
