

Key Priorities

The Community Safety Partnership establishes its priorities in a number of ways. Police data is used to identify crime trends, while the borough also conducts an annual survey which highlights public concerns around community safety; national and regional emerging issues such as child sexual exploitation are taken into account along with issues identified by local neighbourhood action group surveys and police Have Your Say Meetings. Account is taken of related issues and plans including those of the Adults and Children's Safeguarding Boards. The priorities often fall across two or more themes and are delivered within the theme framework. The 2015/16 Strategic Assessment identified 5 main priority areas:

Priority	Areas tackled
Violent Crime	All violent crime in particular domestic abuse and assaults in the Night Time Economy
Sexual Assault	All types of sexual assault
Safeguarding (Crime related)	Reduce all crime targeted at vulnerable individuals in particular hate crimes
Burglary	Domestic and non-Burglary
Business As Usual	Including all types of Anti-social Behaviour, speeding, parking issues etc.

Integrated Offender Management (IOM)

Integrated Offender Management will apply as a principle across all activities encompassed within this plan to ensure the activities, efforts and intelligence of all partners and stakeholders contribute to the objective of each theme.

Themes

The priorities established in the Annual Strategic Assessment were agreed at the December 2015 Community Safety Partnership Meeting. The priorities are categorised under the themes detailed below. Each theme is overseen by a theme lead from the partnership who provides progress reports on delivery to each CSP meeting.

Theme 1 – Prevention (Supporting our communities)

Theme 2 – Protection (Supporting victims of crime & anti-social behaviour)

Theme 3 – Inclusion (Assisting troubled families and rehabilitating offenders)

A fourth theme was also agreed, which spans all of the priorities and activities implemented by the CSP and as such is incorporated in each of the three themes above.

Theme 4 – Maintaining Public Confidence (Resident reassurance & confidence initiatives)

The identified priorities have been reviewed and analysed more closely and broken down into more specific sub-priorities
