Education Data Pack

Academic Year 2021 – 2022

Academic Year 2021/22 January 2022

GLOSSARY

KEY STAGES OF THE CURRICULUM

1. The curriculum is split into stages according to the age of the pupils, see Table A.

Table A – Key Stage and Age Summary

Stage	Age range	School year	National exam or test at end of Key Stage
Foundation Stage	3-5	Nursery and Reception	Assessment
Key Stage 1	5-7	1-2	Assessment
Key Stage 2	7-11	3-6	SATS
Key Stage 3	11-14	7-9	
Key Stage 4	14-16	10-11	GCSE
Key Stage 5	Post 16	12+	A /Level 3

2. Pupil assessment is:
 - At Foundation stage pupils is assessed against a profile which has a strong emphasis on the three prime areas of communication and language; physical; and personal, social and emotional development. Practitioners make a best-fit assessment of whether children are emerging, expected or exceeding against each of the 17 early learning goals. The percentage of children achieving at least the expected level in the prime areas of learning and in the specific areas of literacy and mathematics are defined as having reached a ‘Good Level of Development’ (GLD).
 - At the end of Year 1 pupils take a phonics screening test.
 - Pupils are assessed by teachers in the core subjects of Reading, Writing and Mathematics at the end of Key Stage 1.
 - At the end of Key Stage 2, tests take place in Reading, Mathematics and Grammar, Punctuation and Spelling and teacher assessments are carried out in Reading, Writing, Mathematics and Science. Pupils are required to reach the expected standard in Reading test, Writing assessment and Maths test.
 - At the end of Key Stage 3 there are no statutory assessment requirements.
 - At Key Stage 4 and 5, pupils undertake external examinations, most commonly GCSEs and A levels.

STATISTICAL NEIGHBOURS

The tables and charts in the report compare schools in the Royal Borough with those nationally and those in statistically similar authorities, known as our ‘Statistical Neighbours’. The Royal Borough’s current statistical neighbours are: Surrey, Buckinghamshire, Bracknell Forest, Hertfordshire, Wokingham, West Berkshire, Oxfordshire, Cambridgeshire, Hampshire and Trafford. They were last changed in October 2015 with the introduction of Trafford and the loss of Cheshire East.

RUSSELL GROUP UNIVERSITIES

The Russell Group represents 24 leading UK universities which are 'committed to maintaining the very best research, an outstanding teaching and learning experience and unrivalled links with business and the public sector':

University of Birmingham, University of Bristol, University of Cambridge, Cardiff University, Durham University, University of Edinburgh, University of Exeter, University of Glasgow, Imperial College London, King's College London, University of Leeds, University of Liverpool, London School of Economics & Political Science, University of Manchester, Newcastle University, University of Nottingham, University of Oxford, Queen Mary University of London, Queen's University Belfast, University of Sheffield, University of Southampton, University College London, University of Warwick, University of York.

ACRONYMS

DfE	Department for Education
SFR	Statistical First Release
KS1-5	Key Stage 1-5
OFSTED	Office for Standards in Education
CiC	Child(ren) in care, Looked-after child(ren)
FSM	(Pupils eligible for) Free School Meals
FSM6	Pupils eligible for Free School meals anytime in the last 6 years
SEN	Special Educational Needs
SEN-EHC	SEN pupils with Education Healthcare Plan (previously statemented pupils) Pupils with statutory assessment of severe and complex needs
NOE/NOR	Number of entries/Number on Roll
ALPS	A Level Performance System
EYFS	Early Years Foundation Stage
LA	Local Authority
SUPP	Information suppressed (by DfE) because the underlying numbers are too small
Facilitating Subjects	The A level subjects most commonly required by top universities: Mathematics and Further Mathematics; English Literature; Physics; Biology; Chemistry; Geography; History; Languages (modern and classic).
TA	Teacher Assessment
PRU	Pupil Referral Unit
EPAS	Educational Performance Analysis System
KEYPAS	Key Stage Performance Analysis System
NOVA	Replacement for EPAS system

EXECUTIVE SUMMARY

SUMMARY OF KEY DATA

1. School Ofsted Inspections

- 1.1 The number of RBWM schools given an Ofsted judgement of good or outstanding has increased in the 2021/22 academic year to 97% (from 94%) while nationally it has increased from 86% to 88%.
- 1.2 96% of primary schools and all secondary schools are rated good or outstanding (higher than the secondary national figure of 78%).

2. Attainment and progress

- 2.1 These are the first attainment statistics since 2019, after assessments and exams were cancelled in 2020 and 2021 due to the pandemic. These pupils experienced disruption to their learning and caution should be exercised when comparing to previous years. There has been a marked fall in national and RBWM results since the pandemic for primary key stage assessments. The summer GCSE and A levels saw adaptations made to the exams (including advance information) and the approach to grading. Grades awarded were a midpoint between the 2019 exams and the higher teacher assessment grades awarded in 2021.
- 2.2 Standards in RBWM for 2021/22 were above national at Early Years and for all Key Stages except for phonics and some measures at Key Stage 5:
 - At Early Years Foundation Stage 67% of children in RBWM attained “a good level of development”. It places the Royal Borough as joint 42nd LA in England.
 - 74% of Year 1 children reached the required standard in the phonic screening test. This was a decrease on the prepandemic standard and placed RBWM just below the national result of 75%. (Section 3.2)
 - Children at the end of Key Stage 1, age 7, achieve well. There continues to be an above average performance at KS1 in the core subjects of Reading (69%), Writing (59%) and Maths (71%), with RBWM remaining above national results by approximately two percentage points in each case. This placed RBWM joint 37th, 48th and 24th respectively. (Section 3.3)
 - Children at the end of Key Stage 2, aged 11, achieve well. There continues to be an above average performance at KS2 in the combined core subjects of Reading Writing and Maths (63%), with RBWM remaining above the national result by approximately four percentage points. This placed RBWM joint 27th in the country. (Section 3.5)
 - In 2022, Pupils in RBWM have made above average progress at KS2 compared to national in Reading, while progress in Writing and Maths, was in line with the national.

- At Key Stage 4, age 16, the percentage of pupils attaining a strong pass (i.e., 5 or higher) in both English and Mathematics GCSE was 55%, well above the national average of 50% for state schools. The LA was 35th on this measure. (Section 4.4)
- On the Progress 8 measure, RBWM achieved +0.06 in 2022, Due to the uneven impact of the pandemic the DfE recommends not making any direct comparisons with data between schools or with previous years.
- At Key Stage 5, age 18, the average point score per A level student in their three best subjects, expressed as a grade was B-. This is the just below the state funded national average of B. The Borough ranked 59th on this measure (Section 5.2 Table 5a)
- The proportion of RBWM A level students achieving grades AAB or better, including two or more facilitating subjects was 19.9%, just below the 20.6% national figure for state-funded schools/colleges. (Section 5.3)

3. Performance of pupil groups

- 3.1 At Key Stage 2, the proportion of pupils achieving ‘expected standard’ in the headline measure of reading, writing and maths combined at Key Stage 2 is above national overall, but below national for some vulnerable sub-groups including FSM and Disadvantaged. (Section 6.2)
- 3.2 At Key Stage 4, Progress 8 results for the Royal Borough is above average national progress ranking for all pupils group except Asian pupils, Black pupils and pupils who have an EHCP. However, for pupils in two of these groups (Asian and black the actual Progress 8 score was positive – i.e. these pupils made more progress than the average for all pupils with the same prior attainment (Section 6.3)
- 3.3 FSM pupils underperform at each key-stage compared to non-FSM pupils in RBWM, statistical neighbours and nationally every year from 2016 to 2019. (Table 6d). FSM pupils have been disproportionately affected by the pandemic.
- 3.4 With ten or fewer children in care for each Key Stage, most published data will suppress RBWM figures and hence comparisons with national figures, when available, will be very difficult to assess. Whilst based on a very small cohort, we should aim to raise performance at all Key Stages. (Section 6 Table 6g)

4. Pupil absence

RBWM absences for primary for 2020/21 were 3.1% (18.3% including Covid absences) and for secondary 4.9% (22.0% including Covid absences). Corresponding national figures for 2020/21 were 3.6% (21.3% including Covid absences) for primary and 5.5% (25.0% including Covid absences) for secondary (Section 7.1).

5. Pupil exclusions

The number of permanent exclusions in RBWM has fallen in the first Covid academic year 2020/21 to 18 pupils (0.08% of total pupils). The latest national comparisons are for 2019/20, when 5 students in every 10,000 (0.05%) were excluded. (Section 8.2 Table 8a)

6. Pupil destinations and not in education employment or training (2020/21)

6.1 The analysis of pupil destinations shows:

6.2 At the end of Key Stage 4, 95% of RBWM students went on to, or remained in, education or employment, similar to the national level of 94% (Section 9.1).

6.3 At the end of Key Stage 5, 66% of RBWM school pupils progressed to UK Higher Education Institutions. (Section 9 Table 9c)

6.4 The average number of young people who were known to be not in education employment or training (NEET) during the 3 months to August 2022 was 20; this represents 0.6% of the cohort. The % unknown is 9.1 which has come down from 19.7 in the 2017 but is two percentage points above the national average for the same period and places RBWM in the bottom quintile. (Section 10.5)

SECTION 1 - SCHOOL OFSTED INSPECTIONS

ALL SCHOOLS

- 1.1 In 2021/22 Ofsted fully restarted all types of inspection. Ofsted resumed routine inspections of all outstanding schools and increased the proportion of good schools that receive a graded inspection. This means that the length of time since each school's last full graded inspection will gradually decrease. In the academic year 2021/22, ten Royal Borough schools were inspected by Ofsted; these consisted of three first schools, four primary schools, one junior school, one middle school, and one secondary age school.
- 1.2 The number of RBWM schools given an Ofsted judgement of good or better has increased in the 2021/22 academic year to 97% (from 94%) while nationally it increased from 86% to 88%.

Table 1a School Ofsted Ratings 2021/22

NURSERY SCHOOLS

- 1.3 No nursery schools have been inspected.

PRIMARY AGE SCHOOLS

- 1.4 Overall, 96% of RBWM primaries were rated good or outstanding at the end of academic year 2021/22.
- 1.5 Eight RBWM primary age schools were inspected in the academic year 2021/22, of which two improved their rating to good, five remained the same and one decreased.

SECONDARY AGE SCHOOLS (including middle schools for Ofsted purposes)

- 1.6 All RBWM secondary schools were rated good or outstanding at the end of the academic year 2021/22. RBWM is well above the national figure of 80% at the end of the academic year.
- 1.7 Two RBWM secondary age schools were inspected in the academic year 2021/22. One maintained its Good rating, while one increased its rating to Good.

OFSTED CHARTS

- 1.8 The Ofsted current ratings – RBWM schools (Data Pack Figure 1a) shows the schools and their ratings as at 31.08.22.
- 1.9 The Ofsted status table (Data Pack Figure 1b) shows percentage of schools by category and type for the academic year 2021/22.
- 1.10 Data Pack Figure 1c is the same as Figure 1a but gives the latest information as at 14/02/20. In the academic year 2022/2023, one middle school has been inspected to date and it remained good.

SECTION 2 - OVERALL EDUCATIONAL ATTAINMENT

SUMMARY

- 2.1 This year saw the return of the summer exams and assessments after they had been cancelled in 2020 and 2021 due to the impact of the COVID-19 pandemic. Comparisons over time and between LAs should be treated with caution as the pandemic had an uneven impact. The Royal Borough of Windsor and Maidenhead is a high achieving local authority for educational attainment.
- 2.2 Chart 2a shows that pupils outperformed national at all national assessment stages except for phonics and some KS5 measures. The figures by the RBWM blocks give our rankings out of the 150 LAs which have educational data.

Chart 2a

Source DfE LAIT tool 2022

Data Pack Figure 2a summarises Educational Attainment by Key Stage and School. It also includes the Ofsted rating as at 31 August 2022.

Section 3 - Primary attainment and progress

This section summarises the attainment of Borough pupils in primary education for each national curriculum assessment stage. These are the first primary attainment statistics since 2019, after assessments were cancelled in 2020 and 2021 due to the pandemic.

Early Years

- 3.1 These statistics report on teacher assessments of children's development at the end of the early years foundation stage (EYFS), specifically the end of the academic year in which a child turns 5. This is typically the summer term of reception year. The assessment framework, or EYFS profile, consists of 17 early learning goals (ELGs) across 7 areas of learning. In 2021/22 EYFS reforms were introduced in September 2021. As part of those reforms, the EYFS profile was significantly revised. **It is therefore not possible to directly compare 2021/22 assessment outcomes with earlier years.** It is also the first release since the publication of the 2018/19 statistics, as the 2019/20 and 2020/21 data collections were cancelled due to coronavirus. Children have been deemed to have reached a good level of development (GLD) in the new profile if they achieve at least the expected level in the ELGs in the prime areas of learning (personal, social and emotional development; physical development; and communication and language) and in the specific areas of mathematics and literacy.
- DFE statistics for the Early Years Foundation Stage (EYFS) show the proportion of pupils attaining the DFE's definition of 'a good level of development' in RBWM for 2022 was 67%.
 - The attainment of pupils in the EYFS this year outperformed pupils nationally by two percentage points (67 v 65).
 - This result placed us joint 42nd in the LA rankings for England.
 - Pupils may be aged anything between still 4 and nearly 6 when assessed at the end of the reception year. The differing age of pupils can have a marked effect on their level of development.

Phonics

- 3.2 In 2012, the government introduced a new statutory phonics screening check for all children in Year 1. The purpose of the check is 'to confirm whether each child has learnt phonic decoding to an age-appropriate standard'. The test is repeated in Year 2 for those that did not meet the required standard in Year 1.
- In RBWM for 2022, 74% of pupils reached the required standard in phonic decoding, which was just below the national result of 75% and placed us 99th. Nationally the number of pupils meeting the standard has decreased by seven percentage points since 2019 and for RBWM it has fallen by nine percentage points.
 - The RBWM result for those gaining the required standard in phonic decoding by the end of year 2 was 88% (down from 93% in 2019), whilst the national average was 87% (previously 91%).

Key Stage 1 (KS1)

3.3 KS1 pupils are those aged 5 – 7 in years 1 and 2. The judgement of expected standard or greater depth is arrived at through a combination of reading, maths and grammar, punctuation and spelling tests and the teacher’s own assessment of how well the child is operating. These are the first Key Stage 1 assessments since 2019 after assessments were cancelled in 2020 and 2021 due to the pandemic. There has been a marked fall in national and RBWM results since the pandemic

- There continues to be an above average performance at KS1 in the core subjects of Reading - 69% vs National 67% (2019 was 79% vs 75%), Writing – 59% vs National 58% (2019 was 71% vs 69%) and Maths, where 71% vs National 68% (2019 was 80% vs 76%). RBWM remained above national results by an average of two percentage points but nationally and at Borough level results decreased by over eight percentage points. This placed RBWM joint 37th, joint 48th and joint 24th respectively.
- Looking at those pupils achieving higher than the expected standard, RBWM is a top quartile local authority nationally, being placed joint 21st (22%), joint 29th (10%) and joint 30th (18%) in Reading, Writing and Maths respectively

Chart 3a - Percentage of pupils attaining the expected standard or above in KS1 Reading

3.4 KS1 Writing

Chart 3b - Percentage of pupils attaining the expected standard or above in KS1 Writing

KS1 Mathematics

Chart 3c - Percentage of pupils attaining the expected standard or above in KS1 Maths

Key Stage 2 (KS2)

- 3.5 KS2 pupils are ages 7 – 11 in Years 3 - 6. These are the first key stage 2 attainment statistics since 2019, after assessments were cancelled in 2020 and 2021 due to the pandemic. These pupils experienced disruption to their learning during the pandemic, particularly at the end of year 4 and in year 5. Attainment in reading, writing and maths has decreased compared to 2019 both nationally and locally.

Even with the pandemic, there continues to be an above average performance at KS2 in the combined core subjects of reading writing and maths (63%), with RBWM above the national result by approximately four percentage points. This placed RBWM joint 27th in the country and means that we are top 20% attaining authority (see Chart 3e below).

The percentage of pupils achieving above the expected standard in reading, writing and maths was only 7% nationally. RBWM achieved 12%, placing the Royal Borough equal 10th nationally

KS2 Reading Writing and Mathematics

Chart 3d - Percentage of pupils attaining the expected standard or better at KS2 in Reading, Writing and Maths combined

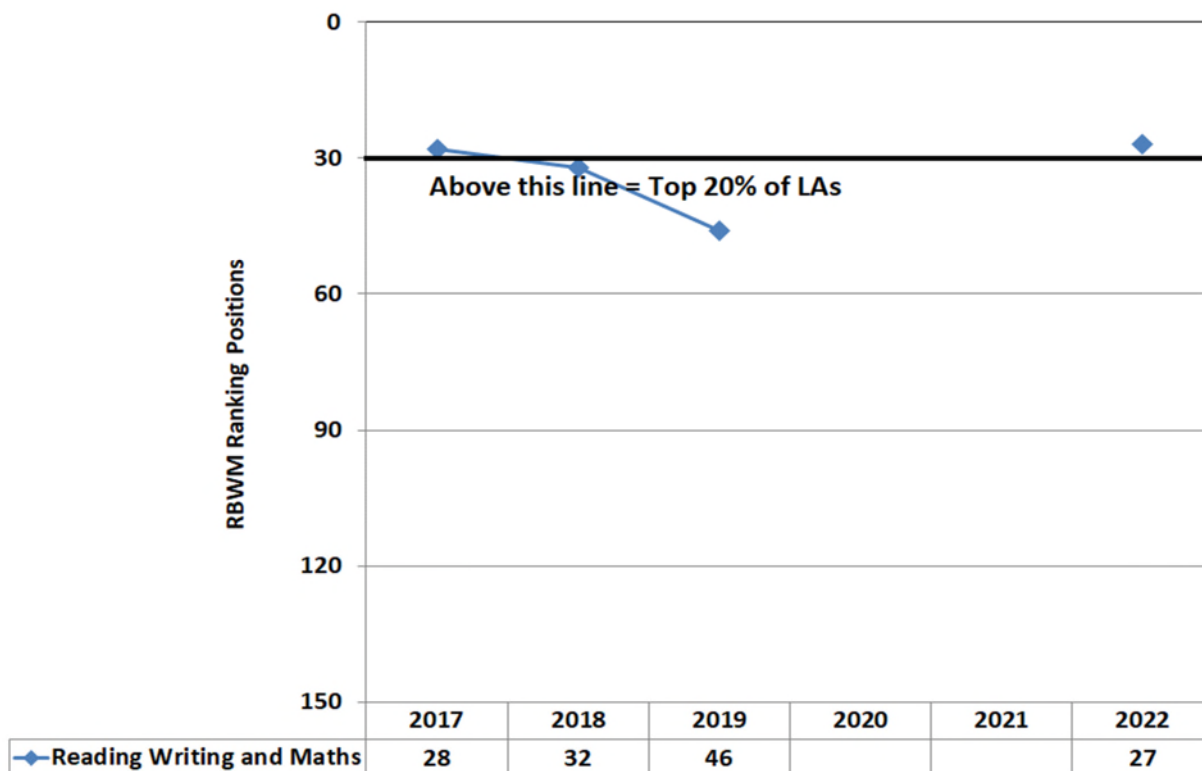

Chart 3e – KS2 Attainment rankings for Reading, Writing and Maths combined measure (out of 150 Local Authorities)

KS1- 2 Progress

- 3.6** Each child’s exam mark is given a scaled score and these are compared with the average scaled score for their own KS1 prior attainment group. If a child has performed better than their group’s average, they will gain a POSITIVE score – if they do less well than the average, they gain a NEGATIVE score.

The national average rate of progress is deemed to be zero and therefore a positive score indicates that the pupils concerned have made better progress than the national average. Typically, most schools and almost all LAs will score between +5 and -5 in each of the 3 main subjects.

The Confidence Interval measures how much variation there could have been to the result on another occasion. If, when the CI is both subtracted and added, the progress range remains greater than zero, the score is deemed to be statistically significantly HIGHER than the national. However, if, when the CI is both subtracted and added, the progress range remains less than zero, the score is deemed to be statistically significantly LOWER than the national.

Therefore, for 2022, in writing and maths RBWM has made similar progress to national and significantly higher progress in reading (See Table 3a below).

Table 3a - KS1 to KS2 Progress

Pupils progress score vs national average progress	Reading	Writing	Maths

Chart 3f – KS2 Progress measure rankings for Reading, Writing and Maths 2016 – 2019 (out of 150 LAs)

Primary Progress by School

Table with columns: School Name, OFSTED Inspection as at 01.06.22, 2022 NOR, no K1 data, and three groups of PROVISIONAL scores (2018, 2019, 2022) for Progress Scaled Scores, categorized by subject (Reading, Writing, Maths).

SOURCES: 2018 & 2019 Progress Figures from DFE. 2022 Provisional from ASP

NOTE: Progress from KS1 to KS2 is measured by comparing the Scaled Scores of every pupil according to their KS1 Grouping's Average KS2 Scaled Score. Scaled Scores are derived from pupils' actual marks in the KS2 tests. Each School's Progress Score is an average of its pupils' positive and negative progress scores. The LOWER and UPPER LIMITS indicate what the school's progress score could have been on another day. Schools with Progress Scores of less than -5 in reading and maths and -7 in writing are below the Floor Standards set by the DFE.

KEY TO 2018 Progress Measure and KEY TO 2019 Progress Measure. Legend for color-coded progress scores: Green (Top 10%), Yellow (Top 20%), Orange (middle 64%), Red (Bottom 16%), Dark Red (Bottom 10%).

SECTION 4 - SECONDARY ATTAINMENT AND PROGRESS

KEY STAGE 4 (KS4) – GCSEs and equivalent

- 4.1 KS4 pupils are ages 14 – 16 in Years 10 and 11. At the end of this Key Stage pupils sit GCSE and vocational examinations.
- 4.2 This academic year saw the return of the summer exam series, after they had been cancelled in 2020 and 2021 due to the impact of the COVID-19 pandemic, where alternative processes were set up to award grades (centre assessment grades, known as CAGs, and teacher assessed grades, known as TAGs). As part of the transition back to the summer exam series adaptations were made to the exams (including advance information) and the approach to grading for 2022 exams broadly reflected a midpoint between results in 2019 and 2021.
- The KS4 performance measures reported for the 2021/22 academic year have been affected by the DfE's commitment not to include results from qualifications achieved between January 2020 and August 2021 in future performance measures. The methodology has been adjusted and designed to minimise the impact of gaps in data for schools and colleges. Given the unprecedented change in the way GCSE results were awarded in the summers of 2020 and 2021, as well as the changes to grade boundaries and methods of assessment for 2021/22, caution needs to be exercised when considering comparisons over time, as they may not reflect changes in pupil performance alone.
- 4.3 The top-line attainment measures for KS4 are
- the percentage of pupils achieving a grade 5 or above (strong pass) in English (language or literature) and mathematics.
 - the percentage of pupils entering the English Baccalaureate, which is English and mathematics, two sciences, a humanity (specifically history or geography) and a language.
 - The Ebacc average point score measure (APS) across the five pillars of the Ebacc using the pupil's best grades. This ensures the attainment of all pupils is recognised, not just those at particular grade boundaries, encouraging schools to enter pupils of all abilities, and support them to achieve their full potential.
 - the Attainment 8 measure, which looks at attainment across 8 subjects including English and Maths (both double counted), three Ebacc subjects and 3 other subjects (which can include additional Ebacc subjects or approved non-GCSEs).
 - The Progress 8 which measures progress from KS2

English and Maths GCSE

- 4.4 Overall 55% of pupils in Windsor and Maidenhead achieved English and Maths GCSE at grade 5 or above. State funded schools nationally achieved 49.6%.
- The Royal Borough is 35th LA on this measure.
 - The percentage of Royal Borough pupils attaining English and Maths GCSE at grade 4 or above is 76.2%. This is well above the state funded national figure of 68.8%.

Attainment 8

- 4.5 Attainment 8 is based on students' attainment measured across eight subjects: English and Maths (both double-weighted), three other English Baccalaureate subjects and three further approved subjects which can include vocational qualifications. The numerical grades are used for reformed GCSEs. See Appendix A for a detailed description of how this is calculated for other qualifications.
- 4.6 The average Attainment 8 score across RBWM was 51.1. This compares to 48.7 for state-schools nationally.

English Baccalaureate

- 4.7 The English Baccalaureate (EBacc) requires pupils to enter English, maths, two sciences, a humanity (specifically history or geography) and a language. The EBacc average point score measure (APS) across the five pillars of the Ebacc using the pupils best 9 – 1 scores.
- 45.4% of RBWM pupils were entered for all elements of the Ebacc in 2022, above the national figure of 38.8%.
 - The England state-maintained APS for the Ebacc was 4.27, and for RBWM 4.57. RBWM was ranked 36th best LA on this measure.

KEY STAGE 2 - 4 PROGRESS

- 4.8 The measure for progress is Progress 8. See Appendix A for a detailed explanation of how this is calculated.
- 4.9 A value of 0.0 means that progress is in-line with expectations given the starting points of the cohort. A score of -0.5 or below means the school is deemed 'below

the floor', exposing them to challenges and interventions from local or national government. A score of +1.0 or above exempts the school from an OFSTED inspection for a year and means that, on average, every pupil in the school got one grade higher in each of the Attainment 8 subjects than the national average for pupils with the same prior attainment.

- RBWM had an overall Progress 8 score of +0.06. This means that on average RBWM pupils attained half a grade higher in 1 subject than pupils with equivalent prior attainment nationally. The confidence interval is +/- 0.07, meaning that the Borough's result is better than national and that there is a 95% certainty that the result lies between -0.02 and +0.13.

RANKINGS

4.10 Data Pack Chart 4a shows RBWM's ranking on several key attainment measures against other LAs. There are approximately 150 LAs with recorded data.

Chart 4a Attainment Rankings

4.11 RBWM's ranking compared to other Local Authorities has fallen from the top quintile to the second quintile during the covid pandemic.

4.12 Data Pack Chart 4b shows RBWM's ranking on the top-line progress measure against other LAs. There was no progress measure calculation for 2020 and 2021.

Chart 4b Progress Rankings

4.13 The Royal Borough's ranking for Progress 8 measure has fallen this year from 21st in 2018 to 48th. The Royal Borough's ranking for Progress 8 is in the second quintile of LAs of Local Authorities.

SECONDARY SCHOOL PERFORMANCE TABLES

4.14 Data Pack Figure 4a shows secondary attainment by school.

- Due to the uneven impact of the pandemic on 2021/22 school and college performance data the DfE recommends not making any direct comparisons with data from previous years or between schools.

Data Pack Figure 4a

Key Stage 4 School Performance Table Summary 2022

SECTION 5 – PROVISIONAL POST 16 ATTAINMENT

- 5.1. This academic year saw the return of the summer exam series, after they had been cancelled in 2020 and 2021 due to the impact of the COVID-19 pandemic, where alternative processes were set up to award grades. As part of the transition back to the summer exam series adaptations were made to the exams (including advance information) and the approach to grading for 2022 exams broadly reflected a midpoint between results in 2019 and 2021.
- 5.2. Average point score (APS) per entry for all national level 3 cohorts is lower compared to 2020/21. A level, -2.8 ppts; applied general, -0.9 ppts; tech level, - 1.2 ppts. However, attainment remains higher compared to 2018/19: A level, +5.0ppts; applied general, +3.5 ppts; tech level +2.2 ppts. [An increase of 10 points is equivalent to an increase in one full grade]. This follows Ofqual's announcement in September 2021 that 2022 will be a transition year where the aim was for exam results to broadly reflect a midway point between 2021 (Teacher assessment grades) and 2019 (the last year all students sat exams).

A LEVEL RESULTS

- 5.3. A significantly higher proportion of RBWM students continue their education in school sixth forms to take A levels than is the case nationally, resulting in more lower-performing students in schools. Attainment comparisons with national school outcomes at A level should be viewed in that context.

Table 5a - Key measures: A level cohort

	A level students								
	Number of students	APS per entry	APS per entry as a grade	Number of students entered for one or more A level or applied A level	APS per entry, best 3	APS per entry, best 3 as a grade	Percentage of students achieving 3 A*-A grades or better at A level	Percentage of students achieving grades AAB or better at A level	Percentage of students achieving grades AAB or better at A level, of which at least two are in facilitating subjects
	A level students			Students entered for at least 1 A level or applied A level					
England	284614	38.77	B	216512	39.09	B	20.0	34.1	23.0
England State-funded schools	249906	37.77	B	187928	38.14	B-	22.7	31.0	20.6
Windsor and Maidenhead	835	37.31	B-	680	38.10	B-	16.3	29.6	19.9

- 5.4. The average point score per A level entry for a student's best 3 A Levels expressed as a grade for the Borough was B-. The LA ranks 59th on this measure. The associated point score of 38.1 is close to the state funded national figure of 39.09.

- The proportion of RBWM A level students achieving grades AAB or better, including two or more facilitating subjects was 19.9%, just below the national state funded figure of 20.6%. RBWM ranks 60th on this measure.
- School level performance table data has not been published during the transitional year.

VOCATIONAL RESULTS

- 5.5. Attainment for students studying applied general and technical qualifications are reported separately. Applied general qualifications are level 3 (advanced) qualifications that provide broad study of a vocational subject area e.g. a level 3 certificate/diploma in business or applied science. Tech level qualifications are level 3 qualifications for students wishing to specialise in a technical occupation e.g. a level 3 diploma in construction or bricklaying

5.6. Table 5b - Key measures: Vocational cohort

	Tech level students			Applied General students		
	Students entered for at least 1 tech level qualification			Students entered for at least 1 Applied General level qualification		
	Number of students	APS per entry	APS per entry as a grade	Number of students	APS per entry	APS per entry as a grade
England	27,074	30.61	Dist-	118432	31.88	Dist-
England State-funded Schools	26,887	30.59	Dist-	116234	31.81	Dist-
Windsor and Maidenhead	176	28.63	Merit+	255	30.65	Dist-

- The average point score per technical qualification expressed as a grade for the Borough was Merit+, below the national state funded school average of Dist-
- The average point score per applied general qualification expressed as a grade for the Borough was Dist-, equal to the national state funded school average.

SECTION 6 - PERFORMANCE OF PUPIL GROUPS

KEY

6.1 The following key is used in this section:

	Top Quintile
	Second Quintile
	Middle Quintile
	Fourth Quintile
	Bottom Quintile

There are 152 Local Authorities, including City of London and Isles of Scilly. Data for these two LAs is omitted from many DfE tables, as numbers are too small to be reported.

Therefore, typically the Top Quintile represents the Top 30 Local Authorities and the Bottom Quintile the lowest 30 Local authorities.

KEY STAGE 2

Table 6a Key Stage 2 : Reading+Writing+Maths

Source: LAIT/DFE SFR

6.2 Table 6a above has attainment and rankings for Key Stage 2.

- These statistics cover the attainment of year 6 pupils who took assessments in summer 2022. These pupils experienced disruption to their learning during the pandemic, particularly at the end of year 4 and in year 5.
- The proportion of pupils achieving the 'expected standard' in the headline measure of Reading & Writing & Maths at Key Stage 2 is in the top quintile of LAs nationally.
- There continues to be a marked gap between the progress of boys and girls both nationally and in the Royal Borough. However, the gap is similar in both groups, resulting in similar rankings.
- RBWM pupil groups that are well below national are the FSM and disadvantaged cohorts. Disadvantaged pupils are defined as those registered for free school meals at any point in the last six years, children looked after by a local authority or have left local authority care in England and Wales through adoption, a special guardianship order, a residence order or a child arrangements order. At LA and national level, the disruption due to learning during the covid pandemic has had a greater impact on disadvantaged pupils. The disadvantaged gap index nationally is at its highest level since 2012.
- The Asian subgroup is ranked in the fourth quintile. In the Borough this group is made up of the Indian group who outperform national and the Pakistani group who perform less well both nationally and in RBWM.
- When considering each group's performance, it must be recognised that pupils do not always occupy only a single category and that those who appear in two or more categories will impact more on the results of smaller authorities such as RBWM. For example, pupils who have Special Educational Needs but who are also eligible for Free School Meals.

•

KEY STAGE 4

6.3 Table 6b below has progress (Progress 8) and rankings for Key Stage 4.

- Given the unprecedented change in the way GCSE results were awarded in the summers of 2020 and 2021, as well as the changes to grade boundaries and methods of assessment for 2021/22, caution needs to be applied when considering comparisons over time, as they may not reflect changes in pupil performance alone.
- The Progress 8 result for the Royal Borough is above average national progress ranking for all pupils group except Asian pupils, Black pupils and pupils who have an EHCP. However, for pupils in two of these groups (Asian and black the actual Progress 8 score was positive – i.e. these pupils made more progress than the average for all pupils with the same prior attainment.

Table 6b Key Stage 4: Progress 8

Group	Pupils 2022					LA Ranking

Source: DfE LAIT/KS4 SFR

- There continues to be a marked gap between the progress of boys and girls both nationally and in the Royal Borough. However, the gap is similar in both groups, resulting in similar rankings.
- Progress for pupils with Special Educational needs (SEN) and SEN with an Educational Healthcare Plan (EHC) or statement is below that for pupils without SEN. However, in all SEN groups, the RBWM groups make similar progress to their national counterparts.
- FSM and Disadvantaged pupils made less progress than their non-FSM/non-Disadvantaged counterparts. However, the LA rankings for disadvantaged groups were above average.
- The Progress 8 for the Asian pupils was brought down by the relatively poor results of the Pakistani subgroup. Results for the other main Asian groups (Indian, Bangladeshi and other Pakistani) were comparable to the high Progress 8 results achieved nationally.

ACHIEVEMENT BY ETHNICITY

6.4 Information on performance by ethnic main groups for all Key Stages is given in Data Pack Table 6c (at the end of this section).

- The RBWM Asian group is worth looking into since it holds two sub-groups – Indian and Pakistani - who perform quite differently. The Indian subgroup outperform national while the Pakistani subgroup underperform against national and at borough level.

ACHIEVEMENT BY DISADVANTAGED PUPILS

- 6.5 Data comes from SFRs. The Disadvantaged cohort is shown where published (Key Stage 2 and Key Stage 4); for other Key Stages FSM eligibility is used as it is published at an LA level allowing comparisons to be made.
- 6.6 Disadvantaged pupils attract Pupil Premium (additional funding given to schools so that they can support their disadvantaged pupils and close the attainment gap between them and their peers).
- 6.7 Disadvantaged pupils comprise looked-after children, those eligible for Free School Meals (FSM) and those who had previously been eligible for Free School Meals any time in the preceding 6 years ('Ever 6 FSM' or FSM6).
- At Key Stage 2, the gap between RBWM disadvantaged pupils and other pupils is 25 percentage points, much wider than the National gap of 16 percentage points. Nationally the disadvantage gap has reduced between 2011 and 2018 before remaining at a similar level between 2018 and 2019. The gap has increased in 2022 to the highest level since 2012, suggesting that disruption to learning during the COVID-19 pandemic has had a greater impact on disadvantaged pupils. For RBWM we are in the fourth quintile nationally meaning our disadvantaged pupils have performed below national.
 - At Key Stage 4, RBWM disadvantaged pupils make slightly better progress than national. The disadvantaged gap nationally is at its highest level since 2012. This may reflect the difficult circumstances that many pupils will have experienced over the last few academic years which saw various restrictions put in place in response to the COVID-19 pandemic (e.g., periods of lockdowns and tiers) that resulted in restricted attendance to schools and periods of home learning.

FREE SCHOOL MEALS (FSM)

- 6.8 All data comes from the DfE SFRs. FSM data relates to pupils eligible for FSM at the end of the relevant Key Stage. This data does not include FSM6 (pupils entitled to Free School Meals at some point in the last 6 years). Using FSM-only data enables like-for-like gap comparisons to be made over time. The numbers of FSM pupils in RBWM are relatively small and figures for that group can fluctuate significantly from year to year as a result of other factors.

All data is FSM Eligibility (not FSM6) in line with DfE historical published SFRs

6.9 The FSM data in Table 6d shows that:

- For Foundation Stage as well as Reading and Writing and at KS1 and KS4, the RBWM non-FSM/FSM gaps have increased when compared to 2019. For KS2, however, the RBWM non-FSM/FSM gap has decreased when compared to 2019.
- FSM pupils underperform compared to non-FSM pupils in RBWM, Statistical Neighbours and Nationally in each year from 2017 to 2022. They have been disproportionately affected by the Covid pandemic

- Chart 6a shows how RBWM ranks for the FSM group compared to other LAs. RBWM ranks in the bottom quintile for all primary key stages. It is in the middle of the table for KS4.

Chart 6a **FSM/Disadvantaged attainment and ranking by Key Stage**

CHILDREN IN CARE (CiC) ACHIEVEMENT

6.11 While data for Children in care is published by DfE at Local Authority level (excluding Key Stage 5 results), in the case of RBWM, the data is suppressed because of the small numbers of pupils. The RBWM CiC results have therefore been obtained directly from the RBWM virtual school.

6.12 The data in columns 1 and 3 of Table 6g relates to children who have been in the care of the Royal Borough for 12 months or more and were in RBWM schools at the time of the relevant Key Stage testing. The data relates to pupils in main stream schools, with the figures in brackets including those at the Special school. Italics indicate that previous years cannot be directly compared due to change in top-line measure for that key stage or significant change in methodology.

SECTION 7 - ABSENCE DATA

BACKGROUND AND SUMMARY

- 7.1 Absence data for the Borough, Statistical Neighbours and National level data is taken from the DfE SFR and is summarised in Table 7a. It is for the 2020/21 year which is the latest data set available. There was no data set for 2019/20 due to the pandemic. For 2020/21 data is given on pupil absences as well as where a pupil could not attend school due to COVID-19. This includes pupils who were ineligible to attend school during the lockdown period because attendance was restricted. This category was also used to record where pupils did not attend because they: were self-isolating because of COVID-19, were advised to shield, were quarantining after returning from abroad, or were in class bubbles advised to isolate. Schools were advised to record pupils with a confirmed case of COVID-19 as absent due to illness. The Covid absence figures are given in brackets for the year 2020/21 after the absence figure.

Table 7a - Overall and persistent absence

	Overall Absence (%)			% Persistent absentees		
	2017/8	2018/9	2020/1	2017/8	2018/9	2020/1
England Primary	4.2	3.9	3.6 (21.3)	8.7	8.3	8.8
Statistical Neighbours Primary	3.9	3.6	3.0 (17.6)	7.1	6.6	6.7
RBWM Primary	3.8	3.8	3.1 (18.3)	6.6	7.1	6.5
England Secondary	5.5	5.5	5.5 (25.0)	13.9	13.6	14.8
Statistical Neighbours Secondary	5.3	5.2	4.9 (23.7)	12.7	12.0	12.5
RBWM Secondary	5.0	5.0	4.9 (22.0)	10.9	11.0	12.6

Source DfE SFR

* Pupil enrolments missing 10 percent or more of their own possible sessions (due to authorised or unauthorised absence) are classified as persistent absentees.

OVERALL ABSENCE

- 7.2 Overall absence is measured by the % of half day sessions missed. For most of the 2021 Spring term, only children of critical workers and vulnerable pupils could attend school during the period of lockdown from 4 January 2021. Restrictions were lifted on attendance from 8 March 2021 for all other pupils, four school weeks prior to the end of term. Due to the disruption faced during the spring term caution should be taken when comparing data to previous years.
- RBWM attendance continues to be better than national.

- RBWM Primary school attendance level has increased in line with national, resulting in a small ranking change from equal 24th LA in 2019 to equal 18th LA in 2021.
- Secondary school attendance level increased slightly compared to 2018/19. RBWM attendance ranking has increased from equal 28th LA in 2019 to equal 21st LA in 2021.

PERSISTENT ABSENCE

7.3 Pupil enrolments missing 10 percent or more of their own possible sessions (due to authorised or unauthorised absence) are classified as persistent absentees.

- RBWM figures continue to be better than national and are in line with statistical neighbours.
- Primary school persistent absence levels rank 20th LA.
- RBWM's Secondary school persistent absence ranking is 21st LA this year.

ABSENCE DATA FOR 2021/22

7.4 The DfE have published national absence data for the autumn and spring terms of the 2021/22 academic year (but not yet LA or Statistical Neighbours data).

- Absence rate in the autumn and spring term combined was 7.4% an increase, having been consistently around 5% in recent years. The majority of the absence in previous years was due to illness but in 2021/22 it includes illness due to covid and is higher.

SCHOOL LEVEL ABSENCE DATA

7.5 The most recently published school level absence data is for 2018/19 and is from ASP. Pupil enrolments missing 10 percent or more of their own possible sessions (due to authorised or unauthorised absence) are classified as persistent absentees. No data for 2020/21 has been published at a school level in accordance with the DFE accountability measures and the impact of the Covid pandemic.

Table 7b – Two term Absence in RBWM schools (Infant/Junior/Primary)

School name	Overall absence (%)			% Persistent absentees (10%+)		
	2016/7	2017/8	2018/9	2016/7	2017/8	2018/9

SECTION 8 - EXCLUSIONS DATA

BACKGROUND

8.1 National comparisons relate to 2020/21 academic year and come from the DfE SFR. National data for 2021/22 is expected to be published in August 2023.

PERMANENT EXCLUSIONS

8.2 The table gives RBWM exclusions over the last five years.

Table 8a - Permanent Exclusions

	RBWM Permanent Exclusions				
	2016/7	2017/8	2018/9	2019/20	2020/21
Number of pupils#	20	15	31	21	18
% of Total pupils	0.09%	0.07%	0.14%	0.09%	0.08%

Source: Exclusions SFR

SFR rounds total pupil numbers to nearest 10 until 2018/9

- The 2020/21/20 academic year was affected by the COVID-19 pandemic. Schools were open to all pupils in the Autumn term, however during the Spring term schools were only open to key worker and vulnerable children from January for the first half term, before all pupils returned during the second half term. During this period online tuition was provided for pupils. Schools were then open to all pupils during the summer term.
- As with 2019/20, while suspensions and permanent exclusions were possible throughout the academic year, covid restrictions will have had an impact on the numbers presented and caution should be taken when comparing across years.
- The number of permanent exclusions in RBWM has decreased to 18 in 2020/21.
- The national exclusion rate in 2019/20 (the latest year for which data is available) was 0.05% (i.e., on average 5 students in every 10,000 were permanently excluded).
- In 2020/21 all RBWM permanent exclusions were in the Secondary phase.

A breakdown of Permanent Exclusions by school and reason code since is shown in Table 8b. Permanent Exclusions in independent schools and OOB schools are shown in italics and are included in the totals. These totals include appeal amendments.

Table 8b - Permanent Exclusions by reason code (from school census)

Academic Year 2016/17		
School	No. of Permanent Exclusions	Reason
Altwood	5	Drugs x4, Other (serious breach of behaviour policy) 1

 PA – Physical Assault
 PP- Physical Assault against pupil
 PAC – Physical Assault on child
 H & S – Health and Safety

PA A&C – Physical Assault on Adult and Child
 WR – Carrying knife
 MT Inappropriate use of social media or online technology
 DA – Drug and Alcohol
 SM – Sexual misconduct

SUSPENSIONS (FTES)

8.3 Suspensions were previously known as 'fixed term exclusions'. The most recent suspension data from the school census is shown in Table 8c for 2020/21. As expected, due to school closures, suspensions are substantially lower than in pre-covid years. Previously suspensions had been increasing in number, largely driven by increases in suspensions in secondary schools and to a lesser extent in primary schools. In 2019/20, decreases were seen across all school types.

Table 8c Suspensions (from school census)

Suspensions 20/21		
	Primary	Secondary
Total number of Fixed Term Exclusions	94	594
Number of Pupils who received FTE's	55	360
Total Number of days of FTE's	146	1142
Total Fixed Term Exclusions	688	
Total number of Pupils who received a FTE	415	
Total number days of FTE	1288	

8.4 The suspension rate in RBWM was 3 (298 suspensions per 10,000 pupils compared to 4.3 nationally).

SECTION 9 - PUPIL DESTINATIONS

KEY STAGE 4 AND KEY STAGE 5 PUPIL DESTINATIONS 2020/21

The pupil destinations for 2020/21 are taken from the Department of Education Statistical First Release.

DESTINATIONS IN THE YEAR AFTER KEY STAGE 4

9.1 Education and employment

The proportion of RBWM students (95%) that went on to, or remained in, education or employment was similar to national (94%) and South East (94%)

9.2 Types of institutions

The proportion of RBWM pupils in school sixth forms (56%) continues to be well above national and South East (38% and 39%).

9.3 Disadvantaged Pupils

The proportion of disadvantaged students at KS4 in sustained education or employment in RBWM was 92%, above South East and national (both 88%).

Table 9a - Destinations in the year after Key Stage 4

Source DfE Performance Tables

DESTINATIONS IN THE YEAR AFTER TAKING A LEVEL/ LEVEL 3 QUALIFICATIONS

9.4 Education and employment

The proportion of students from RBWM (school sixth forms) recorded in sustained education and/or employment in the year after A levels is 89% three percentage points above South East and national. Nationally and locally the sustained destination rate declined in 2020/21 with lower numbers going in to apprenticeships and employment likely due to the disruption caused by the coronavirus pandemic. The increase in the proportion of students progressing to further education is mainly due to a change in the underlying cohort.

9.5 Selective institutions

RBWM has a far higher proportion of pupils in school sixth forms than nationally. National data shows that students at colleges are much less likely to go to selective institutions. The combined figure for schools and colleges shows RBWM has higher percentages than national going to selective institutions.

9.6 Disadvantaged Pupils

The proportion of KS5 students in RBWM schools and colleges who were disadvantaged and were in sustained education or employment/training is 68% just below the national figure. The RBWM disadvantaged cohort at Key Stage 5 is very small, so each student contributes around 1/2% to the figures.

Table 9c - Destinations in the year after Key Stage 5

	Number of students	Overall Education or Employment /Training Destination	% UK HEducation Institution	Activity not Captured in Data

BACKGROUND AND TECHNICAL NOTES

All data from DfE Statistical Release on Destination Measures, published October 2022.

The Key Stage 4 Measure is based on activity at academic age 16 (i.e., the year after the young person took their GCSEs)

The Key Stage 5 Measure is based on activity in the year after the young person took their A Level or other qualifications.

The data relates to young people completing KS4 or KS5 in 2019/20 and identifies their destinations in 2020/21. There is therefore a time-lag before DfE publish this data. To be included in the measure, young people have to show sustained participation in an education or employment destination in all of the first two terms of the year after they completed KS4 or took A level or other qualifications. The first two terms are defined as October to March.

Numbers relate to mainstream and special state-funded schools for KS4 and mainstream schools and colleges for KS5.

In all tables, DfE have applied the following:

- “x” means the data has been suppressed as the school or college has fewer than 6 students in the cohort, or small numbers, 1’s and 2’s in the reporting lines. Results are not shown because of the risk of an individual student being identified.
- All totals have been rounded to the nearest 10.
- Zeros are shown as zeros.
- All remaining breakdowns have been rounded to the nearest 5. This includes cohort numbers.
- Suppression of small numbers is reflected in the associated percentages.

SECTION 10 – YOUNG PEOPLE NOT IN EDUCATION, EMPLOYMENT OR TRAINING (NEET)

NEET DATA

- 10.1 NEET data is held on DfE’s NCCIS (National Client Caseload Information System).
- 10.2 Data relates to young people aged 16-17.
- 10.3 The headline measure combines the LA’s NEET rate with their ‘not known’ rate. DfE believe this gives an accurate and well-rounded impression of how well LAs are fulfilling their duty to track young people and encourage them to participate. In addition some LAs statistics were significantly underestimating the number of young people in their area who were NEET because of the high number of ‘not knows’ in their data (NCCIS website).
- 10.4 Table 10a shows the numbers of RBWM 16–17-year-olds identified as NEET (not in Education, Employment and Training), EET (in Education, Employment and Training) and the number for which the information is unknown from September 2016.

Table 10a Number of 16–17-year-olds NEET and EET in RBWM

10.5 The key findings were as follows:

- The average number of 16–17-year-olds identified as NEET in RBWM was 20 over the 3 months to August 2022.
- The average % NEET for August 2022 was 0.6%. This is the percentage of young people known to be NEET and indicates the minimum proportion of young people that are NEET. This is less than the England average for the same period of 3.0%.
- The percentage unknown was 9.1% for August 2022 up from 3.7% in August 2021. This is higher than the England average of 7.0% for the same period and places Windsor and Maidenhead in the bottom quintile.
- There was a very high Not Known in year 2022 compared to year 2021. This is due to the data gaps in collecting the admissions data from Windsor & Maidenhead schools/colleges. It had a very big impact on Windsor & Maidenhead's performance. No local tracking work took place within the borough, which kept the Not Known constantly high.
- In September 2022 there is an improvement. With the help of the Windsor's Business Support Team in the borough the schools' data has been collected.

Progress 8

How Progress 8 and Attainment 8
measures are calculated

Appendix A

Summary of Progress 8 and Attainment 8

Progress 8 was introduced in 2016 (and 2015 for schools that chose to opt in early). It aims to capture the progress a pupil makes from the end of primary school to the end of secondary school. It is a type of value added measure, which means that pupils' results are compared to the actual achievements of other pupils with similar prior attainment.

The new performance measures are designed to encourage schools to offer a broad and balanced curriculum with a focus on an academic core at key stage 4, and reward schools for the teaching of all their pupils, measuring performance across 8 qualifications. Every increase in every grade a pupil achieves will attract additional points in the performance tables.

Attainment 8 measures the achievement of a pupil across 8 qualifications including mathematics (double weighted) and English (double weighted), 3 further qualifications that count in the English Baccalaureate (EBacc) measure and 3 further qualifications that can be GCSE qualifications (including EBacc subjects) or any other non-GCSE qualifications on the DfE approved list. Each individual grade a pupil achieves is assigned a point score, which is then used to calculate a pupil's Attainment 8 score (see second step below).

How we calculate Progress 8

Progress 8 compares pupils' key stage 4 results to those of other pupils nationally with similar prior attainment.

Our first step is to put all pupils nationally into prior attainment groups based on their **key stage 2** results, so that we have groups of pupils who have similar starting points to each other.

We do this by working out a pupils' average performance at key stage 2 across English and mathematics. Pupils' actual test results in English and maths are converted into points and an average of the points is taken to create an overall point score. Pupils are then allocated into prior attainment groups with other pupils who have the same key stage 2 point scores as them.

Our second step is to work out a pupil's **Attainment 8** score. The points allocated according to grades the pupil achieves for all 8 subjects are added together to give the Attainment 8 score. English and maths point scores are double weighted to signify their importance. The points that pupils are allocated for each grade are in the table below:

Appendix A

GCSE grade	2016 Points	2017 and 2018 Points
G	1.00	1.00
F	2.00	1.50
E	3.00	2.00
D	4.00	3.00
C	5.00	4.00
B	6.00	5.50
A	7.00	7.00
A*	8.00	8.50

In 2017, new GCSE qualifications in English and mathematics, graded 1-9, will be included in performance tables, with others to follow in 2018 and 2019. Points will be allocated to the new GCSEs on a 1-9 point scale corresponding to the new 1 to 9 grades, e.g. a grade 9 will get 9 points in the performance measures.

To minimise change, unreformed GCSEs and all other qualifications will be mapped onto the 1-9 scale from 2017 (with 8.5 being the maximum points available for unreformed GCSEs).

Our third step is to calculate individual pupil's progress 8 score. Progress 8 is calculated for individual pupils solely in order to calculate a school's Progress 8 score. There is no need for schools to share individual Progress 8 scores with their pupils. Schools should continue to focus on which qualifications are most suitable for individual pupils, as the grades pupils achieve will help them reach their goals for the next stage of their education or training.

The calculation is as follows:

- We take the individual pupil's Attainment 8 score (for example 56).
- We compare this to the national average Attainment 8 score for pupils in the same prior attainment group.
- A pupil's progress score is the difference between their actual Attainment 8 result and the average result of those in their prior attainment group.
- If David, for example, achieved an Attainment 8 score of 56 and the average Attainment 8 score for his prior attainment group was 55 - his progress score would be +1.
- We divide +1 by 10 to give an individual pupil's Progress 8 score, which in this example is 0.1.

Our final step is to create a school level progress score. We do this by adding together the Progress 8 scores of all the pupils in year 11 and dividing by the number of pupils in the school.

Appendix A

Interpreting a school's Progress 8 score

Progress 8 scores will be centred around 0, with most schools within the range of -1 to +1.

- A **score of 0** means pupils in this school on average do about **as well** at KS4 as those with similar prior attainment nationally.
- A **positive score** means pupils in this school on average do **better** at KS4 as those with similar prior attainment nationally.
- A **negative score** means pupils in this school on average do **worse** at KS4 as those with similar prior attainment nationally.

A negative score does not mean that pupils did not make any progress; rather it means they made less progress than other pupils nationally with similar starting points.

For example, if a school has a Progress 8 score of -0.25 this would mean that, on average, pupils in this school achieved a quarter of a grade less than other pupils nationally with similar starting points.

Confidence intervals

Progress 8 results are calculated for a school based on a specific cohort of pupils. A school may have been just as effective but have performed differently with a different set of pupils. To account for this natural uncertainty 95% confidence intervals around Progress 8 scores are provided as a proxy for the range of scores within which each school's underlying performance measure can be confidently said to lie.

In addition, the greater the number of students, the smaller the range of the confidence interval. For smaller schools the confidence interval tends to be larger, since fewer pupils are included, and therefore the score could be impacted by performance of an individual pupil more than would be the case in a larger school. We publish the 95% confidence intervals alongside a school's progress scores to reflect this uncertainty and provide context to progress scores of smaller schools.

Confidence intervals are presented as two numbers – the lower and upper limits within which we are 95% confident the performance of a school may lie. If the lower confidence limit is greater than zero it can be interpreted as meaning that the school has achieved greater than average progress compared to pupils with similar starting points nationally. Similarly, if the upper confidence limit is below zero, then the school has made less than average progress. Where a confidence interval overlaps zero, this means that the school's progress score is not significantly different from the national average.
