Asset & Investment		Investment managers fail to achieve returns of at least the actuarial discount rate over the longer term.						TREAT 1) The Advisory Management Agreement (AMA) clearly states expectations in terms of investment performance targets. 2) Investment manager performance is reviewed by LPPI and the committee on a quarterly basis.			Damien
Risk	PEN001	<u>````</u>	5	4 3	12	3	36	 The Pension Fund Committee should be positioned to move quickly in regards to asset allocation and strategy if it is felt that targets will not be achieved. Portfolio rebalancing is considered on a regular basis by the Pension Fund Committee. The Fund's investment management structure is highly diversified, which lessens the impact of manager risk compared with less diversified structures. Target return benchmark to be developed in due course, expected to be above the actuarial discount rate 	2	24	Damien Pantling
Asset & Investment Risk	t PEN002	Significant volatility and negative sentiment in global investment markets following disruptive geo-political uncertainty. Increased risk to global economic stability.	4	4 1	9	3	27	ITREAT 1) Maintaining a well diversified portfolio with significant allocation to both public and private markets. 2) Maintaining a well diversified investment portfolio with significant allocations across a variety of asset classes such as (but not limited to) credit, equity and real-assets. 3) Routinely receiving market updates from independent advisors and acting upon the recommendations where appropriate - such as issuing additional/new guidance/instruction to LPPI.	2	18	31/01/2022 Damien Pantling
Asset & Investment Risk	t PEN003	The global outbreak of COVID-19 poses economic uncertainty across the global investment markets.	5	3 2	10	3	30	TREAT 1) Routinely receiving market updates from independent advisors and acting upon the recommendations as appropriate TOLERATE 1) Global investment market returns in aggregate for our SAA have thus far not been adversely affected by the COVID-19 pandemic, therefore, no significant changes to the investment strategy or strategic asset allocation are recommended	1	10	31/01/2022 Damien Pantling
Asset & Investment Risk	t PEN004	Volatility caused by uncertainty with regard to the withdrawal of the UK from the European Union and the economic after effects. For Example, supply chain issues and HGV driver shortages affecting UK trade and causing supply issues.	4	4 1	9	3	27	TREAT 1) Volatility is reduced through having a relatively low exposure to UK equities and is well diversified with a significant safe-haven focus. 2) Fund has removed the significant GBP hedge and is not undergoing any strategic currency hedging from 6th December 2021, but will seek to review in Summer 2022	2	18	Damien Pantling
Asset & Investment Risk	t PEN005	Increased scrutiny on environmental, social and governance (ESG) issues, leading to reputational damage if not compliant. The administering authority declared an environmental and climate emergency in June 2019, effect on Pension Fund is currently unknown. TCFD regulations impact on LGPS schemes currently unknown but expected to come into force during 2022/23.	3	2 4	9	3	27	IREAT 1) Review ISS in relation to published best practice (e.g. Stewardship Code). 2) Ensure fund managers are encouraged to engage and to follow the requirements of the published ISS. 3) The Fund is a member of the Local Authority Pension Fund Forum (LAPFF) and Pensions and Lifetime Savings Association (PLSA), which raises awareness of ESG issues and facilitates engagement with fund managers and company directors. 4) An ESG statement and RI Policy was drafted for the Pension Fund as part of the ISS and approved in March 2021. 5) Officers regularly attend training events on ESG and TCFD regulations to ensure stay up to date with latest guidance. 6) LPPI manage the funds investments and have their own strict ESG policies in place which align which manage the fund.	2	18	31/01/2022 Damien Pantling
Asset & Investment Risk	t PEN006	A change in government or existing government policy may result in new wealth sharing policies which could negatively impact the value of the pension fund assets.	5	5 1	11	2	22	TREAT 1) Maintain links with central government and national bodies to keep abreast of national issues. Respond to all consultations and lobby as appropriate to ensure consequences of changes to legislation are understood by (external) policy makers and the Fund.	1	11	Damien Pantling

Asset & Investment Risk	t PEN009		4	3 3	10	2	20	ITREAT 1) Fund is reliant upon current adequate contract management activity overseen by our investment managers LPPI. 2) Fund is reliant upon alternative suppliers at similar prices being found promptly.	1	10	Damien Pantling
Asset & Investment Risk	t PEN010	Global investment markets fail to perform in line with expectations leading to deterioration in funding levels and increased contribution requirements from employers.	3	5 2	10	2	20	TREAT 1) Proportion of total asset allocation made up of equities, bonds, property funds, infrastructure and fixed income, limiting exposure to one asset category - this diversification generally reduces risk of any particular market underperformance. 2) The investment strategy is continuously monitored and periodically reviewed to ensure optimal risk asset allocation. 3) Full wholistic strategy review takes place every three years in line with the actuarial valuation. 4) Investment strategy reviewed every year and LPPI undertake a health-check bi-annually. 5) The actuarial assumptions regarding asset performance are regarded as achievable over the long term in light of historical data.	1	10	31/01/2022 Damien Pantling

Liability Risk	PEN011	Scheme members live longer than expected leading to higher than expected liabilities.	5	5 1	11	2	22	TREAT 1) A longevity swap insurance contract was entered into in 2009 which effectively hedged the risk of longevity rates increasing for all of the retired scheme members (c11,000 members) at that point in time. 2) All scheme members that were not part of the longevity swap contract group in 2009 (i.e. all active or deferred members as at 2009 or that have since joined the scheme)	1	11	Damien Pantling	31/01/2022
								have liabilities exposed to longevity risk. Whilst longevity risk in isolation cannot be hedged without further consideration of another longevity contract, it is managed through regular review of the investment strategy (risk profile, cashflows, liability matching)			-	
Liability Risk	PEN012	Longevity rates decreasing, or increasing at a lower rate than those assumed in the longevity contract, leading to an increased contractual liability at present value.	3	4 4	11	2	22	TOLERATE 1) The opportunity cost in entering into the longevity contract was the loss of upside benefits associated with decreasing longevity rates - this was an active decision previously taken. 2) At present, the cost or even the option of exiting the contract has not been explored and may not be possible contractually. 	DENOLA	Employee pay increases are significantly more than anticipated for employers within the Fund.		4 2			40	TOLERATE 1) Fund employers should monitor own experience. 2) Assumptions made on pay and price inflation (for the purposes of IAS19/FRS102 and actuarial valuations) should be long term assumptions. Any employer specific assumptions above the actuary's long term assumption would lead to further review.			Damien	31/01/2022

Employee pay rises currently remain below inflation. Employer decisions to increase pay more than anticipated would result in increased contributions for that employer at the next triennial valuation 	2	18	Pantling	
Liability Risk	PEN015	Impact of economic and political decisions on the Pension Fund's employer workforce and government funding level affecting the Councils spending decisions. For example scheme matures more quickly than expected due to public sector spending cuts, resulting in contributions reducing and pension payments increasing.	5	2 1	8	3	24	TREAT 1) Barnet Waddingham uses prudent assumptions on future of employees within the workforce. Employer responsibility to flag up potential for major bulk transfers outside of the fund. The potential for a significant reduction in the workforce as a result of the public sector financial pressures may have a future impact on the Fund. 2) Barnet Waddingham will make prudent assumptions about diminishing workforce when carrying out the triennial actuarial valuation in 2022. 3) Review maturity of scheme at each triennial valuation. Secondary deficit contributions specified as lump sums, rather than percentage of payroll to maintain monetary value of contributions and mitigate risk of reducing workforce on cashflow. 4) Cashflow position monitored monthly.	2	16	Damien Pantling	31/01/2022

Liability Risk	PEN018	There is insufficient cash available in the Fund to meet pension payments leading to investment assets being sold at sub-optimal prices to meet pension payments.	5	4 3	12	2	24	ITREAT 1) Cashflow forecast maintained and monitored. 2) Cashflow requirement is a factor in current investment strategy review. 3) Maintain a material level of cash held within a short duration bond fund, which allows access at short notice.	1	12	Damien Pantling	31/01/2022
Liability Risk	PEN019	Mismatching of assets and liabilities, inappropriate long-term asset allocation or investment strategy, mistiming of investment strategy.	5	3 3	11	2	22	Internation Internation 1) Active investment strategy and asset allocation monitoring by LPPI, overseen by Pension Fund Committee, officers and independent advisors. 2) Strategic asset allocation review was approved in September 2021 with a move out of diversifying strategies and an increase in equities. 3) Setting of Fund specific benchmark relevant to the current position of fund liabilities to be approved in March 2022. 4) Fund manager targets set and based on market benchmarks or absolute return measures. Overall investment benchmark and out-performance target is fund specific.	1	11	Damien Pantling	31/01/2022
Liability Risk	PEN020	Transfers out increase significantly as members transfer to DC funds to access cash through new pension freedoms.	4	4 2	10	2	20	TREAT 1) Monitor numbers and values of transfers out being processed. If required, commission transfer value report from Fund Actuary for application to Treasury for reduction in transfer values.	1	10	Damien Pantling	31/01/2022
Liability Risk	PEN021	Inadequate, inappropriate or incomplete investment or actuarial advice is actioned leading to a financial loss or breach of legislation.	5	3 2	10	2	20	TREAT 1) At time of appointment, ensure advisers have appropriate professional qualifications and quality assurance procedures in place. Liability Risk	PEN022	Changes to LGPS Scheme moving from Defined Benefit to Defined Contribution	5	3 2	10	1	10	TOLERATE 1) Political will required to effect the change - this would be a major change to the LGPS, and a significant lead in time, probably with protection for almost all existing benefits, so there would be considerable time to assess the likely impact. 2) Significant and sustained political will be required to make such a change, with likely opposition of existing members to be managed.	1	10	Damien Pantling	31/01/2022
