Report Title:	RBWM Risk Management Report
Contains	No - Part I
Confidential or	
Exempt Information	
Cabinet Member:	Councillor Hilton, Cabinet Member for Finance
	and Ascot
Meeting and Date:	Audit and Governance Committee – 20
_	October 2022
Responsible	Adele Taylor, Executive Director of Resources
Officer(s):	and Section 151 Officer
, ,	Andrew Vallance, Head of Finance and
	Deputy Section 151 Officer
Wards affected:	None

REPORT SUMMARY

1. This report sets out how satisfactory risk management is in place for RBWM as part of its governance arrangements. It includes the key strategic risks and how they are monitored and managed.

1. DETAILS OF RECOMMENDATION(S)

RECOMMENDATION: That the Audit and Governance committee notes the report.

2. REASON(S) FOR RECOMMENDATION(S) AND OPTIONS CONSIDERED Options

Table 1: Options arising from this report

Option	Comments
To note this report.	RBWM is required to publish an
This is the recommended option.	annual governance statement in which an essential requirement is
	to demonstrate how it manages
	risk.
Not note this report.	Without a suitable risk
This is not recommended.	management structure, it is far
	more likely the council will have
	insufficient awareness of risks
	and be exposed to the impact of
	unnecessary levels of risk.

- 2.1 Risk management is a governance process open to scrutiny from councillors and the public at RBWM's Audit and Governance Committee meetings.
- 2.2The purpose of risk management is to analyse risks to the council and help all decision-makers get a better understanding of a realistic range of possibilities, what

- drives the related associated uncertainty and hence where efforts can be best concentrated to manage this uncertainty.
- 2.3 The corporate risk register records the risks relating to RBWM's objectives. Our risk registers are appropriate at the point in time at which they are produced, requiring consideration be given to a broad range of potential risks and outcomes. Anything that might inhibit the way in which this is expressed would weaken the quality of decision making when determining the most appropriate response to a risk.
- 2.4 Risks potentially carrying the most damaging impacts on our measurement scale are classified as key risks. The inclusion of risks within any level of risk register does not mean there is an immediate problem but signifies officers are aware of potential risks and have devised strategies for the implementation of relevant mitigation measures.
- 2.5 Appendix A contains a current summary of the key strategic risks. These risks were last presented to Members at the meeting of the Audit and Governance Committee on 19 May 2022. Since that report 2 key risks have been removed and 1 added.
 - **2.5.1** Removed: security and community problems arising from the actions of disenfranchised groups and extremists. Directors consider that this exposure is not a key strategic risk. The matter nevertheless remains on the risk register at a lower assessment categorisation due to the council's responsibilities as a local leader to help ensure public safety
 - 2.5.2 Removed: the council's exposure to the coronavirus (COVID-19) emergency. Now that all restrictions relating to the virus have been removed, officers consider it's appropriate to take this matter off the risk register.
 - 2.5.3 Added: financial implications of the adult social care charging reforms. From October 2023, the government will increase the cap on the amount anyone in England will need to spend on their personal care over their lifetime from £23k to £86k. The council currently pays for the care of around 2,000 people the reforms will see this number at least double, and everyone will want a Care Account in place to record their expenditure towards the cap.
- 2.6 Members are notified of the key risks where they are named as the risk owner typically as part of a Lead Member briefing. Officers are tasked with ensuring that any comments by Members are reflected in the assessment.
- 2.7 Risk reports are reviewed by senior management which gives the opportunity for challenge and discussion. If any risks are of such low impact that there is no good reason to continue including them in these discussions, then they are either removed from the risk register entirely or re-categorised with a lower risk assessment. These reviews are also an opportune moment to incorporate any new risks into this governance structure.

3. KEY IMPLICATIONS

Table 2: Key Implications

Outcome	Unmet	Met	Exceeded	Significantly Exceeded	Date of delivery
Officers and Members are engaged in regular risk reviews of the risk register - the nature of the threat and the progress on mitigations.	Risks are left without officer or Member attention.	Quarterly reviews.	Risks are reviewed more frequently than quarterly.	Risks are constantly assessed and not led by the review frequency on the risk register.	Ongoing by quarterly review.
Officers and Members make strategic, operational and investment decisions around projects with the risks in mind.	Risks are left without officer or Member attention.	Risk reviews undertaken at every key stage of the project.	Risks are constantly assessed.	None.	Ongoing until conclusion as part of project management.

4. FINANCIAL DETAILS / VALUE FOR MONEY

4.1 There are no explicit financial consequences arising from this report. However, risk owners need to contemplate resource implications when devising their mitigation strategies

5. LEGAL IMPLICATIONS

5.1 The council must comply with Regulation 6 (2) of the Accounts and Audit Regulations 2015 by publishing an Annual Governance Statement which demonstrates how it manages risk.

6. RISK MANAGEMENT

Table 3: Impact of risk and mitigation

	paret er rient arrei inntigation					
Risk	Level of	Controls	Level of			
	uncontrolled		controlled			
	risk		risk			

he workshop ed at Audit vernance 2 to thoroughly ne strategic ster. Results ought back to mittee as per management lan.

7. POTENTIAL IMPACTS

- 7.1 Equalities. An Equality Impact Assessment is available as Appendix A
- 7.2 None directly although some risks may, from time to time, include associated obligations.
- 7.3 Data Protection/GDPR. None directly although some risks may, from time to time, involve related obligations.

8. CONSULTATION

8.1 This matter was last presented to the Audit and Governance Committee on 19 May 2022. Consultations have taken place with Directors' Forum, Heads of Service, directorate management teams and SWAP Internal Audit.

9. TIMETABLE FOR IMPLEMENTATION

9.1 Not applicable

10. APPENDICES

- 10.1 This report is supported by three appendices:
 - A heat map showing assessment of current key strategic risk impact/likelihoods
 - B detail of the key risks summarised in appendix A

11. BACKGROUND DOCUMENTS

11.1 This report is not supported by any background documents:

12. CONSULTATION

Name of consultee	Post held	Date sent	Date returned
Mandatory:	Statutory Officers (or deputies)		returneu
Adele Taylor	Executive Director of Resources/S151 Officer		
Emma Duncan	Director of Law, Strategy & Public Health/ Monitoring Officer		
Deputies:			
Andrew Vallance	Head of Finance (Deputy S151 Officer)	28/09/22	12/10/22
Elaine Browne	Head of Law (Deputy Monitoring Officer)		
Karen Shepherd	Head of Governance (Deputy Monitoring Officer)		
Mandatory:	Procurement Manager (or deputy) - if report requests approval to go to tender or award a contract		
Lyn Hitchinson	Procurement Manager	n/a	
Mandatory:	Data Protection Officer (or deputy) - if decision will result in processing of personal data; to advise on DPIA		
Emma Young	Data Protection Officer	n/a	
Mandatory:	Equalities Officer – to advise on EQiA, or agree an EQiA is not required		
Ellen McManus	Equalities & Engagement Officer		
Other consultees:			
Directors (where relevant)

APPENDIX A - EQUALITY IMPACT ASSESSMENT

Essential information

Items to be assessed: (please mark 'x')

Strategy	Policy	Plan	Project		Service/Procedure	Х
Responsible officer	Steve Mappl	ey Service area	Insurance and risk	Directorate	Resources	
Stage 1: EqIA Scr (mandatory)	eening	Date created: 26/09/2022	Stage 2 : Full assess applicable)	ment (if	Date created : n/a	

Approved by Head of Service / Overseeing group/body / Project Sponsor: "I am satisfied that an equality impact has been undertaken adequately."

Signed by (print):

Dated: xx/xx/xxxx

Guidance notes

What is an EqIA and why do we need to do it?

The Equality Act 2010 places a 'General Duty' on all public bodies to have 'due regard' to:

- Eliminating discrimination, harassment and victimisation and any other conduct prohibited under the Act.
- Advancing equality of opportunity between those with 'protected characteristics' and those without them.
- Fostering good relations between those with 'protected characteristics' and those without them.

EqIAs are a systematic way of taking equal opportunities into consideration when making a decision, and should be conducted when there is a new or reviewed strategy, policy, plan, project, service or procedure in order to determine whether there will likely be a detrimental and/or disproportionate impact on particular groups, including those within the workforce and customer/public groups. All completed EqIA Screenings are required to be publicly available on the council's website once they have been signed off by the relevant Head of Service or Strategic/Policy/Operational Group or Project Sponsor.

What are the "protected characteristics" under the law?

The following are protected characteristics under the Equality Act 2010: age; disability (including physical, learning and mental health conditions); gender reassignment; marriage and civil partnership; pregnancy and maternity; race; religion or belief; sex; sexual orientation.

What's the process for conducting an EqIA?

The process for conducting an EqIA is set out at the end of this document. In brief, a Screening Assessment should be conducted for every new or reviewed strategy, policy, plan, project, service or procedure and the outcome of the Screening Assessment will indicate whether a Full Assessment should be undertaken.

Openness and transparency

RBWM has a 'Specific Duty' to publish information about people affected by our policies and practices. Your completed assessment should be sent to the Strategy & Performance Team for publication to the RBWM website once it has been signed off by the relevant manager, and/or Strategic, Policy, or Operational Group. If your proposals are being made to Cabinet or any other Committee, please append a copy of your completed Screening or Full Assessment to your report.

Enforcement

Judicial review of an authority can be taken by any person, including the Equality and Human Rights Commission (EHRC) or a group of people, with an interest, in respect of alleged failure to comply with the general equality duty. Only the EHRC can enforce the specific duties. A failure to comply with the specific duty.

Stage 1: Screening (Mandatory)

1.1 What is the overall aim of your proposed strategy/policy/project etc and what are its key objectives?

To undertake improvements to the processes for the assessment and management of the business risks of the council.

1.2 What evidence is available to suggest that your proposal could have an impact on people (including staff and customers) with protected characteristics? Consider each of the protected characteristics in turn and identify whether your proposal is Relevant or Not Relevant to that characteristic. If Relevant, please assess the level of impact as either High / Medium / Low and whether the impact is Positive (i.e. contributes to promoting equality or improving relations within an equality group) or Negative (i.e. could disadvantage them). Please document your evidence for each assessment you make, including a justification of why you may have identified the proposal as "Not Relevant".

Protected characteristics	Relevance	Level	Positive/negative	Evidence
Age	Not relevant			Key data: The estimated median age of the local population is 42.6yrs [Source: ONS mid-year estimates 2020]. An estimated 20.2% of the local population are aged 0-15, and estimated 61% of the local population are aged 16-64yrs and an estimated 18.9% of the local population are aged 65+yrs. [Source: ONS mid-year estimates 2020, taken from Berkshire Observatory] The subject matter is entirely to do with how the council undertakes its business risk management processes and not the nature of the consequent risks identified.
Disability	Not relevant			The subject matter is entirely to do with how the council undertakes its business risk management processes and not the nature of the consequent risks identified.
Gender re- assignment	Not relevant			The subject matter is entirely to do with how the council undertakes its business risk management processes and not the nature of the consequent risks identified.
Marriage/civil partnership				The subject matter is entirely to do with how the council undertakes its business risk management processes and not the nature of the consequent risks identified.
Pregnancy and maternity				The subject matter is entirely to do with how the council undertakes its business risk management processes and not the nature of the consequent risks identified.

Race	Not relevant	Key data: The 2011 Census indicates that 86.1% of the local population is White and 13.9% of the local population is BAME. The borough has a higher Asian/Asian British population (9.6%) than the South East (5.2%) and England (7.8%). The forthcoming 2021 Census data is expected to show a rise in the BAME population. [Source: 2011 Census, taken from Berkshire Observatory]
		The subject matter is entirely to do with how the council undertakes its business risk management processes and not the nature of the consequent risks identified.
Religion and	Not	Key data: The 2011 Census indicates that 62.3% of
belief	relevant	the local population is Christian, 21.7% no religion, 3.9% Muslim, 2% Sikh, 1.8% Hindu, 0.5% Buddhist, 0.4% other religion, and 0.3% Jewish. [Source: 2011 Census, taken from Berkshire Observatory]
		The subject matter is entirely to do with how the council undertakes its business risk management processes and not the nature of the consequent risks identified.
Sex	Not relevant	Key data: In 2020 an estimated 49.6% of the local population is male and 50.4% female. [Source: ONS mid-year estimates 2020, taken from Berkshire Observatory]
		The subject matter is entirely to do with how the council undertakes its business risk management processes and not the nature of the consequent risks identified.

Sexual			The subject matter is entirely to do with how the
orientation	relevant		council undertakes its business risk management
			processes and not the nature of the consequent risks
			identified.

Outcome, action and public reporting

Screening Assessment Outcome	Yes / No / Not at this stage	Further Action Required / Action to be taken	Responsible Officer and / or Lead Strategic Group	Timescale for Resolution of negative impact / Delivery of positive impact
Was a significant level of negative impact identified?	No	None`		
Does the strategy, policy, plan etc require amendment to have a positive impact?	No	None		

If you answered **yes** to either / both of the questions above a Full Assessment is advisable and so please proceed to Stage 2. If you answered "No" or "Not at this Stage" to either / both of the questions above please consider any next steps that may be taken (e.g. monitor future impacts as part of implementation, re-screen the project at its next delivery milestone etc).

Stage 2 : Full assessment

2.1 : Scope and define

2.1.1 Who are the main beneficiaries of the proposed strategy / policy / plan / project / service / procedure? List the groups who the work is targeting/aimed at.
2.1.2 Who has been involved in the creation of the proposed strategy / policy / plan / project / service / procedure? List those groups who the work is targeting/aimed at.

2.2 : Information gathering/evidence

 2.2.1 What secondary data have you used in this assessment? Common sources of secondary data include: censuses, organisational records. 2.2.2 What primary data have you used to inform this assessment? Common sources of primary data include: consultation through interviews, focus groups, questionnaires. 	
2.2.2 What primary data have you used to inform this assessment? Common sources of primary data include: consultation	
2.2.2 What primary data have you used to inform this assessment? Common sources of primary data include: consultation through interviews, focus groups, questionnaires.	organisational records.

identi	Has your delivery plan been updated to incorporate the activities identified in this assessme ified negative impacts? If so please summarise any updates. e could be service, equality, project or other delivery plans. If you did not have sufficient data to comp	
asses	ssment, then an action should be incorporated to collect this information in the future.	

Appendix A – current key strategic risk assessments

Impact

Detailed Risk Information

Current Risk Rating	Risk Ref	Summary	Assigned To	Review Date
12	RES0002	Maidenhead regeneration programme 1. The large schemes do not commence delivery as planned leaving the town weakened as an offer with reduced footfall making it less likely investment will be attracted in the future. Potential impact on Council commercial interests as well. 2. Changes in the economy, particularly influenced by COVID-19, could affect the benefits that can be realised e.g. a loss of consumer confidence, loss of office workers and rising build costs would affect the financial viability of schemes and could result in stalled development or completed development not being as attractive/successful as planned. 3. Ensuring effective join up of sites and infrastructure delivery. With so many different sites being developed/planned there could be a long term issue of the town centre being a 'building site' so scheduling works and keeping businesses open will be critical. Similarly development of infrastructure needs to make sure it is delivered when (or before) need. 4. Funding markets do not support the quantum of development leading to delay in commencing schemes. 5. Impact on capital receipts.	Adele Taylor (as client)	01/11/2022
9	CMT0040	Insufficient local community resilience which could lead to residents being without the necessary assistance and increased financial impact on RBWM should a critical event occur. Underdeveloped and untested business continuity planning may reduce the ability of the council to provide critical functions in the event of emergency situation. COVID-19 has tested all sorts of BCP, and we have responded well to this pandemic emergency challenge	David Scott	01/12/2022
8	CORP0005	Council owned companies or major contractors delivering statutory and discretionary services on behalf of the council fail and/or go out of business as a result of increased demand or poor performance. Leads to: - Statutory services for children and adults not delivered. - Resident facing community services, such as highways or waste collection, not delivered. - Reputational damage to the council. - Potential risks to public health. - Vulnerable adults and children may be left more at risk. - Problems in maintaining the streetscene to a safe level leading to highways injuries/claims against the statutory highway authority.	Andrew Durrant	01/10/2022
8	HOF0006	Historically, the council's financial strategy has not been effective in dealing with pressures. The CIPFA action plan along with a robust MTFS and improved budget management (as detailed in the last two budgets) have stabilised matters. Addressing the impact of several years of low CTax bills is a concern. It is expected the council should soon be in a position to boost its reserves. Confidence level: strong degree of confidence that the assessments accurately capture the current position in risk terms. Timescale: as at Spring 2022, our aim is that within 2-3 years the impact of our mitigations will result in sufficient resilience.	Andrew Vallance	17/11/2022

Detailed Risk Information

Current Risk Rating	Risk Ref	Summary	Assigned To	Review Date
8	HSG0006	1. Lack of joint early planning between children's services, adult social care and health can potentially lead to children and young people with high needs, who will need to transition to adult services, not being identified early enough for their ongoing costs to be built into future planning/Medium Term Financial Strategy.	Kevin McDaniel	01/10/2022
		2. Lack of early joint planning between children's and adult services may limit opportunities to prepare young people for adulthood and independence.		
		3. Lack of sufficient accommodation in the borough often leads to young people being placed out of borough in expensive placements leading to higher costs and loss of contact with their communities.		
6	FOI0003	(a) Serious external security breaches, (b) data loss or damage to data caused by inadequate information security leads to delays and errors in business processes.	Nikki Craig	17/11/2022
		The prime threats reported to the National Cyber Security Centre over the past 12 months include ransomware, malware, social engineering and supply chain attacks.		
6	FOI0006	Statutory breach arising from non-compliance with the Data Protection Act 2018 and the UK General Data Protection Regulation 2016 leads to reputation damage e.g. naming and shaming and fines potentially up to €20m (that level of fine is unlikely to be applied to a local authority although low 6 figure fines from the ICO in that regard have occurred) as well as legal action costs following judicial remedies.	Karen Shepherd	26/10/2022
		Adequacy status was granted to the UK in June 2021 meaning all data processing with the EU/EEA will continue as it did before EU withdrawal.		
		Non-compliance can only be identified if a breach actually occurs. The type of information breach is key - only if significant harm is likely to arise from the breach are fines expected to be punitive.		
		Regulators can also issue enforcement action in the form of temporary or permanent bans on processing.		
		Confidence level in accuracy of current risk assessment: medium.		

Detailed Risk Information

Current Risk Rating	Risk Ref	Summary	Assigned To	Review Date
6	TECHAN01	If there is an IT infrastructure failure i.e. data storage infrastructure, systems access or total loss of council data centre then this could affect the ability of RBWM to function normally.	Nikki Craig	17/11/2022
		Several large consecutive and concurrent projects are scheduled for 22/23 and 23/24.		
		Details are within the IT risk register of which this is a summary.		
		Causes: External cyber threats e.g. distributed denial of service (DDOS) attacks. Loss/damage/denial of access to primary, secondary or hosted data centres. Accidental or deliberate loss of data or physical/logical failure to disk drive. Lapse of accreditation to Public Services Network. Physical or virtual server corruption or failure.		
		This could lead to: - increased costs of downtime in the event of insufficient back up - expensive emergency service to rectify at short notice.		
		Impacts are felt on three levels: operationally, as the council becomes unable to engage with residents; financially, as revenues are lost and remediation costs pile up; and reputationally, as people question the security of the data that's held about them.	s
