1. DETAILS OF RECOMMENDATIONS

RECOMMENDATION: That Cabinet:

- i. Agrees to adopt the West Street Opportunity Area Supplementary Planning Document.**

2. REASON FOR RECOMMENDATION(S) AND OPTIONS CONSIDERED

- 2.1 West Street Opportunity Area SPD supports and links with Maidenhead Town Centre Area Action Plan (AAP) (Policy 0A2) which was adopted by the Council on 27th September 2011. The SPD incorporates an illustrative Masterplan which sets out the overall aspirations for the development of the site in greater detail.
- 2.2 The site is in multiple ownership, therefore, an adopted SPD will help to guide and encourage comprehensive high quality re-development of this Opportunity Area and improved connectivity between the High Street and Kidwells Park, to be completed in accordance with the overall regeneration vision and objectives. Once adopted the SPD will act as a material consideration in the determination of planning applications within the Opportunity Area.

What does the supplementary planning document do?

- 2.3 The SPD sets out a high level, overall spatial vision for the West Street Opportunity Area and incorporates a Design Framework which aims to proactively guide and promote the comprehensive re-development of this site within Maidenhead Town Centre.

Consultation

- 2.4 The draft SPD was published for a six week period of public consultation between 3 March and 14 April 2016.
- 2.5 The public were notified of the consultation through a range of methods including a press notice in the Maidenhead Advertiser; press release, statutory notices displayed locally; letters and email notifications sent to landowners/occupiers and neighbouring sites; email notification to Partnership for the Rejuvenation of Maidenhead (PRoM) members, individuals, statutory consultees, businesses, Councillors and other organisations. (Please refer to the Consultation Statement in Appendix C of this report.)
- 2.6 Hard copies of the SPD and questionnaires were made available for public inspection at two Council Civic Offices (Maidenhead Town Hall and York House, Windsor) and Maidenhead Library. The draft SPD and questionnaire was also published online on the Council's website for review. There was an opportunity to submit the completed questionnaire and / or make representations by e-mail or post.
- 2.7 In addition, a manned public exhibition was held from 11am – 4pm on Wednesday 23 March in the Nicholson's Centre, Maidenhead Town Centre which was very well attended. The exhibition stand was subsequently made available to view at Maidenhead Town Hall for the remainder of the consultation period.

- 2.8 During the consultation period a total of 41 representations were received from various stakeholders and one representation was received after the closing date, which has also been considered. These representations are listed in the Consultation Statement Report at Appendix C.
- 2.9 The matters raised in the consultation have been fully considered in conjunction with PRoM. To reflect these representations and add clarity to the document the main modifications in table 1 have been made to prepare the final West Street Opportunity Area SPD. The reason for making these changes and the wording of the revised SPD are also stated in the Consultation Statement Report:

Table 1

The vision / objectives	59 % of respondents agreed with the vision. The following have been added to the vision / objectives statement to: <ul style="list-style-type: none"> • encourage an ambitious and innovative scheme of exemplary design • promote imaginative solution to the development area. • acknowledge the opportunity to enhance heritage assets and improvement to the environmental quality along West Street.
Parking	56% of respondents agreed with the proposed replacement of the West Street car park into a multi-storey format. Amendment made to include retention of disabled parking bays on street.
Highways	New paragraph added regarding highways constraints.
Connections	59% of respondents would prefer the connection to be in a form of a new footbridge, this option was the most frequently selected. Text has been added in Connections section to include desire for innovative solutions such as green / living bridge with buildings on bridges.
