1. SUMMARY

- 1.1 Following the publication of the main Committee report, supporting information comprising an ecology report, biodiversity metric, biodiversity net gain plan and landscape mitigation plan have been received. These were received on Tuesday 20th June 2023 at 3pm.
- 1.2 The additional information has been submitted too late for assessment by the Planning Officer and Council's Ecologist.
- 1.3 **There is no change to the recommendation in the main report.**

3. ADDITIONAL INFORMATION

- 3.1 The planning case officer has been awaiting the receipt of ecology information since December 2022. At the end of March 2023, the planning case officer was advised that the applicant had commissioned an ecology report, and on 17th May 2023 the case officer was advised that the ecology information would be submitted that same day.

The agent agreed an extension of time until the 30th June 2023 to determine the planning application.

There is no change to the recommendation in the main report.
