

## **Windsor Town Centre update report for Windsor Town Forum – November 2021.**

Trading in the town centres still remains positive and visitors' numbers have continued to increase into October. All business sectors are now fully open, however hybrid working has seen lower number of office workers coming into the town centre, which has impacted some of those businesses whom benefit from that trade. Others have adjusted their opening times and reduced labour in order to stay viable.

As the town centres prepares for the festive season a return to live events will return to the town centre and will bring a much-needed boost to bringing the town back to normality

### **Marketing and communications**

Following last year's online Christmas programme. The royal borough will once again be delivering a online programme. However, all households in the borough will receive a copy and additional copies have been printed and will be distributed to shops, business and other organisation who wish to take them. The programme will be downloadable in the Visit Windsor website in early November.

### **Hello lamppost -**

So far, there have been 4639 interactions, 1325 conversations with 853 unique users. The overall engagement score is very strong as a Net Engagement score over 10 is considered good.

### **Key conclusions from interactions so far.**

- Overall, the users mainly had a good first impression of Windsor
- The majority of users were walking around Windsor - however this could be as people who are cycling would be less likely to stop to scan a QR code on their journey
- Users felt that public transport could be improved with more frequent and cleaner services with Wi-Fi available on all buses
- So far, 54% of users felt that it was very important to visit a city's historical landmarks
- Throughout the answers there was an overall theme of users being very fond with Windsor Castle and the Queen
- Users have a positive consensus on the food and drink options available in Windsor
- There were mixed opinions on the cleanliness of Windsor
- Some users feedback was that the parking in Windsor was expensive
- There were mixed feelings from users on returning to the High Street after COVID - but users were very pleased with being able to socialise after lockdown - a next step could be asking users further insights on what would encourage them to go back to the high street
- Users were mainly likely to recommend Windsor to someone with one response stating that they "... would recommend it to everyone"

### **Review of Businesses in Clewer, Dedworth and Ascot**

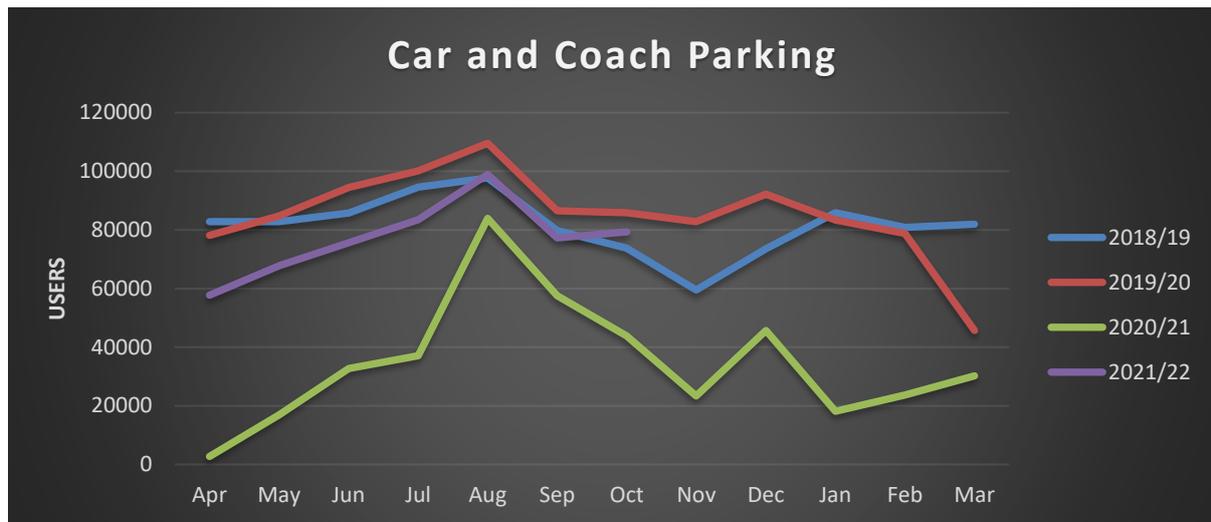

Majority of business remain open in the main trading hubs around Clewer and Dedworth and occupancy levels remain stable and high at (85% occupancy)

Number of Business in Ascot High Street currently 60, slight reduction in in the number of businesses open as CS Lewis butcher has closed - 55 (92% occupancy)

The above rates are still very strong when compared to the rest of the UK where vacancy rates have stayed static for the last few at 14.5%

### **Town centre health check**

**Car Parking**

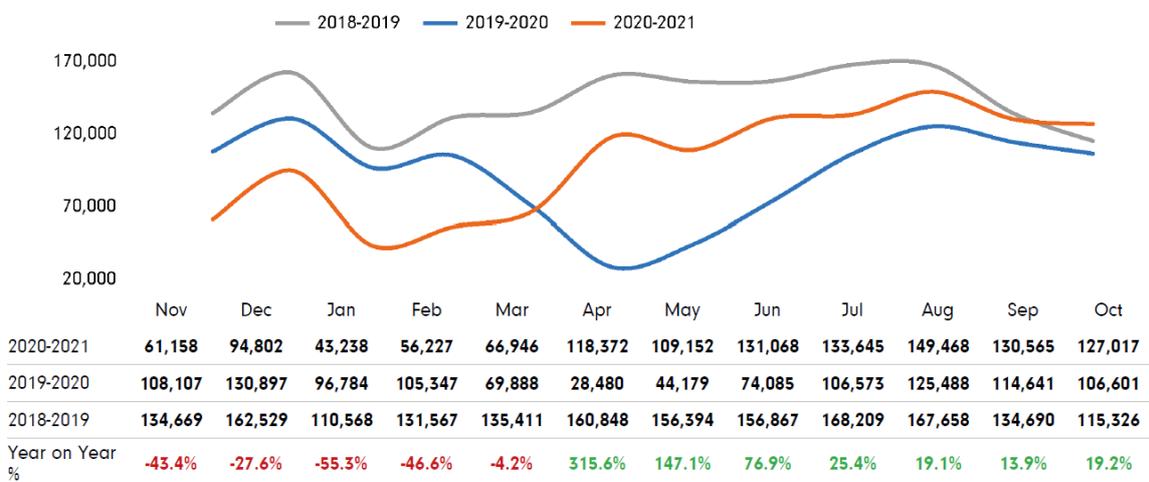

As we reached the end of the summer period car parking usage still moving in a positive direction, Coach parking as predicted has remain extremely low and is likely to remain low into the 2022.

**Footfall**

**Footfall - rolling 12 months**

The figures shown below are calculated using weekly averages.

- The total number of visitors for the year to date is 4,591,388 which is 22.5% up on the previous year.
- The total number of visitors to Windsor Town Centre External in month commencing 4 October 2021 was 508,071.
- The busiest day in month commencing 4 October 2021 was Saturday 9 October with 30,886 visitors.
- The peak hour of the month was 15:00 on Saturday 9 October 2021 with footfall of 4,584

We have seen a very positive increase in footfall in the town centre which is currently better than the same period in 2019. This increase reflects the amount of additional support we have put in online presence and various campaigns such as “Don’t let your guard down” to get people back into the town centre safely and confidently.

### Vacancy Rates

	Aug	Sep	Nov
Current vacancy	<b>9.95%</b>	<b>9.95%</b>	<b>10.12%</b>
*Expected Vacancy	<b>14.25%</b>	<b>10.40%</b>	<b>10.75%</b>
**National Average	<b>14.5%</b>	<b>14.5%</b>	<b>14.5%</b>

\*this includes businesses that have indicated they are in danger of closing permanently.

\*\* Data provided by British Retail Consortium/Local Data Company

Across the UK vacancy rates in High Streets have been stable for the last few months. Whilst there has been a slight increase in Windsor due to two closures (both barbershops) the vacancy in Windsor has not significantly changed. A large number of businesses whom had not yet reopened over the summer months have now done so and so our estimate for endangered stores has dropped by nearly 4%.

As we move into Christmas there will be more stores opening in the Town Centre. Currently there are at least four units under redevelopment now.

## Maidenhead

The river at Maidenhead is one of the many attractions of the town and wider area. A walk along the riverside offers amazing views of the Thames and great walks towards the villages of Cookham, Marlow and Bray. Explore the river's towpaths and walkways on foot or take to the water on a passenger cruiser.

## National Trust Cliveden

At National Trust Cliveden, the formal gardens of the estate soon give way to secluded glades, tree-lined avenues and picturesque riverside with miles of woodland walks to discover.

## Windsor and Maidenhead parks and open spaces

The Royal Borough of Windsor and Maidenhead is full of pockets of green space – parks and open areas in a range of different sizes but all perfect for a spot of relaxation or a bit of exercise. Many have features such as picnic facilities, play equipment, statues, fountains and water features. Others have a fascinating history, for example Baths Island in Windsor was the site of the town's swimming baths back in the 19th century. You'll find areas that are a haven for flora and fauna.

## The River Thames

There is something particularly appealing about the River Thames on the stretch from Hurley to Runnymede as it is perhaps the most historic, offering easy strolls along the Thames Path and the chance to visit many attractions.

## Great for mind, body and spirit, no matter the weather...

The Royal Borough features some beautiful countryside with more than 1,000 acres of National Trust land in the north and 4,800 acres of Crown Estate, not to mention the River Thames running through the heart of the region.

Even in winter it's good to enjoy time outdoors so here are some suggestions for walking, cycling, riding and a thoroughly good day out in the Windsor, Maidenhead and Ascot area.

## Windsor Great Park

Windsor Great Park is the only Royal Park managed by the Crown Estate. While the trees are bare, the iconic tree-lined avenue from the Copper Horse statue to Windsor Castle opens up with wide-ranging views. The frosted monuments of the Prince Consort Statue, Cumberland Obelisk and Jubilee Statue also make for some atmospheric sights on a fresh winter walk.

## Winter in The Savill Garden

There is much to see and discover in The Savill Garden during winter. Colour is in abundance from the stems, fruit and evergreen leaves of the winter beds, and in particular, the colourful stems of the dogwood and willows command attention. The bark of the cherry, maple and birch trees are also features to look out for. There is subtlety and atmosphere in a winter visit to The Savill Garden. Bare stately tree trunks open up new vistas to soak in, offset by the hazy light of the low winter sun. The Savill Garden is open daily, excluding Christmas Eve and Christmas Day.
