NOTES: Table 1A above shows all transactions through i-Connect Software for the third quarter of 2022. Changes include hours/weeks updates, address amendments and basic details updates.

The benefits of i-Connect are:

- Pension records are maintained in ‘real-time’;
- Scheme members are presented with the most up to date and accurate information through “my pension ONLINE” (Member self-service);
- Pension administration data matches employer payroll data;
- Discrepancies are dealt with as they arise each month;
- Employers are not required to complete year end returns;
- Manual completion of forms and input of data onto systems is eradicated removing the risk of human error.

Since 1 October 2022, The Holt School have on board i-connect Software representing circa 70 scheme member records. Officers continue to work closely with The Slough & East Berkshire MAT which represents circa 200 scheme member records endeavouring to on board before Year End 2023 processing begin.

Overall, including The Slough & East Berkshire MAT, 131 scheme employers are yet to on board i-Connect Software which represents circa. 2,200 scheme member records (8.50% of total Active Scheme members).

The Pension Fund remains committed to continuing to work with these scheme employers to help them to onboard, where it is possible for them to do so. Scheme employers with fewer than 10 scheme members (77 employers) have the option of using an on-line portal version of i-Connect Software rather than submitting via “.csv”.

1.5. Key Performance Indicators

CIPFA Benchmark: Two months from date of joining the scheme or if earlier within one month of receiving jobholder information.

CIPFA Benchmark: As soon as practicable and no more than two months from date of notification of death from scheme employer or deceased’s representative.

CIPFA Benchmark: No more than two months from date of receiving the scheme members signed declaration requesting to receive a refund of employee pension contributions.

CIPFA Benchmark: One month from date of retirement if on or after normal pension age or two months from date of retirement if before normal pension age.

1.6. Communications

Events shown have been held remotely, including hybrid.

1.7. Stakeholder Feedback

As part of the Pension Fund's aim to achieve Pension Administration Standards Association (PASA) accreditation it is a requirement to report to Members the comments and complaints received from scheme employers and their scheme members on a periodic basis. Please see below feedback received from stakeholders during the fourth quarter:

Date Received	Method	Feedback

2. SPECIAL PROJECTS

2.1. McCloud Judgement

In 2014 the Government introduced reforms to public service pensions, meaning most public sector workers were moved into new pension schemes in 2014 and 2015.

In December 2018, the Court of Appeal ruled that the 'transitional protection' offered to some members of the judges' and firefighters' pension schemes, as part of the reforms, gave rise to unlawful discrimination.

On 15 July 2019 the Chief Secretary to the Treasury made a written ministerial statement confirming that, as 'transitional protection' was offered to members of all the main public service pension schemes, the difference in treatment will need to be removed across all those schemes for members with relevant service.

The changes to the LGPS include transitional protection for members who were within 10 years of their Final Salary Scheme normal pension age on 1 April 2012, ensuring that they would receive a pension that was at least as high as they would have received had the scheme not been reformed to a Career Average Revalued Earnings scheme from 1 April 2014.

Officers understand the Department for Levelling Up, Housing and Communities (DLUHC) is to consult on further regulations governing the application of the McCloud remedy to the LGPS.

The DLUHC has confirmed to the Local Government Pension Committee (LGPC), in a recent update, that work continues on the steps to rectify the discrimination as it affects the LGPS in England and Wales, with the government planning to publish its response to the 2020 consultation on amendments to the statutory underpin later this year, after which the LGPS Scheme Advisory Board will resume its McCloud implementation groups.

An updated version of the draft regulations implementing the remedy will be published alongside the consultation response, covering new powers relating to the statutory underpin. However, a further consultation will take place in 2023 to ensure the updated draft regulations are accurate in light of the changes made.

The government will also consult on other aspects of the McCloud remedy which did not feature in our original consultation, such as compensation and rates of interest.

These new regulations are expected to come into force in October 2023, while a consultation will also take place covering new statutory guidance on McCloud implementation.

2.2. Pensions Dashboard Programme

A national pensions dashboard has been on the horizon for some time, but now the Pension Schemes Act 2021 has received Royal Assent it is anticipated the Department for Work and Pensions (DWP) will begin to consult on detailed dashboard regulations and work with regulators to begin supporting both private and public sector pension providers and pension schemes to comply with their dashboard compulsion duties. It is anticipated the Pensions Dashboards Programme (PDP) will publish further detailed instructions on how a scheme administrator must operate with the dashboard ecosystem.

Officers recognise it is important not to wait for all this consultation and guidance. Almost every aspect of administering a pension scheme is easier to achieve if data is actively managed and incorporates both Common and Scheme Specific data activities, an area officers have successfully improved over the last three years.

Officers acknowledge Pensions Dashboards, if done well, could be a game changer in getting individuals to better engage with their pensions and a better efficiency of pension scheme management. Officers understand the Pensions Dashboard will go live during late 2024 and officers will provide further details to Members in due course.

2.3. Berkshire Pension Fund Website and other Communication

Officers reported during September 2022 that they are only too aware of the need to ensure Scheme employers and their Scheme members are kept, more than ever before, up to date about all changes to the Scheme that impact on them, delivering news about such changes quickly and efficiently.

Officers have looked at driving changes to the communication work that they do, including a review and development of the Pension Fund website to further improve on existing functionality, all aimed at improving engagement with Scheme employers and their Scheme members. The review of the website is now complete, ahead of the original deadline of 31 March 2023.

An ongoing item is to a) target those Scheme members who are yet to register for 'my pension ONLINE' and b) target those who are already registered but chose, as part of the implementation of 'my pension ONLINE' in 2013, to continue to receive a paper copy Annual Benefit Statement to go solely online.

In respect of a), Officers are working with Heywood Pension Technologies who have launched a Transformational Member Experience Programme aimed at developing the functionality and user experience of 'my pension ONLINE' product. Officers are willing to act as a TEST site and will target those Scheme member who are yet to register as part of this programme going LIVE.

In respect of b), Officers have sent the first of three letters to Scheme members, in consideration of the Occupational and Personal Pension Schemes (Disclosure of Information) Regulations 2013. A deadline to respond to at least one of the three letters is 31 March 2023, if a reply to continue receiving a paper copy Annual Benefit Statement is not received by this date no further paper copies will be sent.
