

Individual responses to home to school transport consultation

Respondent ID: 1

Proposal A: to introduce an annual review of home to school transport

Do you support this proposal? Yes

Are you a recipient of this support? Yes

Comment on Proposal A:

I assumed transport was reviewed annually so this makes sense.

Proposal B: to introduce Independent Travel Training

Do you support this proposal? Yes

Are you interested in doing this?

Comment on Proposal B:

I feel this is only appropriate for children 11+. It would not be appropriate for younger children to travel independently especially if there is not a direct route.

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal? Yes

Are you interested in doing this? Yes

Comment on Proposal C:

This would assist with after-school clubs where transport may already be funded but the parent still has to make alternative arrangements to allow a child to fully participate in school life.

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal? Yes

Comment on Proposal D:

It would be a good idea to review designated areas regularly in light of all the development taking place.

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal? Yes

Are you a recipient of this support?

Comment on Proposal E:

Proposal F: to stop the discretionary offer and only provide Holyport children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal? Yes

Are you a recipient of this support?

Comment on Proposal F:

Proposal G: to remove the subsidy for Royal Borough children on discretionary seats.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal G:

If the price is too high then parents may opt to drive the children to school, creating more congestion on the roads and further pollution.

Proposal H: to remove the subsidy for the Eton Wick M10 and M11 'Yellow Bus' services.

Individual responses to home to school transport consultation

Respondent ID: 1

Do you support this proposal? Yes

Are you a recipient of this support?

Comment on Proposal H:

Proposal I: to reduce the subsidy on discretionary seats for low income families.

Do you support this proposal? No

Proposal J: to remove the subsidy on discretionary seats for low income families.

Do you support this proposal? No

Comment on Proposals I and J:

There is enough pressure on low income families in this borough as it is with rising housing costs, reductions to benefits etc. Raising the fares may result in families have to do without essentials or not being able to send the children to school. These

Proposal K: to end the availability of Ten Journey Passes on home to school transport routes

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal K:

This allows felxibility for parent/carers who may not need to use the service at all times.

Proposal L: to introduce direct debit instalment plans.

Do you support this proposal? Yes

Are you a recipient of this support?

Comment on Proposal L:

Proposal M: to provide, for SEN children, free transport home from one after-school club per week only (in line with current policy).

Do you support this proposal? Yes

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposals M and N:

I did not even realise that this was an option for SEN children. It should remain as it allows the children an opportunity to participate in all aspects of school life and not be disadvantaged because of their difficulties/distance from home. This can only support their social development.

Proposal O: to reduce the subsidy on the reduced fare railcard for young people from low income families.

Do you support this proposal? Yes

Proposal P: to remove the subsidy on the reduced fare railcard for young people form low income families.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposals O and P:

Children from low-income families should be supported to stay in education to give them the best possible start in life.

Individual responses to home to school transport consultation

Respondent ID: 1

Proposal Q: to stop providing free home to school transport to young people with SEN in post-16 education.

Do you support this proposal?

No

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposals Q and R:

Children with SEN should be supported through their education to give them the best opportunities in life.

Individual responses to home to school transport consultation

Respondent ID: 2

Proposal A: to introduce an annual review of home to school transport

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposal A:

Parents need to know what will happen for their child's schooling and not have transport potentially changed every year. Choose a policy and stick to it for a minimum of 3 years

Proposal B: to introduce Independent Travel Training

Do you support this proposal?

Don't know

Are you interested in doing this?

Comment on Proposal B:

Not having an SEN child makes this difficult for me to answer. Only the parent of such a child can possibly know if this will help their child or not

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal?

Don't know

Are you interested in doing this?

Comment on Proposal C:

again not having an SEN child I find this difficult to answer. However it does feel as though it would be more efficient for the council to provide the transport rather than allocate individual budgets

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal?

No

Comment on Proposal D:

this is the wrong way around - school transport should fit designated areas. And can the council change the designated area of an academy?

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposal E:

this council says it is all about parental choice - this potentially takes that away. What is the child can't get into a nearer school. That nearer school might also require improvement and parents would want to send their child to a school that is good o

Proposal F: to stop the discretionary offer and only provide Holyport children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposal F:

again this is partly about parental choice. Ignoring Holyport College, the nearest school for boys is Desborough - but many parents do not want to send their son to an all boys school. I'm aware that the nearest "walking distance" school for girls is show

Proposal G: to remove the subsidy for Royal Borough children on discretionary seats.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposal G:

Individual responses to home to school transport consultation

Respondent ID: 2

complete nonsense. Traffic is increasing around RBWM and will only get worse with the extra house building - we should be encouraging the use of school buses not penalising it

Proposal H: to remove the subsidy for the Eton Wick M10 and M11 'Yellow Bus' services.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposal H:

This is exactly the sort of thing the borough should be subsidising, not taking it away. Even if this meant a small increase in council tax

Proposal I: to reduce the subsidy on discretionary seats for low income families.

Do you support this proposal?

No

Proposal J: to remove the subsidy on discretionary seats for low income families.

Do you support this proposal?

Not answered

Comment on Proposals I and J:

no, no, no. Normal income families will struggle with some of the proposed changes, and you want to take away any subsidy for low income families? This is a complete disgrace and you should be ashamed of yourselves

Proposal K: to end the availability of Ten Journey Passes on home to school transport routes

Do you support this proposal?

Don't know

Are you a recipient of this support?

Comment on Proposal K:

Proposal L: to introduce direct debit instalment plans.

Do you support this proposal?

Yes

Are you a recipient of this support?

Comment on Proposal L:

if you must charge then it is sensible to offer this service. But please re-look at whether the savings you are proposing in all the changes is the best solution for residents in the borough

Proposal M: to provide, for SEN children, free transport home from one after-school club per week only (in line with current policy).

Do you support this proposal?

Not answered

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal?

Don't know

Are you a recipient of this support?

Comment on Proposals M and N:

Again, not having an SEN child, I can't comment on this or how often would be required

Proposal O: to reduce the subsidy on the reduced fare railcard for young people from low income families.

Do you support this proposal?

No

Proposal P: to remove the subsidy on the reduced fare railcard for young people from low income families.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposals O and P:

Individual responses to home to school transport consultation

Respondent ID: 2

and how would this help or benefit low income families??????????

Proposal Q: to stop providing free home to school transport to young people with SEN in post-16 education.

Do you support this proposal?

No

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposals Q and R:

as if life isn't difficult enough for parents with an SEN child, you now propose this. You should be ashamed

Individual responses to home to school transport consultation

Respondent ID: 3

Proposal A: to introduce an annual review of home to school transport

Do you support this proposal? No

Are you a recipient of this support? Yes

Comment on Proposal A:

Proposal B: to introduce Independent Travel Training

Do you support this proposal? No

Are you interested in doing this?

Comment on Proposal B:

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal? No

Are you interested in doing this?

Comment on Proposal C:

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal? No

Comment on Proposal D:

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal E:

Proposal F: to stop the discretionary offer and only provide Holyport children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal F:

Proposal G: to remove the subsidy for Royal Borough children on discretionary seats.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal G:

Proposal H: to remove the subsidy for the Eton Wick M10 and M11 'Yellow Bus' services.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal H:

Individual responses to home to school transport consultation

Respondent ID: 3

Proposal I: to reduce the subsidy on discretionary seats for low income families.

Do you support this proposal?

No

Proposal J: to remove the subsidy on discretionary seats for low income families.

Do you support this proposal?

No

Comment on Proposals I and J:

Comment on Proposal A:

Proposal B: to introduce Independent Travel Training

Do you support this proposal?

Don't know

Are you interested in doing this?

Comment on Proposal B:

I think encouraging independent travel is a parental decision and it is for the parent to decide at what stage/age is appropriate for their child to travel alone. I am happy with this scheme as long as it is voluntary and if the parents and child still fe

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal?

Yes

Are you interested in doing this?

Comment on Proposal C:

As long as the budget is in line is what they currently receive in mileage payments then I would be happy with this.

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal?

Don't know

Comment on Proposal D:

I don't quite understand how changing the designated areas will change eligibility for transport so I'm not in favour of the change. If a parent applies for X school, but instead they are allocated Y school, which they didn't put down on their application,

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Proposal A: to introduce an annual review of home to school transport

Do you support this proposal?

No

Are you a recipient of this support?

Yes

Comment on Proposal A:

certain conditions do not change using a home to school/college transport has helped many people go on with further education as they can not cope with everyday crowds ,noise and stress of going on public transport

Proposal B: to introduce Independent Travel Training

Do you support this proposal?

Don't know

Are you interested in doing this?

Comment on Proposal B:

it would be alright for certain people that are not worried by crowds and noise as certain conditions ie autism some with this condition are worse than others and they can not cope with public transport

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal?

Don't know

Are you interested in doing this?

Comment on Proposal C:

again would be ok for some depending on the young person wants to travel on public transport some enjoy using public transport but there are a lot that cant deal with it

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal?

Don't know

Comment on Proposal D:

depends on person needs if closer school placement can meet persons needs then it makes sense to go to a closer school but if the school is under 2 miles again it depends on the mobility of that person

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal?

Don't know

Are you a recipient of this support?

Comment on Proposal E:

Proposal F: to stop the discretionary offer and only provide Holyport children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal?

Don't know

Are you a recipient of this support?

Comment on Proposal F:

it depends on persons needs if closer school can meet needs also if young person has no special needs then a charge should be made for seats

Proposal G: to remove the subsidy for Royal Borough children on discretionary seats.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposal G:

looks like you are charging more to those that are living closer as to those who live further away

Proposal H: to remove the subsidy for the Eton Wick M10 and M11 'Yellow Bus' services.

No

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

No

Are you a recipient of this support?

Yes

Comment on Proposals Q and R:

this is hitting people with needs stopping them going on to further education where public transport is to much for them to cope with we all struggle to pay bills as it is now you are attacking special needs further my son shares a taxi with three other young people with needs all i can see in this policy is targeting the disability of young people who find it hard to get on in life as it is

Individual responses to home to school transport consultation

Respondent ID: 12

Proposal A: to introduce an annual review of home to school transport

Do you support this proposal? Yes

Are you a recipient of this support?

Comment on Proposal A:

Proposal B: to introduce Independent Travel Training

Do you support this proposal? No

Are you interested in doing this?

Comment on Proposal B:

The idea of training students who need transport to walk, bus or go on a train in most cases would be totally unacceptable due to their vulnerability.

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal? Yes

Are you interested in doing this?

Comment on Proposal C:

As long as their Personal Transport Budget is not less than their mileage allowance. This must not be a cash cutting exercise

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal? No

Comment on Proposal D:

Opposed to this as it seems to be an attack on parents of children with disabilities or the poorest and weakest in our society

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal E:

Opposed to this as it seems to be an attack on parents of children with disabilities or the poorest and weakest in our society

Proposal F: to stop the discretionary offer and only provide Holyport children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal F:

Opposed to this as it seems to be an attack on parents of children with disabilities or the poorest and weakest in our society

Proposal G: to remove the subsidy for Royal Borough children on discretionary seats.

Comment on Proposals Q and R:

I feel that if a school/6th form has been agreed by the borough as the appropriate place for a child to be educated then unless this has changed at 16 I dont see why transport should? I would love my son to be able to travel independently to school /collage but public transport is not a viable option for my son without one to one support at 18 and there is no sensible way of getting to his school via public transport from here. I would love him to have been able to attend our local secondary school Windsor boys and walk there as my 3 other children are all able to get to there local school independently. But we found the right school for him and its not local Changes will not affect my son but I feel strongly for others in my position. But it is different to choosing a nicer 2ndry school, whatever special school he went to at 12 transport would have been needed. (Families with special needs children have reduced incomes fact)

Proposal M: to provide, for SEN children, free transport home from one after-school club per week only (in line with current policy).

Do you support this proposal? Yes

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal? No

Are you a recipient of this support? Yes

Comment on Proposals M and N:

After school clubs (of which my son attends one a week) allows children with a statement to be more involved socially with other children in a safe and structured environment and one in which they are used to. It encourages them to get involved in the wider community of the school and helps them to become engaged in their environs. It would be terribly sad if this valuable opportunity is taken away from them because of difficulties in transport home.

Proposal O: to reduce the subsidy on the reduced fare railcard for young people from low income families.

Do you support this proposal? Not answered

Proposal P: to remove the subsidy on the reduced fare railcard for young people form low income families.

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposals Q and R:

We are hoping that our son will attend 6th form at Furze Platt senior school where he is a pupil currently (year 10). The school has done wonderful things for our son and it would be such a shame if the current free transport was to stop suddenly. He is happy at school and is doing well. Not having the free transport would impact greatly. We live in Windsor and for him to commute to Furze Platt every day without free transport would be a very challenging situation for him.

Proposal M: to provide, for SEN children, free transport home from one after-school club per week only (in line with current policy).

Do you support this proposal? Yes

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposals M and N:

This is about providing equity of opportunity. If our children were able to attend their local school they would be able to enjoy a multitude of after school clubs. For many of us the local school is not a suitable school for our children and we are required to travel some distances. They should still be able to enjoy the same opportunities to attend after school clubs as other children. Proposal N does not allow for flexibility and creativity between schools and transport companies and parents to accommodate after school clubs at no additional charge to the local authority.

Proposal O: to reduce the subsidy on the reduced fare railcard for young people from low income families.

Do you support this proposal?

No

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

Yes

Are you a recipient of this support?

Comment on Proposals Q and R:

This proposal relates to the equalities act 2010 "people with disabilities should not be put at a substantial disadvantage". SEN children will be significantly disadvantaged if they are unable to access or use buses and trains. It doesn't provide for flexibility to make other arrangements. How would these exceptions be dealt with? Via EHCP's?

Respondent ID: 28

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

No

Are you a recipient of this support?

Yes

Comment on Proposals Q and R:

It is a legal requirement to attend school or college to 18. If the school they are at is deemed suitable to their SEN requirements for post 16 education then the rules that have applied pre-16 should apply post 16. The requirements above do not take into account that a child may be physically able to travel but there are no viable commute options, for example our child would be required to take 3 trains and over 2 hours travel one way, or similar via local buses. The issue appears to be driven by the SEN policy of local schools who are incentivised to discourage local SEN children to protect grades and performance meaning the Borough must compensate by transporting SEN children significant distances, often out of Borough, and high cost.

Do you support this proposal? Yes

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposals M and N:

This is about providing equity of opportunity. If our children were able to attend their local would be able to enjoy a multitude of after school clubs For many of us the local school is not suitable for our children and we are required to travel some distance. They should still be able to enjoy the same opportunities to attend after school as other children. Proposal N does not allow for flexibility and creativity between schools, transport companies and parents to accommodate after school clubs at no additional cost to the Authority.

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal? No

Are you a recipient of this support? Yes

Comment on Proposal E:

we have no choice in Eton Wick but to send our children as young as nine on a bus into Windsor or Old Windsor as there is no middle school in the village. I think that making a charge for the bus would be ludicrous as there is no other option.

Proposal F: to stop the discretionary offer and only provide Holyport children free home to school transport only if they are eligible under the standard statutory criteria.

Proposal I: to reduce the subsidy on discretionary seats for low income families.

Do you support this proposal? No

Proposal J: to remove the subsidy on discretionary seats for low income families.

Do you support this proposal? No

Comment on Proposals I and J:

The service costs the same amount to run whether there are 20 or 25 children to run. So any additional children contributing anything, reduces the overall cost to the royal borough. If you remove the subsidy less local families will use the service. Th

Proposal K: to end the availability of Ten Journey Passes on home to school transport routes

Do you support this proposal? Don't know

Are you a recipient of this support?

Comment on Proposal K:

Proposal L: to introduce direct debit instalment plans.

Do you support this proposal? Yes

Are you a recipient of this support?

Comment on Proposal L:

Proposal M: to provide, for SEN children, free transport home from one after-school club per week only (in line with current policy).

Do you support this proposal? Yes

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposals M and N:

This is about providing equity of opportunity. If our children were able to attend their local school they would be able to enjoy a multitude of after school clubs. For many of us the local school is not a suitable school for our children and we are required to travel some distances. They should still be able to enjoy the same opportunities to attend after-school clubs as other children. Proposal N does not allow for flexibility and creativity between schools and transport companies and parents to accommodate after school clubs at no additional charge to the local authority.

Proposal O: to reduce the subsidy on the reduced fare railcard for young people from low income families.

Do you support this proposal?

No

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposals Q and R:

An EHCP is supposed to meet a person's needs up to the age of 25. The persons needs at 16/17 are no different to at 15 so why would the funding go. Most people with an ECHP will need education at least to 18 so the funding should apply until this time. This is a case of taking money from the absolutely most disadvantaged in society who are unable to fight for themselves. This proposal relates to the equalities act 2010 "people with disabilities should not be put at a substantial disadvantage." SEN children will be significantly disadvantaged if they are unable to access or use buses and trains. It doesn't provide for flexibility to make other arrangements. How would these exceptions be dealt with? Via EHCP's?

Are you a recipient of this support? Yes

Comment on Proposal A:

Proposal B: to introduce Independent Travel Training

Do you support this proposal? Don't know

Are you interested in doing this?

Comment on Proposal B:

Very hard to comment. My son goes to school too far away for him to be able to travel independently. But my youngest son (who has an EHCP) would benefit from Independent travel training. So I suppose my answer would be yes - if appropriate.

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal? Don't know

Are you interested in doing this?

Comment on Proposal C:

It all depends on the level of the budgets. Will it actually cover the costs needed to for the travel or based on a pence per mile (which wouldn't) I think more information would have to be made available before a decision is made.

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal? No

Yes

Comment on Proposals Q and R:

I am against removing the Transport for SEN 16+ As it would discriminate against those in the Sunninghill, Sunningdale & Ascot area as no provision has been agreed with South West trains. Sunninghill has no suitable bus service to any of the local FE colleges. Only south west trains from Ascot to Bracknell and Reading. These young people are forced to leave secondary school at 16 as there is no appropriate provision for them, so at 16 they have to go to FE college, having been able to previously walk to school.

Individual responses to home to school transport consultation

Respondent ID: 71

Proposal A: to introduce an annual review of home to school transport

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal A:

I think it is very hard for parents to plan for the future if the provisions could be changed from year to year. I think a three yearly review would suffice. Reviews are also costly and time consuming.

Do you support this proposal?

No

Are you a recipient of this support?

Yes

Comment on Proposals Q and R:

This is discriminatory and we are surprised it is legal. Other children can walk to school at no cost, children who cannot are discriminated against. Education or training is mandatory for post-16 children now and they should not be penalised for attending this. Why are these cuts always hitting disabled and disadvantaged children and their families? This proposal is disgusting and should never have been contemplated.

Proposal A: to introduce an annual review of home to school transport

Do you support this proposal? Yes

Are you a recipient of this support? Yes

Comment on Proposal A:

I am in favour of annual reviews where a child's ability or need is likely to improve in next year, but where a child is clearly not independent and not likely to become so, then they should not be reviewed and parents' time and frustration is not impacted.

Proposal B: to introduce Independent Travel Training

Do you support this proposal? Don't know

Are you interested in doing this?

Comment on Proposal B:

This really depends on the ability and potential of individual cases. There are those children where Training will not and never be an option. Plans to explore or implement such training should not be seen as a back door to remove Travel Services for those

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal? No

Are you interested in doing this?

Comment on Proposal C:

My answer is based on our personal needs for our child, who needs a supported Travel Service. Providing us with a budget is likely to create more work anxiety and uncertainty for us as parents and for our child. For example, we would have to source the pr

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal? Don't know

Comment on Proposal D:

I'm not clear what the proposal is here and how it would affect Special Needs families who live outside the designated area. If it will exclude families from Travel Support because they now live outside, what options do they have?

Proposal Q: to stop providing free home to school transport to young people with SEN in post-16 education.

Do you support this proposal?

No

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposals Q and R:

Again this is totally unacceptable for kids who are not capable of independent travel due to their disability. This could potentially limit their opportunity for post-16 education, support, social and emotional engagement. This is discriminating against the child and their families who have many challenges to contend with in terms of time, money and support for their SEN child.

Proposal G: to remove the subsidy for Royal Borough children on discretionary seats.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal G:

This is a huge price hike for parents to pay. It is not safe for children to cycle or walk to school, especially in the autumn/winter/spring. This is unfair for Eton Wick - it is a working but not wealthy community. Many of us would find it hard to itehr pay hte increased fees / or drop our children at school and then make it to work on time

Proposal H: to remove the subsidy for the Eton Wick M10 and M11 'Yellow Bus' services.

Individual responses to home to school transport consultation

Respondent ID: 88

Do you support this proposal? No

Are you a recipient of this support? Yes

Comment on Proposal H:

This is a huge additional tax on parents in Eton Wick . It isnt safe for our children to walk or cycle and I would have to choose between my job and paying a huge increase in fares .

Proposal I: to reduce the subsidy on discretionary seats for low income families.

Do you support this proposal? No

Proposal J: to remove the subsidy on discretionary seats for low income families.

Do you support this proposal? No

Comment on Proposals I and J:

This is really unfair - low income is low income and this will be a huge additional cost and for some would make the difference between it being able to afford to work or not. Do you realise how poorly paid people are to get Full tax credits / free school

Proposal K: to end the availability of Ten Journey Passes on home to school transport routes

Comment on Proposals O and P:

What would the new PM think of this ???? Didnt she in her first speech as PM commit to supporting every young person so that they would reach their full potential???? .

Individual responses to home to school transport consultation

Respondent ID: 88

Proposal Q: to stop providing free home to school transport to young people with SEN in post-16 education.

Do you support this proposal?

No

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposals Q and R:

As taking away subsidy for SEN is just heartless

Individual responses to home to school transport consultation

Respondent ID: 89

Proposal A: to introduce an annual review of home to school transport

Do you support this proposal?

No

Are you a recipient of this support?

Yes

Comment on Proposal A:

i believe all children with additional needs at special school should be offered home to school transport as the special school is very rarely close by to where they live? Once they go to college then it could be reviewed but still offered if required.

Proposal B: to introduce Independent Travel Training

Do you support this proposal?

No

Are you interested in doing this?

Comment on Proposal B:

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal?

No

Are you interested in doing this?

Comment on Proposal C:

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal?

Don't know

Comment on Proposal D:

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal?

Don't know

Are you a recipient of this support?

Comment on Proposal E:

Proposal F: to stop the discretionary offer and only provide Holyport children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal?

Don't know

Proposal L: to introduce direct debit instalment plans.

Do you support this proposal? Don't know

Are you a recipient of this support?

Comment on Proposal L:

Proposal M: to provide, for SEN children, free transport home from one after-school club per week only (in line with current policy).

Do you support this proposal? Yes

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposals M and N:

It is not that easy to get even one free transport home from an after school club. It took me months to get this organised with the transport team as they said it was not in their policy. When I finally did the get transport the taxi forgot to collect my son on several occasions causing huge anxiety to him to the point school had to provide him with a social story to calm him down. Manor Green do not offer any after school clubs as the budget was cut.

Proposal O: to reduce the subsidy on the reduced fare railcard for young people from low income families.

Do you support this proposal? No

Proposal P: to remove the subsidy on the reduced fare railcard for young people form low income families.

Do you support this proposal?

No

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposals M and N:

No. My son will soon be able to start after school clubs at Manor Green. Only providing limited transport (one or no times) means that we will either have to: 1. Reduce his opportunities to attend the classes, thereby reducing the proven benefits he can get from them, or 2. Mean my wife and I reduce our working hours to accommodate this, which has an impact on productivity and contributions to the exchequer Either way or family is denied the same opportunities that others enjoy

[Redacted comment area]

Individual responses to home to school transport consultation

Respondent ID: 102

Proposal A: to introduce an annual review of home to school transport

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposal A:

Families with SEN children need stability and assurance that their circumstances will not alter. Unless requested by parents, I think annual reviews will be disruptive and grossly unfair, meaning a constant worry for parents about transport.

Proposal B: to introduce Independent Travel Training

Do you support this proposal?

Yes

Are you interested in doing this?

Comment on Proposal B:

I think a trial is a reasonable idea. However there should be clear assessment criteria set from the outset as to how to judge the outcome. It must also be accepted that independent travel training will not be appropriate for every SEN child at any point

Proposal C: to introduce Personal Transport Budgets

Do you support this proposal?

Don't know

Are you interested in doing this?

Comment on Proposal C:

You should take into consideration responses from the impacted families. Those of us not struggling with these issues cannot judge.

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal?

Don't know

Comment on Proposal D:

I don't know the implication of this, but have deep concerns. For example in Holyport, the college may well be the closest school, but it is so small that it cannot accommodate even the full year of Holyport Primary pupils, their rights to schooling (and

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposal E:

As with Holyport children, all children and families should have a choice. What if they can't get a place at their closest one, or they need to move because they are being bullied, or they just don't like the ethos. No, I think families should have a choice

Proposal F: to stop the discretionary offer and only provide Holyport children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposal F:

As before, Holyport College may be the closest school for many children, but the intake is so tiny that you cannot penalise children who have to go elsewhere. Last year less than 10 children were taken in based on catchment by the time all other criteria

Proposal G: to remove the subsidy for Royal Borough children on discretionary seats.

Individual responses to home to school transport consultation

Respondent ID: 102

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal G:

Again, who are you trying to help here? this does not help anyone, and it petty and penny pinching. Children should be able to choose where to go to school, and if they can't get free transport for whatever reason, then the family should be assisted.

Proposal H: to remove the subsidy for the Eton Wick M10 and M11 'Yellow Bus' services.

Do you support this proposal? Yes

Are you a recipient of this support?

Comment on Proposal H:

All services in the area should be the same cost to families.

Proposal I: to reduce the subsidy on discretionary seats for low income families.

Do you support this proposal? No

Proposal J: to remove the subsidy on discretionary seats for low income families.

Do you support this proposal? No

Comment on Proposals I and J:

go on, hit the poorest, least able to fend for themselves. NO you must assist low income families however possible, not make it even harder.

Proposal K: to end the availability of Ten Journey Passes on home to school transport routes

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal K:

I was not previously aware of these, but surely it makes sense to help children and families plan ahead, budget, and be assured of getting to school. Do NOT make it more difficult.

Proposal L: to introduce direct debit instalment plans.

Do you support this proposal? Yes

Are you a recipient of this support?

Comment on Proposal L:

This sounds reasonable, as long as it is an OPTION not a forced choice. Many families are either unbanked, unable to budget well, or uncomfortable with direct debits - they should not be made to pay this way. An option for those that wish to is sensible

Proposal M: to provide, for SEN children, free transport home from one after-school club per week only (in line with current policy).

Do you support this proposal? No

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposals M and N:

This has to be the worst proposal out of a pretty bad bunch. SEN pupils and families have so much to contend with already, and to curtail their world - their social, personal, physical and educational development by these proposals is quite frankly disgusting. Put yourselves in their shoes for once. Scrap this ridiculous and unfair proposal and hang your heads in embarrassment. What is this borough coming to to even consider it. And no, I don't have SEN children, but I have a conscience and morals.

Do you support this proposal? Not answered

Are you interested in doing this?

Comment on Proposal C:

Proposal D: to change school designated areas to better fit home to school transport rules

Do you support this proposal? No

Comment on Proposal D:

Eton Porney and Eton Wick are feeders into St Peters Old Windsor. By changing designated areas has significant detrimental impact on admissions for St Peters School when this has been a well established and effective feeder arrangement build up over many

Proposal E: to stop the discretionary offer and provide Windsor children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal? No

Are you a recipient of this support?

Comment on Proposal E:

This is discriminating against one specific middle school. St Peters Old Windsor must be treated equitably with other Middle Schools. All middle schools need to be part of the proposal.

Proposal F: to stop the discretionary offer and only provide Holyport children free home to school transport only if they are eligible under the standard statutory criteria.

Do you support this proposal?

Yes

Proposal N: to stop providing any free transport home from after-school clubs.

Do you support this proposal?

No

Are you a recipient of this support?

Comment on Proposals M and N:

This is about equity of opportunity. If our children were able to go to local schools they could do this. they should have some opportunity . This policy does not allow flexibility and creativity between schools/parents and transport to accommodate after school clubs at no extra cost.

Proposal O: to reduce the subsidy on the reduced fare railcard for young people from low income families.

Proposal Q: to stop providing free home to school transport to young people with SEN in post-16 education.

Do you support this proposal?

No

Individual responses to home to school transport consultation

Respondent ID: 110

Proposal R: to charge for home to school transport provided to young people with SEN in post-16 education.

Do you support this proposal?

Yes

Are you a recipient of this support?

Comment on Proposals Q and R:

Regarding proposal Q and R, they relate to Equalities Act 2010 "people with disabilities should not be put at a substantial disadvantage". SEN children will be significantly disadvantaged if they are unable to access or use buses and trains. It doesn't provide flexibility to make other arrangements.

Comment on Proposal G:

I read through your proposed changes and I have to say I do not agree with a lot of it. My daughter is in Year 12 at Charters. I am really unhappy with having to pay nearly £ 600 a year for a bus. In addition as she is in Sixth form she does not stay all day and rarely uses the bus in both the morning and the evening so it creates a situation where it is the most expensive bus ride ever. I resent having to pay for the bus, you should be encouraging people to obtain higher education not financially penalizing them. An idea, perhaps stop paying the poorest families to send their kids to school? rather than taking it out on the middle classes families as usual. Absurd that you would be considering raising the cost of the bus to over £ 700/year? How does that help working parents
