

# Royal Borough of Windsor and Maidenhead

## Adult Services priorities for grant applicants

### Priorities for the Services

- Grants should help organisations or individuals to facilitate one or more of the following:
  1. **Support Supporting a healthy population** - Developing community networks
  2. **Prevention and Early Intervention** -Help to navigate care and support services, Promoting independence and wellbeing.
  3. **Enable Residents to Maximise their Capabilities and Life Chances** - Choice and control Valuing and supporting carers
- Example projects & services:
  1. Social activities/opportunities in the community suitable for older people, people with learning disabilities, physical disabilities and mental health issues. Adapting mainstream activities to ensure they are accessible e.g. autism friendly sports events
  2. Targeted information and advice service for people with current or emerging care and support needs. Falls prevention awareness and strength based exercise programmes. Contribution towards initial cost of hiring coaches to improve team Services that promote healthy and active lifestyles.
  3. Self and community advocacy services and training in peer support for adults with care needs, and informal carers. Services that support participation in work, education, training or recreation Services to identify and support the role of carers

Please note:

*The Care Act places clear duties on local authorities to promote 'wellbeing' and to focus on 'prevention' to help people live the most fulfilling lives they can. Meeting these duties underpins our approach to commissioning; by ensuring that funding available is aligned to identified priorities.*

*The Joint Health and Wellbeing Strategy is a plan that aims to improve the health and wellbeing outcomes for all residents and those who come into the Borough for work or other reasons. It focuses on key areas of local health and wellbeing priorities as identified through a range of difference evidence sources. These priorities have been used as a framework to set out areas of prevention and wellbeing that RBWM aim to support.*
